General Information and Responsibilities

Chapter 1

Introduction

1-1. Purpose

This regulation prescribes the authorization for wear, composition, and classification of uniforms, and the occasions for wearing all personal (clothing bag issue), optional, and commonly worn organizational Army uniforms. It also prescribes the awards, insignia, and accouterments authorized for wear on the uniform, and how these items are worn. General information is also provided on the authorized material, design, and uniform quality control system.

1-2. References

Required and related publications are listed in appendix A.

1-3. Explanation of abbreviations and terms

Abbreviations and special terms used in this regulation are explained in the glossary.

1-4. General

a. Only uniforms, accessories, and insignia prescribed in this regulation or in the common tables of allowance (CTA), or as approved by Headquarters, Department of the Army (HQDA), will be worn by personnel in the U.S. Army. Unless specified in this regulation, the commander issuing the clothing and equipment will establish wear policies for organizational clothing and equipment. No item governed by this regulation will be altered in any way that changes the basic design or the intended concept of fit as described in TM 10-227 and AR 700-84, including plating, smoothing, or removing detail features of metal items, or otherwise altering the color or appearance. All illustrations in this regulation should coincide with the text. The written description will control any inconsistencies between the text and the illustration.

b. AR 70-1 prescribes Department of the Army (DA) policies, responsibilities, and administrative procedures by which all clothing and individual equipment used by Army personnel are initiated, designed, developed, tested, approved, fielded, and modified.

c. AR 385-10 prescribes DA policies, responsibilities, and administrative procedures and funding for protective clothing and equipment.

d. In accordance with chapter 45, section 771, title 10, United States Code (10 USC 771), no person except a member of the U.S. Army may wear the uniform, or a distinctive part of the uniform of the U.S. Army unless otherwise authorized by law. Additionally, no person except a member of the U.S. Army may wear a uniform, any part of which is similar to a distinctive part of the U.S. Army uniform. This includes the distinctive uniforms and uniform items listed in paragraph 1-12 of this regulation. Further, soldiers are not authorized to wear distinctive uniforms or uniform items of the U.S. Army or of other U.S. Services with, or on civilian clothes, except as provided in chapters 27 through 30 of this regulation.

1-5. How to recommend changes to Army uniforms

a. Army Ideas For Excellence Program (AIEP). If a major Army command (MACOM) recommends approval of an AIEP suggestion, the recommendation will be forwarded to the Project Manager-Soldier Systems (SEQ), Bldg. 328, 5901 Putnam Road, Fort Belvoir, VA 22060-5852, for consideration. Each suggestion forwarded to the project manager will reflect the MACOM position; contain all appropriate supporting documentation; and be signed by the commander, deputy commander, chief of staff, or comparable level official. Suggestions not recommended for adoption at any level will not be forwarded to PM-Soldier. Suggestions forwarded without a MACOM position will be returned to the MACOM for action.

b. General comments and suggestions. Comments and suggestions regarding the policy, criteria, and administrative instructions concerning individual military decorations, the Good Conduct Medal, service medals and service ribbons, combat and special skill badges and tabs, and unit decorations will be processed in accordance with AR 600-8-22.

1-6. Classification of service and utility or field uniforms

a. The male class A service uniform consists of the Army green (AG) coat and trousers, a short- or long-sleeved AG shade 415 shirt with a black four-in-hand tie, and other authorized accessories.

b. The male class B service uniform is the same as class A, except the service coat is not worn. The black four-in-hand tie is required with the long-sleeved AG shade 415 shirt when the long-sleeved shirt is worn without the class A coat, as an outer garment; the tie is optional with the short-sleeved shirt.

c. The female class A service uniform consists of the Army green coat and skirt or slacks, a short- or long-sleeved AG shade 415 shirt with a black neck tab, and other authorized accessories. The Army green maternity uniform (slacks

or skirt) is also classified as a class A service uniform when the tunic is worn. When the tunic is worn, females will wear the neck tab with both the short- and long-sleeved maternity shirts.

d. The female class B service uniform is the same as the class A, except that neither the service coat nor the maternity tunic are worn. The black neck tab is required only when wearing the long-sleeved AG shade 415 shirt or the long-sleeved maternity shirt without the class A coat or tunic; the neck tab is optional with the short-sleeved version of both shirts.

e. Class C uniforms are the utility, field, hospital duty, food service, and other organizational uniforms.

f. See the table of prescribed dress in appendix B.

1–7. Personal appearance policies

a. General. The Army is a uniformed service where discipline is judged, in part, by the manner in which a soldier wears a prescribed uniform, as well as by the individual's personal appearance. Therefore, a neat and well-groomed appearance by all soldiers is fundamental to the Army and contributes to building the pride and esprit essential to an effective military force. A vital ingredient of the Army's strength and military effectiveness is the pride and self-discipline that American soldiers bring to their Service through a conservative military image. It is the responsibility of commanders to ensure that military personnel under their command present a neat and soldierly appearance. Therefore, in the absence of specific procedures or guidelines, commanders must determine a soldier's compliance with standards in this regulation. Soldiers must take pride in their appearance at all times, in or out of uniform, on and off duty. Pride in appearance includes soldiers' physical fitness and adherence to acceptable weight standards, in accordance with AR 600–9.

b. Exceptions to appearance standards based on religious practices.

(1) As provided by AR 600–20, paragraph 5–6, and subject to temporary revocation because of health, safety, or mission requirements, the following applies to the wear of religious apparel, articles, or jewelry. The term "religious apparel" is defined as articles of clothing worn as part of the observance of the religious faith practiced by the soldier. Religious articles include, but are not limited to, medallions, small booklets, pictures, or copies of religious symbols or writing carried by the individual in wallets or pockets. Except as noted below, personnel may not wear religious items if they do not meet the standards of this regulation, and requests for accommodation will not be entertained (see AR 600–20, para 5–6g(2)(d)).

(a) Soldiers may wear religious apparel, articles, or jewelry with the uniform, to include the physical fitness uniform, if they are neat, conservative, and discreet. "Neat conservative, and discreet" is defined as meeting the uniform criteria of this regulation. In other words, when religious jewelry is worn, the uniform must meet the same standards of wear as if the religious jewelry were not worn. For example, a religious item worn on a chain may not be visible when worn with the utility, service, dress, or mess uniforms. When worn with the physical fitness uniform, the item should be no more visible than identification (ID) tags would be in the same uniform. The width of chains worn with religious items should be approximately the same size as the width of the ID tag chain.

(b) Soldiers may not wear these items when doing so would interfere with the performance of their duties or present a safety concern. Soldiers may not be prohibited, however, from wearing religious apparel, articles, or jewelry meeting the criteria of this regulation simply because they are religious in nature, if wear is permitted of similar items of a nonreligious nature. A specific example would be wearing a ring with a religious symbol. If the ring meets the uniform standards for jewelry and is not worn in a work area where rings are prohibited because of safety concerns, then wear is allowed and may not be prohibited simply because the ring bears a religious symbol.

(c) During a worship service, rite, or ritual, soldiers may wear visible or apparent religious articles, symbols, jewelry, and apparel that do not meet normal uniform standards. Commanders, however, may place reasonable limits on the wear of non-subdued items of religious apparel during worship services, rites, or rituals conducted in the field for operational or safety reasons. When soldiers in uniform wear visible religious articles on such occasions, they must ensure that these articles are not permanently affixed or appended to any prescribed article of the uniform.

(d) Chaplains may wear religious attire as described in this regulation, CTA 50–909, and AR 165–1 in the performance of religious services and other official duties, as required. Commanders may not prohibit chaplains from wearing religious symbols that are part of the chaplain's duty uniform. (See AR 600–20, para 5–6g(7).)

(2) Soldiers may wear religious headgear while in uniform if the headgear meets the following criteria.

(a) It must be subdued in color (black, brown, green, dark or navy blue, or a combination of these colors).

(b) It must be of a style and size that can be completely covered by standard military headgear, and it cannot interfere with the proper wear or functioning of protective clothing or equipment.

(c) The headgear cannot bear any writing, symbols, or pictures.

(d) Personnel will not wear religious headgear in place of military headgear when military headgear is required (outdoors, or indoors when required for duties or ceremonies).

(3) Personal grooming. Hair and grooming practices are governed by paragraph 1–8 of this regulation, and exceptions or accommodations based on religious practices will not be granted. As an exception, policy exceptions based on

religious practice given to soldiers in accordance with AR 600–20 on or prior to 1 January 1986 remain in effect as long as the soldier remains otherwise qualified for retention.

1–8. Hair and fingernail standards and grooming policies

a. Hair.

(1) General. The requirement for hair grooming standards is necessary to maintain uniformity within a military population. Many hairstyles are acceptable, as long as they are neat and conservative. It is not possible to address every acceptable hairstyle, or what constitutes eccentric or conservative grooming. Therefore, it is the responsibility of leaders at all levels to exercise good judgment in the enforcement of Army policy. All soldiers will comply with the hair, fingernail, and grooming policies while in any military uniform or while in civilian clothes on duty.

(a) Leaders will judge the appropriateness of a particular hairstyle by the appearance of headgear when worn. Soldiers will wear headgear as described in the applicable chapters of this regulation. Headgear will fit snugly and comfortably, without distortion or excessive gaps. Hairstyles that do not allow soldiers to wear the headgear properly, or that interfere with the proper wear of the protective mask or other protective equipment, are prohibited.

(b) Extreme, eccentric, or trendy haircuts or hairstyles are not authorized. If soldiers use dyes, tints, or bleaches, they must choose those that result in natural hair colors. Colors that detract from a professional military appearance are prohibited. Therefore, soldiers should avoid using colors that result in an extreme appearance. Applied hair colors that are prohibited include, but are not limited to, purple, blue, pink, green, orange, bright (fire-engine) red, and fluorescent or neon colors. It is the responsibility of leaders to use good judgment in determining if applied colors are acceptable, based upon the overall effect on soldiers' appearance.

(c) Soldiers who have a texture of hair that does not part naturally may cut a part into the hair. The part will be one straight line, not slanted or curved, and will fall in the area where the soldier would normally part the hair. Soldiers will not cut designs into their hair or scalp.

(2) Male haircuts will conform to the following standards.

(a) The hair on top of the head must be neatly groomed. The length and bulk of the hair may not be excessive or present a ragged, unkempt, or extreme appearance. The hair must present a tapered appearance. A tapered appearance is one where the outline of the soldier's hair conforms to the shape of the head, curving inward to the natural termination point at the base of the neck. When the hair is combed, it will not fall over the ears or eyebrows, or touch the collar, except for the closely cut hair at the back of the neck. The block-cut fullness in the back is permitted to a moderate degree, as long as the tapered look is maintained. In all cases, the bulk or length of hair may not interfere with the normal wear of headgear (see para 1–8a(1)(a), above) or protective masks or equipment. Males are not authorized to wear braids, cornrows, or dreadlocks (unkempt, twisted, matted, individual parts of hair) while in uniform or in civilian clothes on duty. Hair that is clipped closely or shaved to the scalp is authorized.

(b) Males will keep sideburns neatly trimmed. Sideburns may not be flared; the base of the sideburn will be a clean-shaven, horizontal line. Sideburns will not extend below the lowest part of the exterior ear opening.

(c) Males will keep their face clean-shaven when in uniform or in civilian clothes on duty. Mustaches are permitted; if worn, males will keep mustaches neatly trimmed, tapered, and tidy. Mustaches will not present a chopped off or bushy appearance, and no portion of the mustache will cover the upper lip line or extend sideways beyond a vertical line drawn upward from the corners of the mouth (see figure 1–1). Handlebar mustaches, goatees, and beards are not authorized. If appropriate medical authority prescribes beard growth, the length required for medical treatment must be specified. For example, "The length of the beard will not exceed ¼ inch" (see TB MED 287). Soldiers will keep the growth trimmed to the level specified by appropriate medical authority, but they are not authorized to shape the growth into goatees, or "Fu Manchu" or handlebar mustaches.

Figure 1-1. Wear of mustache

(d) Males are prohibited from wearing wigs or hairpieces while in uniform or in civilian clothes on duty, except to cover natural baldness or physical disfiguration caused by accident or medical procedure. When worn, wigs or hairpieces will conform to the standard haircut criteria as stated in 1-8a(2)(a), above.

(3) Female haircuts will conform to the following standards.

(a) Females will ensure their hair is neatly groomed, that the length and bulk of the hair are not excessive, and that the hair does not present a ragged, unkempt, or extreme appearance. Likewise, trendy styles that result in shaved portions of the scalp (other than the neckline) or designs cut into the hair are prohibited. Females may wear braids and cornrows as long as the braided style is conservative, the braids and cornrows lie snugly on the head, and any hair-holding devices comply with the standards in 1-8a(3)(d) below. Dreadlocks (unkempt, twisted, matted individual parts of hair) are prohibited in uniform or in civilian clothes on duty. Hair will not fall over the eyebrows or extend below the bottom edge of the collar at any time during normal activity or when standing in formation. Long hair that falls naturally below the bottom edge of the collar, to include braids, will be neatly and inconspicuously fastened or pinned, so no free-hanging hair is visible. This includes styles worn with the physical fitness uniform/improved physical fitness uniform (PFU/IPFU).

(b) Styles that are lopsided or distinctly unbalanced are prohibited. Ponytails, pigtails, or braids that are not secured to the head (allowing hair to hang freely), widely spaced individual hanging locks, and other extreme styles that protrude from the head are prohibited. Extensions, weaves, wigs, and hairpieces are authorized; however, these additions must have the same general appearance as the individual's natural hair. Additionally, any wigs, extensions, hairpieces, or weaves must comply with the grooming policies set forth in this paragraph.

(c) Females will ensure that hairstyles do not interfere with proper wear of military headgear and protective masks or equipment at any time (see 1-8a(1)(a), above). When headgear is worn, the hair will not extend below the bottom edge of the front of the headgear, nor will it extend below the bottom edge of the collar.

(d) Hair-holding devices are authorized only for the purpose of securing the hair. Soldiers will not place hair-holding devices in the hair for decorative purposes. All hair-holding devices must be plain and of a color as close to the soldier's hair as is possible or clear. Authorized devices include, but are not limited to, small, plain scrunchies (elastic hair bands covered with material), barrettes, combs, pins, clips, rubber bands, and hair bands. Devices that are conspicuous, excessive, or decorative are prohibited. Some examples of prohibited devices include, but are not limited to, large, lacy scrunchies; beads, bows, or claw clips; clips, pins, or barrettes with butterflies, flowers, sparkles, gems, or scalloped edges; and bows made from hairpieces.

(e) Soldiers may not wear hairnets unless they are required for health or safety reasons, or in the performance of duties (such as those of a cook). No other type of hair covering is authorized in lieu of the hairnet. The commander will provide the hairnet to the soldier at no cost.

b. Cosmetics.

(1) General. As with hairstyles, the requirement for standards regarding cosmetics is necessary to maintain uniformity and to avoid an extreme or unmilitary appearance. Males are prohibited from wearing cosmetics, to include nail polish. Females are authorized to wear cosmetics with all uniforms, provided they are applied conservatively and in good taste and complement the uniform. Leaders at all levels must exercise good judgment in the enforcement of this policy.

(a) Females may wear cosmetics if they are conservative and complement the uniform and their complexion. Eccentric, exaggerated, or trendy cosmetic styles and colors, to include makeup designed to cover tattoos, are inappropriate with the uniform and are prohibited. Permanent makeup, such as eyebrow or eyeliner, is authorized as long as the makeup conforms to the standards outlined above.

(b) Females will not wear shades of lipstick and nail polish that distinctly contrast with their complexion, that detract from the uniform, or that are extreme. Some examples of extreme colors include, but are not limited to, purple, gold, blue, black, white, bright (fire-engine) red, khaki, camouflage colors, and fluorescent colors. Soldiers will not apply designs to nails or apply two-tone or multi-tone colors to nails.

(2) Females will comply with the cosmetics policy while in any military uniform or while in civilian clothes on duty.

c. Fingernails. All personnel will keep fingernails clean and neatly trimmed. Males will keep nails trimmed so as not to extend beyond the fingertip. Females will not exceed a nail length of $\frac{1}{4}$ inch, as measured from the tip of the finger. Females will trim nails shorter if the commander determines that the longer length detracts from the military image, presents a safety concern, or interferes with the performance of duties.

d. Hygiene and body grooming. Soldiers will maintain good personal hygiene and grooming on a daily basis and wear the uniform so as not to detract from their overall military appearance.

e. Tattoo policy

(1) Tattoos or brands that are visible in a class A uniform (worn with slacks/trousers) are prohibited.

(2) Tattoos or brands that are extremist, indecent, sexist, or racist are prohibited, regardless of location on the body, as they are prejudicial to good order and discipline within units.

(a) Extremist tattoos or brands are those affiliated with, depicting, or symbolizing extremist philosophies, organizations, or activities. Extremist philosophies, organizations, and activities are those which advocate racial, gender or ethnic hatred or intolerance; advocate, create, or engage in illegal discrimination based on race, color, gender, ethnicity, religion, or national origin; or advocate violence or other unlawful means of depriving individual rights under the U.S. Constitution, Federal, or State law (see para 4–12, AR 600–20).

(b) Indecent tattoos or brands are those that are grossly offensive to modesty, decency, or propriety; shock the moral sense because of their vulgar, filthy, or disgusting nature or tendency to incite lustful thought; or tend reasonably to corrupt morals or incite libidinous thoughts.

(c) Sexist tattoos or brands are those that advocate a philosophy that degrades or demeans a person based on gender, but that may not meet the same definition of “indecent.”

(d) Racist tattoos or brands are those that advocate a philosophy that degrades or demeans a person based on race, ethnicity, or national origin.

(3) Counseling requirements.

(a) Commanders will ensure soldiers understand the tattoo policy.

(b) For soldiers who are not in compliance, commanders may not order the removal of a tattoo or brand. However, the commander must counsel soldiers, and afford them the opportunity to seek medical advice about removal or alteration of the tattoo or brand.

(4) If soldiers are not in compliance with the policy, and refuse to remove or alter the tattoos or brands, commanders will:

(a) Ensure the soldier understands the policy.

(b) Ensure the soldier has been afforded the opportunity to seek medical advice about removal or alteration.

(c) Counsel the soldier in writing. The counseling form will state that the soldier’s refusal to remove extremist, indecent, sexist, or racist tattoos or brands anywhere on the body, or refusal to remove any type of tattoo or brand visible in the class A uniform (worn with slacks/trousers), will result in discharge.

(5) Existing tattoos or brands on the hands that are not extremist, indecent, sexist, or racist, but are visible in the class A uniform (worn with slacks/trousers) are authorized for current soldiers only. This “grandfather” provision does not apply to soldiers enlisting as of the effective date of this regulation.

(6) Finality of determination.

(a) Recruiting battalion commanders or recruiting battalion executive officers will make initial entry determinations that tattoos or brands comply with this policy. This authority will not be delegated further.

(b) Unit commanders or unit executive officers will make determinations for soldiers currently on active duty. This authority will not be delegated further.

(c) Determinations will be fully documented in writing, and will include a description of existing tattoos or brands and their location on the body. A copy of the determination will be provided to the soldier. Unless otherwise directed by the Army Deputy Chief of Staff, G–1, these determinations are final. If a tattoo or brand is discovered to violate this policy after an initial determination has been documented, commanders must submit requests for an exception to policy or for discharge of the soldier through their chain of command to the Army Deputy Chief of Staff, G–1, for approval.

(7) Soldiers may not cover tattoos or brands in order to comply with the tattoo policy.

1–9. Uniform appearance and fit

a. Appearance.

(1) All personnel will maintain a high standard of dress and appearance. Uniforms will fit properly; trousers, pants, or skirts should not fit tightly; and personnel must keep uniforms clean and serviceable and press them as necessary. Soldiers must project a military image that leaves no doubt that they live by a common military standard and are responsible to military order and discipline. Soldiers will ensure that articles carried in pockets, such as wallets, checkbooks, combs, and keys, do not protrude from the pocket or present a bulky appearance.

(2) Wear of items on uniforms.

(a) When required and prescribed by the commander, soldiers may attach keys or key chains to the uniform when performing duties such as charge of quarters, armorer, duty officer/NCO, or other duties as prescribed by the commander. Keys or key chains will be attached to the uniform on the belt, belt loops, or waistband.

(b) At the discretion of the commander, and when required in the performance of duties listed above, soldiers may wear an electronic device on the belt, belt loops, or waistband of the uniform. Only one electronic device may be worn; it may be either a pager or a cell phone. The body of the device may not exceed 4x2x1 inches, and the device and carrying case must be black; no other colors are authorized. If security cords or chains are attached to the device, soldiers will conceal the cord or chain from view. Other types of electronic devices are not authorized for wear on the uniform. If the commander issues and requires the use of other electronic devices in the performance of duties, the soldier will carry them in the hand, pocket, briefcase, purse, bag, or in some other carrying container.

(c) Soldiers will not wear keys, key chains, or electronic devices on the uniform when the commander determines such wear is inappropriate, such as in formation, or during parades or ceremonies. Soldiers will not wear items or devices on the uniform when not performing required duties.

(3) While in uniform, personnel will not place their hands in their pockets, except momentarily to place or retrieve objects. Soldiers will keep uniforms buttoned, zipped, and snapped. They will ensure metallic devices such as metal insignia, belt buckles, and belt tips are free of scratches and corrosion and are in proper luster or remain properly subdued, as applicable; and that all medals and ribbons are clean and not frayed. Personnel will keep shoes and boots cleaned and shined. Soldiers will replace the insignia listed in AR 700–84, paragraph 5–5, when it becomes unserviceable or no longer conforms to standards.

(4) Lapels and sleeves of service, dress, and mess coats and jackets will be roll-pressed, without creasing. Skirts will not be creased. Trousers, slacks, and the sleeves of shirts and blouses will be creased. Soldiers may add military creases to the AG shade 415 shirt and the BDU coat (not the field jacket). Personnel will center the front creases on each side of the shirt, centered on the pockets, for those garments that have front pockets. Soldiers may press a horizontal crease across the upper back of the shirt or coat (not necessary on the male shirt due to the yoke seam), and they may press three equally spaced vertical creases down the back, beginning at the yoke seam or the horizontal crease. Additionally, personnel may crease the sleeves of the battle dress uniform (BDU) coat. Personnel are not authorized to sew military creases into the uniform.

(5) Although some uniform items are made of wash-and-wear materials or are treated with a permanent-press finish, soldiers may need to press these items to maintain a neat, military appearance. However, before pressing uniform items, soldiers should read and comply with care instruction labels attached to the items. Soldiers may starch BDUs and the maternity work uniform, at their option. Commanders will not require soldiers to starch these uniforms, and soldiers will not receive an increase in their clothing replacement allowance to compensate for potential premature wear that may be caused by starching uniforms.

b. Fit. Fitting instructions and alterations of uniforms will be made in accordance with AR 700–84 and TM 10–227. The following is a summary of general fitting guidelines.

(1) Black all-weather coat.

(a) Males. The length of the sleeves of the all-weather coat will be ½ inch longer than the service coat. The bottom of the black all weather coat will reach to a point 1½ inches below the center of the knee.

(b) Females. The length of the sleeves of the all-weather coat will be ½ inch longer than the service coat. The bottom of the coat will reach a point at least 1 inch below the skirt hem, but not less than 1½ inches below the center of the knee.

(2) Uniform coats and jackets (male and female). The sleeve length will be 1 inch below the bottom of the wrist bone.

(3) Trousers and slacks.

(a) Trousers will be fitted and worn with the lower edge of the waistband at the top of the hipbone, plus or minus ½ inch. The front crease of the trousers will reach the top of the instep, touching the top of the shoe at the shoelaces. Trousers will be cut on a diagonal line to reach a point approximately midway between the top of the heel and the top of the standard shoe in the back. The trousers may have a slight break in the front.

(b) Slacks will be fitted and worn so that the center of the waistband is at the natural waistline. The front crease of the slacks will reach the top of the instep, touching the top of the foot or the shoe at the shoelaces. Slacks will be cut on a diagonal line to reach a point approximately midway between the top of the heel and the top of the standard shoe in the back. The slacks may have a slight break in the front.

(4) Knee-length skirts. Skirt lengths will be no more than 1 inch above or 2 inches below the center of the knee.

(5) Long-sleeved shirts. The sleeve length will extend to the center of the wrist bone.

(6) Other. Personnel will wear appropriate undergarments with all uniforms, in accordance with paragraph 27–28.

1–10. When the wear of the Army uniform is required or prohibited

a. All personnel will wear the Army uniform when on duty, unless granted an exception by the commander to wear civilian clothes. The wear of civilian clothing on duty is subject to the provisions of AR 700–84. The following personnel may grant exceptions:

(1) Commanders of major commands.

(2) Assistant Secretaries, the Secretary of Defense or his designee, or the Secretary of the Army.

(3) Heads of Department of Defense agencies.

(4) Heads of Department of the Army Staff agencies.

b. Personnel traveling on Air Mobility Command (AMC) and non-AMC flights on permanent change of station (PCS) orders, temporary duty (TDY), emergency leave, or space-available flights, are authorized to wear civilian clothes. Personnel must ensure clothing worn is appropriate for the occasion and reflects positively on the Army. (See Department of Defense Foreign Clearance Guide (DOD 4500.54–G)) for information concerning mandatory wear of civilian clothing in foreign countries. The individual's travel orders will reflect information authorizing the wear of civilian clothing.)

c. Soldiers may wear the BDU when deploying as part of a unit move and the mode of transportation is for the exclusive use of the military. Embarkation and debarkation points will be in military-controlled areas.

d. Soldiers may wear optional uniform items with the class A and B service uniforms, as prescribed in this regulation. All uniform combinations are authorized for year-round wear. However, soldiers should use appropriate discretion based upon weather conditions and duties. Wearing combinations of uniform items not prescribed in this regulation or in other authorization documents approved by HQDA, is prohibited. Commanders will not prescribe seasonal wear dates for uniform items.

e. Wear of military and civilian items.

(1) The wear of a combination of civilian and military clothing is prohibited, unless prescribed in this regulation or other authorization documents approved by HQDA.

(2) Soldiers may carry civilian gym bags, civilian rucksacks, or other similar civilian bags while in uniform. Soldiers may carry these bags by hand, or on one shoulder using a shoulder strap. The bag must be carried on the same side of the body as the shoulder strap; therefore, soldiers may not carry the bag slung across the body with the strap over the opposite shoulder. If soldiers choose to carry a shoulder bag while in uniform, the bag must be black with no other colors and may not have any logos. The contents of the bag may not be visible; therefore, see-through plastic or mesh bags are not authorized. Soldiers may not carry civilian bags over both shoulders unless they are riding a bicycle or motorcycle. Upon dismount, soldiers will revert to carrying the bag over one shoulder. There is no restriction on the color of civilian bags carried in the hand. These rules do not apply to purses, which are covered in chapter 27 of this regulation. Commanders govern the wear of organizational issue rucksacks in garrison and field environments.

f. Soldiers may continue to wear uniform items changed in design or material as long as the item remains in serviceable condition, unless specifically prohibited. (See appendix D for a list of possession and wear-out dates for uniform items.)

g. Civilian clothing is considered appropriate attire for individuals who are participating in civilian outdoor activities such as volksmarches, orienteering, or similar activities. Soldiers who are spectators at these activities may wear the service uniform. Soldiers who are participating in, or observing these events are not authorized to wear utility or field uniforms. However, commanders of participating units or of those units that provide support personnel, such as medical and traffic control personnel, may prescribe appropriate uniforms, to include utility or organizational uniforms, if warranted by the occasion, weather conditions, or activity.

h. Soldiers may wear experimental uniform items while actively engaged in an experimental uniform test program approved by HQ, U.S. Army Training and Doctrine Command (TRADOC), HQ, U.S. Army Materiel Command (AMC), or the Army Uniform Board, HQDA. Soldiers will not wear experimental items after completion of the test unless such wear is approved by HQDA.

i. Army National Guard technicians who are also members of the Army National Guard will wear the appropriate Army duty uniform while engaged in their civil service status.

j. Wearing Army uniforms is prohibited in the following situations:

(1) In connection with the furtherance of any political or commercial interests, or when engaged in off-duty civilian employment.

(2) When participating in public speeches, interviews, picket lines, marches, rallies, or public demonstrations, except as authorized by competent authority.

(3) When attending any meeting or event that is a function of, or is sponsored by, an extremist organization.

(4) When wearing the uniform would bring discredit upon the Army.

(5) When specifically prohibited by Army regulations.

k. Soldiers will wear headgear with the Army uniform, except under the following circumstances:

(1) Headgear is not required if it would interfere with the safe operation of military vehicles. The wear of military headgear is not required while in or on a privately owned vehicle (to include a motorcycle or bicycle), a commercial vehicle, or on public conveyance (such as a subway, train, plane, or bus).

(2) Soldiers will not wear headgear indoors unless under arms in an official capacity, or when directed by the commander, such as for indoor ceremonial activities.

(3) Male and female soldiers are not required to wear headgear to evening social events (after Retreat) when wearing the Army blue and white uniforms, the enlisted green dress uniform, the Army green maternity dress uniform (females only), or the mess and evening mess uniforms.

(4) Soldiers will carry their headgear when it is not worn. Soldiers will not attach headgear to the uniform, hang it from the belt, or put it in a uniform pocket.

1-11. Uniformity of material

a. When soldiers exercise their option to choose among various fabrics authorized for uniforms, they must ensure that all garments (coats, trousers, skirts, and slacks) are made of the same material. However, personnel may wear garrison caps made of polyester-wool blend (AG shade 489) or all polyester (AG shade 491) interchangeably with service uniforms of either shade.

b. When gold lace (sleeve or trouser ornamentation) or gold bullion is prescribed for wear with uniforms, personnel

may substitute gold-colored nylon, rayon, or synthetic metallic gold. If trouser and sleeve ornamentation is gold bullion, the cap ornamentation and shoulder strap insignia must also be gold bullion.

c. Ornamentation on the visors of all service caps will be gold bullion or synthetic metallic gold yarn, or anodized aluminum in 24-karat yellow-gold color.

d. Anodized aluminum white-gold colored buttons are not authorized for wear.

1-12. Distinctive uniforms and uniform items

a. The following uniform items are distinctive and will not be sold to or worn by unauthorized personnel:

- (1) All Army headgear, when worn with insignia.
- (2) Badges and tabs (identification, marksmanship, combat, and special skill).
- (3) Uniform buttons (U.S. Army or Corps of Engineers).
- (4) Decorations, service medals, service and training ribbons, and other awards and their appurtenances.
- (5) Insignia of any design or color that the Army has adopted.

b. Individuals will remove all distinctive items before disposing of unserviceable uniform items.

1-13. Wear of civilian clothing

a. Civilian clothing is authorized for wear when off duty, unless the wear is prohibited by the installation commander in CONUS or by the MACOM commander overseas. Commanders down to unit level may restrict the wear of civilian clothes by those soldiers who have had their pass privileges revoked, under the provisions of AR 600-8-10.

b. When on duty in civilian clothes, Army personnel will conform to the appearance standards in this regulation, unless specifically exempted by the commander for specific mission requirements.

1-14. Wear of jewelry

a. Soldiers may wear a wristwatch, a wrist identification bracelet, and a total of two rings (a wedding set is considered one ring) with Army uniforms, unless prohibited by the commander for safety or health reasons. Any jewelry soldiers wear must be conservative and in good taste. Identification bracelets are limited to medical alert bracelets and MIA/POW identification bracelets. Soldiers may wear only one item on each wrist.

b. No jewelry, other than that described in paragraph 1-14a, above, will appear exposed while wearing the uniform; this includes watch chains, or similar items, and pens and pencils. The only authorized exceptions are religious items described in para 1-7b, above; a conservative tie tack or tie clasp that male soldiers may wear with the black four-in-hand necktie; and a pen or pencil that may appear exposed on the hospital duty, food service, CVC, or flight uniforms.

c. Body piercing. When on any Army installation or other places under Army control, soldiers may not attach, affix, or display objects, articles, jewelry, or ornamentation to or through the skin while they are in uniform, in civilian clothes on duty, or in civilian clothes off duty (this includes earrings for male soldiers). The only exception is for female soldiers, as indicated in paragraph 1-14d, below. (The term "skin" is not confined to external skin, but includes the tongue, lips, inside the mouth, and other surfaces of the body not readily visible).

d. Females are authorized to wear prescribed earrings with the service, dress, and mess uniforms.

(1) Earrings may be screw-on, clip-on, or post-type earrings, in gold, silver, white pearl, or diamond. The earrings will not exceed 6 mm or ¼ inch in diameter, and they must be unadorned and spherical. When worn, the earrings will fit snugly against the ear. Females may wear earrings only as a matched pair, with only one earring per ear lobe.

(2) Females are not authorized to wear earrings with any class C (utility) uniform (BDU, hospital duty, food service, physical fitness, field, or organizational).

(3) When on duty in civilian attire, female soldiers must comply with the specifications listed in (1) above when wearing earrings, unless otherwise authorized by the commander. When females are off duty, there are no restrictions on the wear of earrings.

e. Ankle bracelets, necklaces (other than those described in para 1-7b), faddish (trendy) devices, medallions, amulets, and personal talismans or icons are not authorized for wear in any military uniform, or in civilian clothes on duty.

1-15. Wear of eyeglasses, sunglasses, and contact lenses

a. Wear of eyeglasses and sunglasses.

(1) Conservative civilian prescription eyeglasses are authorized for wear with all uniforms.

(2) Conservative prescription and nonprescription sunglasses are authorized for wear when in a garrison environment, except when in formation and while indoors. Individuals who are required by medical authority to wear sunglasses for medical reasons other than refractive error may wear them, except when health or safety considerations apply. Soldiers may not wear sunglasses in the field, unless required by the commander for safety reasons in high-glare, field environments.

(3) Restrictions on eyeglasses and sunglasses. Eyeglasses or sunglasses that are trendy, or have lenses or frames with initials, designs, or other adornments are not authorized for wear. Soldiers may not wear lenses with extreme or

trendy colors, which include but are not limited to, red, yellow, blue, purple, bright green, or orange. Lens colors must be traditional gray, brown, or dark green shades. Personnel will not wear lenses or frames that are so large or so small that they detract from the appearance of the uniform. Personnel will not attach chains, bands, or ribbons to eyeglasses. Eyeglass restraints are authorized only when required for safety purposes. Personnel will not hang eyeglasses or eyeglass cases on the uniform, and may not let glasses hang from eyeglass restraints down the front of the uniform.

b. Restrictions on contact lenses. Tinted or colored contact lenses are not authorized for wear with the uniform. The only exception is for opaque lenses that are prescribed medically for eye injuries. Additionally, clear lenses that have designs on them that change the contour of the iris are not authorized for wear with the uniform.

1-16. Wear of identification tags and security badges

a. Identification (ID) tags. The wear of ID tags is governed by AR 600-8-14.

(1) Soldiers will wear ID tags at all times when in a field environment, while traveling in aircraft, and when outside the continental United States.

(2) Personnel will wear ID tags around the neck, except when safety considerations apply (such as during physical training).

b. Security identification badges. In restricted areas, commanders may prescribe the wear of security identification badges, in accordance with AR 600-8-14 and other applicable regulations. Personnel will not wear security identification badges outside the area for which they are required. Personnel will not hang other items from the security badge(s). The manner of wear will be determined by the organization that requires wear of the badges.

1-17. Wear of personal protective or reflective clothing

a. Protective headgear. Soldiers are authorized to wear commercially designed, protective headgear with the uniform when operating motorcycles, bicycles, or other like vehicles, and are required to do so when installation regulations mandate such wear. Personnel will remove protective headgear and don authorized Army headgear upon dismounting from the vehicle.

b. Protective/reflective clothing. Soldiers may wear protective/reflective outer garments with uniforms when safety considerations make it appropriate and when authorized by the commander.

1-18. Wear of organizational protective or reflective clothing

When safety considerations apply, commanders may require the wear of organizational protective or reflective items, or other occupational health or safety equipment, with the uniform (such as during physical fitness training). If required, commanders will furnish protective or reflective clothing to soldiers at no cost.

1-19. Restrictions on the purchase, possession, and reproduction of heraldic items

a. The heraldic items listed below are authorized for purchase and possession. Variations from the prescribed specifications for these heraldic items are not permitted without the prior approval of The Institute of Heraldry (TIOH), U.S. Army.

(1) All insignia approved by HQDA.

(2) Appurtenances and devices for attachment to decorations, service medals, and ribbons.

(3) Miniature replicas of decorations, service medals, and ribbons.

(4) Oversize replicas of decorations and service medals for grave markers only. These replicas must be at least twice the size prescribed for the decoration or service medal.

(5) Ribbons pertaining to decorations and service medals.

(6) Unit award emblems, fourrageres, and the orange lanyard.

(7) Combat, special skill, and marksmanship badges, including miniatures and dress miniatures.

(8) Identification badges.

(9) Rosettes and lapel buttons.

b. The heraldic items listed below are not authorized for purchase.

(1) Medal of Honor.

(2) Items incorporating designs or the likeness of decorations, service medals, and service ribbons.

c. Possession, wear, and other uses of heraldic items.

(1) The possession of any of the items listed in paragraph 1-19*a*, above, or elsewhere in this regulation is authorized. The wear of any HQDA-prescribed decoration, service medal, badge, service ribbon, lapel button, or insignia by persons not authorized to do so, or their use of such items to defraud or to misrepresent their identification or status, is prohibited. Persons violating this provision are subject to punishment under the statutes listed in sections 701 and 704, title 18, U.S. Code (18 USC 701, 704).

(2) No organization, society, or other group of persons may use any of the articles or imitations specified in paragraph 1-19*a*, above, or elsewhere in this regulation without written approval of the Secretary of the Army.

d. Reproductions of heraldic items.

- (1) The heraldic items listed in paragraph 1–19*a*, above, may not be reproduced, except as prescribed in AR 672–8.
- (2) Certain designs, the likeness of insignia, and specified badges, such as combat, special skill, and marksmanship, may be incorporated in articles manufactured for sale, provided The Institute of Heraldry has granted permission in writing.

Chapter 2 Responsibilities

2–1. Deputy Chief of Staff, G-1

a. Consistent with controlling law and regulation, the Deputy Chief of Staff, G-1 (DCS, G-1) has the authority to approve exceptions to this regulation. The DCS, G-1 may delegate this authority in writing to a division chief within the proponent agency who holds the grade of colonel or the civilian equivalent. The approval authority will coordinate all questions regarding the scope of authority to approve exceptions with HQDA, OTJAG, ATTN: DAJA–AL, Washington, DC 20310–2200.

b. The DCS, G-1 will develop and monitor the following Army policies:

- (1) Standards of personal appearance.

b. The DCS, G-4 coordinates the Army Uniform Board meetings.

2–3. The Institute of Heraldry

The Institute of Heraldry (TIOH) will do the following:

a. Monitor the Heraldic Quality Control System in accordance with AR 672–8, to ensure heraldic items are manufactured according to government specifications or purchase descriptions.

b. Provide manufacturers with government-loaned tools and specifications for heraldic items.

c. Authorize the manufacture of heraldic items and issue certificates of authority to manufacture items under the provisions of AR 672–8.

d. Approve designs for distinctive unit insignia (DUI), regimental distinctive insignia (RDI), and shoulder sleeve insignia (SSI), as authorized by this regulation.

2–4. The U.S. Army Materiel Command

The Commanding General of the U.S. Army Materiel Command (AMC) will do the following:

a. Operate the Project Manager-Soldier Systems Office.

b. Ensure the performance of Army materiel management functions for clothing and individual equipment and centrally procured heraldic items, to include quality control.

c. Operate the Uniform Quality Control Program (UQCP) for all optional uniforms and uniform items approved for wear by HQDA, except non-distinctive commercial component items of some optional uniforms, such as men’s white shirts, cuff links, and brand name footwear.

2–5. The U.S. Army and Air Force Exchange Service

a. The U.S. Army and Air Force Exchange Service (AAFES) will operate, manage, and supervise the Army military clothing sales stores (AMCSS) program worldwide, in accordance with the terms of the memorandum of understanding between the Department of the Army and AAFES, Dallas, Texas.

b. Responsibilities include, but are not limited to, the control, storage, and distribution of “issue” AMCSS inventories and optional-wear military clothing items from certified manufacturers, according to DA specifications, and as developed by the PM Soldier (SEQ), Bldg. 328, 5901 Putnam Road, Fort Belvoir, VA 22060–5852, in conjunction with the textile technology team at the Natick Soldier Center, Natick, MA 01760. (Optional-wear items are those not considered “issue” items.) Responsibility does not include war reserve stock management.

2-6. Commanders

a. Commanders of MACOMs will thoroughly evaluate all proposals to change or add uniforms, accessories, or wear policies for uniforms, insignia, and awards that are submitted through the Army Ideas for Excellence Program (AIEP).

b. The installation commander may prescribe the uniform for wear in formations. When not prescribed by the installation or subordinate commander, the unit commander will prescribe the uniform for wear in formation. Commanders will not establish seasonal wear dates for uniforms.

c. Installation commanders in CONUS, MACOM commanders overseas, the Chief, Army Reserve for USAR, and State Adjutants General for the ARNG may publish, in writing, exceptions to the policy that authorizes the wear of utility and organizational uniforms off military installations (see para 3-3).

d. The commander in charge of units on maneuver may prescribe the uniform for wear within the maneuver area.

e. Ceremonial details and units.

(1) Members of honor guards, color guards, and similar details will wear the prescribed Army service, dress, or utility uniforms with authorized accouterments. These members may wear accessories authorized in CTA 50-900, such as individual equipment, belts, white gloves, and slings, when authorized by the commander. Commanders will prescribe uniform wear policies for these items.

(2) Only those units authorized to wear a distinctive uniform in accordance with CTA 50-900 for ceremonial duties, such as the Old Guard and the Army Band, are exempt from the policy to wear the Army service, dress, or utility uniforms in the performance of ceremonial duties. Commanders of special units will prescribe the wear policy for all distinctive uniform items and accouterments.

f. Commanders will not require individuals to purchase optional uniform items. Likewise, they will not restrict or discourage them from wearing optional uniform items authorized by this regulation, except in those instances where uniformity is required, such as parades or formations.

g. Commanders will conduct periodic inspections to ensure that all personnel under their command comply with the following:

(1) That soldiers possess the minimum quantities of uniforms prescribed in this regulation, AR 700-84, and CTA 50-900, tables 1, 2, and 3; and that the uniforms are properly fitted and in serviceable condition.

(2) That soldiers wear only authorized insignia and awards, as prescribed in this regulation.

(3) That soldiers wear only uniform and heraldic items produced by certified manufacturers, and that they meet the specifications for quality and design.

h. Commanders will promptly submit quality deficiency reports on uniforms and individual equipment, in accordance with AR 702-7-1 and DA Pam 738-750, regarding those items that do not meet the requirements in paras 2-6g(1-3), above.

i. Commanders may purchase heraldic items through local procurement procedures only from manufacturers certified by TIOH.

j. Overseas MACOM commanders will establish a service point of contact to provide information to local textile and uniform producers on optional uniforms and uniform items. Additionally, the point of contact will provide UQCP certification procedures to manufacturers desiring to sell these items to soldiers within the overseas theater.

2-7. Responsibilities of soldiers purchasing uniforms, uniform items, and heraldic items

a. Soldiers purchasing uniforms, uniform items, or heraldic items from establishments other than the Army military clothing sales store (AMCSS) must ensure that the items are authorized for wear and that they conform to appropriate military specifications or are manufactured in accordance with the UQCP or the heraldic quality control system. When items appear deficient, soldiers should submit a SF 368 (Product Quality Deficiency Report) through their servicing MCSS, where forms are available. Commercially purchased items that are authorized for wear in lieu of military-issue items must conform to the basic specification of the military-issue item, unless otherwise specified in this regulation.

(1) All Army uniforms, uniform items, and heraldic items procured by the Defense Logistics Agency and sold in the AMCSS are procured in accordance with appropriate military specifications and are authorized for wear. However, in those MCSS with multi-service support agreements, some items are sold that are authorized for wear by members of other services, but not by Army personnel. Soldiers are responsible for verifying with their chain of command which items are authorized for wear by Army personnel. Uniform items with defects in workmanship or material should be returned to the AMCSS for replacement or repair.

(2) Optional uniforms and other uniform clothing items sold in the MCSS, in post exchanges, or by commercial sources will contain a label, stamp, or certificate issued by the textile technology team at the Natick Soldier Center. Components of some optional uniforms, such as men's commercial white shirts, studs, and cuff links, are not included in the UQCP.

(3) All heraldic items purchased from a post exchange, AMCSS, or commercial source will contain a hallmark or label certifying that the item was produced in accordance with the appropriate military specification by a manufacturer certified by TIOH, U.S. Army.

(4) All individuals purchasing uniform or insignia items from commercial sources must take care to ensure that the items conform to the requirements in 2-7a(1-3), above.

b. All enlisted personnel will do the following:

(1) Maintain their clothing bag items and any supplemental clothing items they are issued, as prescribed in AR 700–84 or CTA 50–900.

(2) Ensure that their uniforms and insignia conform with this regulation.

c. All officers will procure and maintain the uniforms and accessories appropriate to their assigned duties. Appendix C lists the minimum quantities of uniforms and other items normally prescribed by commanders for officers. (Note exceptions for officers on extended active duty for less than 6 months.) Officers are responsible for ensuring that their uniforms and insignia conform to specifications in this regulation.

2–8. Operation of the Uniform Quality Control Program

a. The PM-Soldier (SEQ), Bldg. 328, 5901 Putnam Road, Fort Belvoir, VA 22060–5852, in conjunction with the textile technology team at the Natick Soldier Center, Natick, MA 01760, is responsible for the operation of the Uniform Quality Control Program. That office will do the following:

(1) Prepare and maintain military specifications, purchase descriptions, and master patterns for optional uniform items, as approved by HQDA.

(2) Publish and disseminate periodic bulletins to the textile and garment industries to provide guidance and information about changes in military specifications, uniform regulations, or adoption of new optional uniform items.

(3) Furnish specifications, purchase descriptions, master patterns, shade standards, and other information about optional uniforms to industry when required.

(4) Receive and examine samples from custom tailors, military tailors, and others producing optional uniforms and uniform items.

(5) Issue certificates of authority to manufacturers whose samples meet or exceed standards established by specifications of purchase descriptions. Certificates will be supplemented by documents showing the specific item of optional uniform clothing the manufacturer is authorized to produce. A list of certified manufacturers will be furnished to AAFES. Certificates may be revoked or suspended when it is determined by the textile technology team at the U.S. Army Natick Soldier Center that the certificate holder has violated any of the expressed conditions under which the center granted the certification.

b. The UQCP will be monitored overseas as follows:

(1) Overseas MACOM commanders will establish a service point of contact (POC) to provide local textile and uniform producers with appropriate information on optional uniforms, uniform items, and the UQCP certification procedures for manufacturers desiring to sell these items to soldiers within the theater.

(2) The overseas service POC will provide information and requirements to manufacturers and will receive for inspection an 8-by-10 inch sample of fabric, together with an independent laboratory test report from textile manufacturers, and samples of uniforms and uniform items from garment makers. The overseas POC will send these items to the textile technology team at the Natick Soldier Center for evaluation, and the team will issue appropriate quality control certificates if the samples are approved.

c. Manufacturers and suppliers of uniform clothing items will do the following:

(1) Obtain certification required under the UQCP from the textile technology team at the Natick Soldier Center before manufacturing any optional uniform items for sale.

(2) Affix a label with the following information certifying the uniform items were manufactured in accordance with the UQCP prior to offering the items for sale: “This garment is warranted to meet or exceed the standards of specification number ... and was produced under certificate number ... from basic material warranted by the manufacturer as having been produced in accordance with the sample under current certification.”

Chapter 3 Temperate, Hot-Weather, and Enhanced Hot-Weather Battle Dress Uniforms

3–1. Authorization for wear

The temperate, hot-weather (HW), and enhanced hot-weather (EHW) battle dress uniforms (BDUs) are authorized for year-round wear by all personnel when prescribed by the commander. (See figs 3–1 and 3–2.)

Figure 3-1. Temperate and hot-weather battle dress uniform, with beret, sleeves rolled

Figure 3-2. Temperate and hot-weather battle dress uniform, with patrol cap, sleeves down

3-2. Composition and classification

a. Material composition.

- (1) Coat, cold weather, woodland camouflage pattern (field jacket). Fabric is nylon and cotton sateen, wind resistant.
- (2) Enhanced hot-weather coat and trousers. Fabric is 50/50 ripstop nylon and cotton poplin, in a four-color woodland camouflage pattern.
- (3) Hot-weather coat and trousers. Fabric is 100 percent ripstop cotton, in a four-color woodland camouflage pattern.
- (4) Temperate coat and trousers. Fabric is 50/50 nylon and cotton twill, in a four-color woodland camouflage pattern.

b. Uniform composition.

(1) Beret. The black beret became the standard headgear for utility uniforms on 14 June 2001. The beret consists of a woolen knitted outer shell (lined or unlined) with a leather sweatband and an adjusting ribbon threaded through the binding. The beret is equipped with a stiffener on the left front for the attachment of organizational flashes and insignia.

(2) Cap, woodland camouflage pattern (patrol cap). The cap has a visor, a circular top crown, a side crown with an outside crown band, and retractable earflaps (temperate cap only; the hot-weather caps do not have retractable earflaps).

(3) Coat, cold weather, woodland camouflage pattern (field jacket). The coat is lined, hip length with a bi-swing back, with a convertible stand-up collar with concealed hood and a slide-fastener front closure, with two breast and two lower pockets. (See fig 3-3.)

Figure 3-3. Cold-weather coat, camouflage (field jacket)

(4) Coat, woodland camouflage pattern. The coat is a single-breasted “bush type” design with a collar and four patch bellows-type pockets with flaps (two chest and two lower). The coat has a straight-cut bottom, waist take-up tabs on both sides (old version only), and cuffed sleeves with reinforcement patches at the elbows. The enhanced hot-weather coat has a fused collar and pocket flaps, a suppressed waist (3 inches), and no waist adjustment tabs.

(5) Trousers, woodland camouflage pattern. The trousers have four standard type pockets and two leg bellows-type pockets, and reinforcement patches at the knees and buttocks. The trousers have a buttonhole fly with protective flap (hot-weather battle dress uniform: (HWBDU)), adjustable waist tabs (old version only), and leg-hem draw cords. The HWBDU trousers with knee pleats are authorized for wear until current stocks are exhausted. The knee pleats were removed from the enhanced hot-weather battle dress uniform (EHWBDU) trousers.

d. Classification. The temperate, enhanced hot-weather, and hot-weather BDUs are clothing bag issue utility uniforms. The beret is an organizational issue item. DA Pam 710–2–1 governs turn-in and reissue of the beret.

3–3. Occasions for wear

a. Soldiers may wear BDUs on duty when prescribed by the commander. Soldiers may wear BDUs off post unless prohibited by the commander. They may not wear BDUs for commercial travel, unless authorized by para 1–10c of this regulation. Personnel may not wear BDUs in establishments that primarily sell alcohol. If the establishment sells alcohol and food, soldiers may not wear utility uniforms if their activities in the establishment center on drinking alcohol only.

b. Utility uniforms are not normally considered appropriate for social or official functions off the installation, such as memorial services and funerals. These uniforms are issued as utility, field, training, or combat uniforms and are not intended for wear as all-purpose uniforms when other uniforms are more appropriate.

3–4. Insignia and accouterments

The following insignia and accouterments are authorized for wear on these uniforms:

a. Badges (subdued).

- (1) Combat and special skill badges (pin on or embroidered sew on) (para 29–17d).
- (2) Special skill tabs (para 29–17d).
- (3) Subdued identification badges (para 29–18d).

b. Brassards (para 28–29).

c. Branch insignia (paras 28–10b and 28–12b).

d. Combat leaders identification (para 28–21).

e. Grade insignia (paras 28–5 through 28–7).

f. Headgear insignia (para 28–3).

g. Subdued shoulder sleeve insignia, current organization (para 28–16e(2)).

- h. Subdued shoulder sleeve insignia, former wartime service (para 28–17c(2)).
- i. Name and U.S. Army distinguishing tapes (paras 28–24a and 28–24b).
- j. Organizational flash (para 28–31a).
- k. Foreign badges are not authorized for wear on these uniforms.

3–5. Headgear

a. Beret.

(1) General. The beret is the basic headgear for utility uniforms in garrison environments. The beret is not worn in the field, in training environments, or in environments where the wear of the beret is impractical, as determined by the commander. Additionally, the beret is not worn on deployments unless authorized by the commander. Personnel being transferred from one organization to another may continue to wear the beret and flash of the former unit until they report for duty at the new organization.

Figure 3–4. Wear of the beret, male and female

(2) Wear. The beret is worn so that the headband (edge binding) is straight across the forehead, 1 inch above the eyebrows. The flash is positioned over the left eye, and the excess material is draped over to the right ear, extending to at least the top of the ear, and no lower than the middle of the ear. Personnel will cut off the ends of the adjusting ribbon and secure the ribbon knot inside the edge binding at the back of the beret. When worn properly, the beret is formed to the shape of the head; therefore, soldiers may not wear hairstyles that cause distortion of the beret. Paragraph 3–5c, below, addresses wear of headgear insignia. Figures 3–1 and 3–4 show wear of the beret. Soldiers wear berets as indicated below:

(3) Black beret.

(a) Soldiers who are not assigned to units or positions authorized wear of the tan, green, or maroon berets will wear the black beret. This includes senior and junior ROTC instructors, unless otherwise indicated below.

(b) Soldiers are issued the black beret upon assignment to their first permanent duty assignment after the completion of initial entry training or officer/warrant officer basic courses. Cadets and officer/warrant officer candidates will not wear the black beret. Split-option soldiers or soldiers in the simultaneous membership program will wear the black beret only when performing duties with their units, and they will wear the patrol cap with the BDU, as described in paragraph 3–5b below, when in a cadet or trainee status. Soldiers who have not been issued or who do not wear the black beret will wear the patrol cap with the BDU, as indicated in paragraph 3–5b below. In those cases where beret sustainment levels are not sufficient for turn-in and reissue of unserviceable berets, the commander can authorize the temporary wear of the patrol cap until the beret can be replaced.

(c) The Army flash is the only flash authorized for wear on the black beret, unless authorization for another flash

was granted before the implementation of the black beret as the standard Army headgear (for example, Opposing Forces (OPFOR) elements).

(4) Ranger tan beret. Soldiers currently assigned to the following units are authorized wear of the Ranger tan beret. Personnel will wear the approved flash of the unit to which they are assigned.

(a) 75th Ranger Regiment.

(b) Ranger Training Brigade.

(c) Ranger-qualified soldiers in the following units or positions, if they previously served in the 75th Ranger Regiment: U.S. Special Operations Command; U.S. Army Special Operations Command; U.S. Special Operations Command Joint Task Force; and Theater Special Operations Command. The 75th Ranger Regiment is the sole authority for validation of service in the Ranger Regiment.

(5) Green beret.

(a) If approved by local commanders, all Special Forces-qualified personnel (those carrying the Special Forces MOSs of 18A or 180A, CMF 18, and CSMs reclassified from 18Z to OOO) are authorized to wear the green beret. This includes senior and junior ROTC instructors and those attending training at an Army service school in a student status (for example, CGSC, DLI, or USASMA).

(b) Special Forces personnel will wear the approved flash of the unit to which they are assigned. Special Forces personnel who are assigned to an organization without an approved flash will wear the generic SF flash (the flash approved for personnel assigned to SF positions, but not assigned to SF units).

(6) Maroon beret. All personnel assigned to airborne units whose primary missions are airborne operations wear the maroon beret. The airborne designation for a unit is found in the unit modification table of organization and equipment (MTOE). Other soldiers authorized to wear the maroon beret are indicated below. Personnel will wear the approved flash of the unit to which they are assigned.

(a) Active Army advisors to reserve airborne units on jump status.

(b) All personnel assigned to the airborne departments of the U.S. Army Infantry School and the U.S. Army Quartermaster School.

(c) All personnel assigned to long-range surveillance detachments designated as airborne.

(d) All personnel assigned to the airborne/airlift action office.

(e) Recruiters of the Special Operations Recruiting Company (SORC), U.S. Army Recruiting Command. Personnel will wear the USASOC flash.

(f) All personnel assigned to the airborne procurement team.

(g) All personnel assigned to 55th Signal Company Airborne Combat Camera Documentation Team.

(h) All personnel assigned to 982d Combat Signal Company airborne platoons.

(i) All personnel assigned to rigger detachments.

b. Patrol cap.

(1) The patrol cap (formerly called the BDU cap) is worn with the BDU in field environments when the Kevlar helmet is not worn; on work details; or in other environments where the wear of the beret is impractical, as determined by the commander. Additionally, personnel in initial training categories who do not wear the black beret (see para 3-5a(3)(b), above) wear the patrol cap with the BDU. The patrol cap is available in the hot-weather and temperate fabrics.

(2) Personnel wear the patrol cap straight on the head so that the cap band creates a straight line around the head, parallel to the ground. The patrol cap will fit snugly and comfortably around the largest part of the head without distortion or excessive gaps. The cap is worn so that no hair is visible on the forehead beneath the cap. At their discretion, individuals may wear the earflaps down during cold weather, except in formation when the commander may prescribe wear policy (see fig 3-2).

c. Headgear insignia. (See para 28-3 for placement of headgear insignia and beret flashes.)

(1) Beret. Officers and warrant officers wear non-subdued grade insignia centered on the beret flash, and chaplains wear their branch insignia. Enlisted personnel wear their distinctive unit insignia (DUI) centered on the beret flash. Enlisted personnel assigned to units not authorized the DUI wear their regimental distinctive insignia (RDI). General officers may wear full-, medium-, or miniature-sized stars on the beret. Stars are centered horizontally on the flash point-to-point, and they may be mounted on a bar as an option. Overlap of the stars beyond the flash is authorized.

(2) Patrol cap. Commissioned and warrant officers wear non-subdued grade insignia on the patrol cap in garrison environments; chaplains wear non-subdued branch insignia. In field environments, commissioned and warrant officers wear subdued grade insignia; chaplains wear subdued branch insignia. Enlisted personnel wear subdued grade insignia on the patrol cap in garrison and field environments.

3-6. General guidelines

a. These uniforms are designed to fit loosely; alterations to make them fit tightly are not authorized. A tight fit reduces the airflow needed for ventilation and cooling. The only alterations authorized are those listed in AR 700-84.

Personnel are authorized to mix and match hot-weather and enhanced hot-weather coats, trousers, and patrol caps. However, personnel may not mix hot-weather and temperate uniform items, to include the patrol cap.

b. The coat is worn outside the trousers, and the trousers are worn with a belt. The coat will not extend below the top of the cargo pocket on the pants and will not be higher than the bottom of the side pocket on the pants. Commanders may authorize exceptions to this policy under conditions deemed appropriate in the interest of health, comfort, and efficiency because of climatic conditions, or to accommodate a soldier's religious practices in accordance with AR 600–20, para 5–6.

c. Soldiers will wear the trousers bloused, using the draw cords or blousing rubbers, if the trousers are not tucked into the boots. Personnel will not wrap the trouser leg around the leg tightly enough to present a pegged appearance. Soldiers will not blouse the boots so that the trouser leg extends down to the ankle area. When bloused, the trousers should not extend below the third eyelet from the top of the boot. When soldiers wear the sleeves of the coat rolled up, the camouflage pattern will remain exposed. Personnel will roll the sleeves neatly above the elbow, no more than 3 inches above the elbow.

d. The commander may require that soldiers press these uniforms for special occasions when an especially sharp appearance is required, such as parades, reviews, inspections, or other ceremonial occasions. Although soldiers are authorized to starch the BDU, commanders may not require them to do so. Soldiers are authorized to press military creases in the BDU coat (see para 1–9a(4)).

e. When uniformity in appearance is required, commanders may prescribe a specific uniform for formations or ceremonial occasions, such as parades. When a specific uniform is not prescribed, soldiers may wear the enhanced hot-weather, hot-weather, or temperate BDU, or other authorized utility uniforms.

f. Soldiers may wear the black leather shell gloves with utility uniforms without cold-weather outer garments, provided that sleeves are rolled down. Personnel may wear the woodland camouflage cold-weather coat with all utility uniforms. Soldiers may wear the black all-weather coat as a raincoat with these uniforms only in a garrison environment when they have not been issued organizational raingear. When the cold-weather coat or other authorized cold-weather outer garments are worn, personnel may wear the olive-green scarf and the black leather shell gloves, but are not required to do so. Coats are worn buttoned and zipped, and the shirt collar is worn inside the cold-weather coat and other outer garments. Soldiers may wear the hood of the cold-weather coat at their option. However, when the hood is not worn, soldiers will tuck it into the jacket and will zip the zipper. Female personnel may carry handbags with these uniforms only while in a garrison environment.

g. Commanders may authorize the use of a camouflage personal hydration system only in the following situations: in a field environment, in high-heat areas, or on work details. Soldiers will not carry hydration systems in a garrison environment unless the commander has authorized it for one of the situations described above. Soldiers will not let the drinking tube hang from their mouths when the device is not in use.

b. The commander may require that soldiers press the maternity work uniform when an especially sharp appearance is required for special occasions, such as parades, reviews, inspections, or other ceremonial occasions. Soldiers are authorized to starch the maternity work uniform; however, commanders may not require soldiers to do so. Commanders may authorize exceptions to this policy under conditions deemed appropriate in the interest of health, comfort, and efficiency because of climatic conditions, or to accommodate a soldier's religious practices, in accordance with AR 600-20, para 5-6.
- b. Soldiers are required to wear the nametape, U.S. Army tape, and the SSI, current organization. However, they have the option of wearing the SSI-FWTS, and they may wear either pin-on or sew-on rank, branch insignia, and subdued badges. Soldiers may wear the black leather shell gloves with this uniform when they wear the parka, but they are not required to do so.
- g. Commanders may authorize the use of a desert camouflage personal hydration system only in desert environments. Soldiers will not let the drinking tube hang from their mouths when the device is not in use.

Chapter 6 Aircrew Battle Dress Uniform

The aircrew battle dress uniform (ABDU) is authorized for year-round wear by aircrew members, as specified in CTA 50-900, when prescribed by the commander. (See fig 6-1.)

Figure 6-1. Aircrew battle dress uniform

6-2. Composition and classification

a. Material composition.

(1) Aircrew coat and trousers. The fabric is a blend of 92 percent NOMEX, 5 percent Kevlar, and 3 percent static dissipative fiber in a plain weave, printed with a four-color woodland camouflage pattern and tan 380.

(2) Aircrew cold-weather clothing system (ACWCS) jacket, liner and hood. The jacket shell fabric is a blend of 92 percent NOMEX, 5 percent Kevlar, and 3 percent static dissipative fiber, oxford weave, in a four-color woodland camouflage. The lining is a blend of 92 percent NOMEX, 5 percent Kevlar, and 3 percent static dissipative fiber, plain weave, camouflage green in color. The jacket liner fabric is a quilted NOMEX batting, camouflage green in color. The hood main body is an oxford aramid cloth, in a woodland camouflage pattern, with a batting lining and synthetic fur ruff.

b. Uniform composition.

(1) Beret (para 3-2b(1)).

(2) Cap, patrol (formerly BDU) (para 3-2b(2)).

(3) Jacket, aircrew, cold-weather clothing system, woodland camouflage pattern. The jacket is a single-breasted design with a slide-fastener front closure, fully lined, and it has draw cords at the waist and hem. The jacket has a collar, two bellows-type chest pockets, two lower hanging pockets, a left-sleeve utility pocket, shoulder loops, reinforced elbows, and wrist tabs with hook-and-loop tape adjustments. The jacket has buttons located in the neck and inside facings for the cold-weather liner attachment. All pockets have flaps with hook-and-loop closures to meet aviator-specific needs. The jacket liner is a collarless cardigan style, with underarm vent openings and knitted cuffs. The liner can be buttoned into the jacket or self-buttoned for wear alone in cold-weather conditions. The hood attaches to the jacket with snap fasteners and closes with a draw cord and hook-and-loop fastener tape. The hood can be worn over the flyer's helmet.

(4) Coat, aircrew, woodland camouflage pattern. The coat is a single-breasted bush-type design with a slide-fastener front closure, collar, four patch-type pockets with flaps (two upper and two lower), and a left-sleeve utility pocket with flap. The coat has a straight-cut bottom, adjustment tabs with hook-and-loop tape at the waist, collar, and wrists, and reinforcement patches at the elbows. All pockets use hook-and-loop closures to meet aviator-specific needs.

(5) Trousers, aircrew, woodland camouflage pattern. The trousers contain four standard-type pockets, two side-opening, leg cargo-type pockets, and two top-opening calf patch pockets. All pockets have flaps, except for the front hanging pockets. Hook-and-loop closures are used on the pockets and pocket flaps to meet aviator-specific needs. The trousers have a slide-fastener fly closure, adjustable straps at the waist, and leg hem drawcords.

d. Classification. The aircrew battle dress uniform is an organizational issue flight utility uniform. The beret is an organizational issue item. DA Pam 710-2-1 governs turn-in and reissue of the beret.

6-3. Occasions for wear

a. Soldiers may wear ABDUs on duty when prescribed by the commander for flight operations. Soldiers may wear ABDUs off post, unless prohibited by the commander. They may not wear ABDUs for commercial travel, unless authorized by para 1-10c of this regulation. Personnel may not wear ABDUs in establishments that primarily sell

alcohol. If the establishment sells alcohol and food, soldiers may not wear utility uniforms if their activities in the establishment center on drinking alcohol only.

b. Utility uniforms are not normally considered appropriate for social or official functions off the installation, such as memorial services and funerals. These uniforms are issued as utility uniforms and are not intended for wear as all-purpose uniforms when other uniforms are more appropriate.

6-4. Insignia and accouterments

The following insignia and accouterments are authorized for wear on these uniforms. Only embroidered insignia and accouterments are authorized for wear on the ABDU.

a. Badges (subdued).

(1) Combat and special skill badges (para 29-17*d*).

(2) Special skill tabs (para 29-17*e*).

(3) Identification badges (para 29-18).

b. Branch insignia (paras 28-10*b* and 28-12*b*).

c. Combat leaders identification (para 28-21).

d. Grade insignia (paras 28-5, 28-6, and 28-7).

e. Headgear insignia (para 28-3).

f. Subdued shoulder sleeve insignia, current organization (para 28-16*e*(2)).

g. Subdued shoulder sleeve insignia, former wartime service (SSI-FWTS) (para 28-17*c*(2)).

h. Name and U.S. Army distinguishing tapes (paras 28-24*a* and 28-24*b*).

i. Organizational flash (para 28-31*a*).

j. Foreign badges are not authorized for wear on this uniform.

6-5. General guidelines

a. Basic uniform. The ABDU is for use by flight crews and personnel in other selected MOSs (military occupational specialties), as prescribed in CTA 50-900. It will not be worn as a substitute for the BDU when the BDU is more appropriate. Insignia is worn on the ABDU the same way as on the BDU; personnel will not wear the leather nameplates that are worn on the flight uniform. These uniforms are designed to be slightly loose fitting; alterations to make them form fitting are not authorized. The coat is worn outside the trousers for all duties, to include flight. The trousers are worn with the standard black cotton web belt. The coat will not extend below the top of the cargo pocket on the pants, and it will not extend higher than the bottom of the side pocket on the pants. Soldiers will keep sleeves down on the ABDU during flight operations (see fig 6-1).

b. Soldiers are required to wear rank, nametape, U.S. Army tape, and the SSI, current organization. However, they have the option of wearing the SSI-FWTS, branch insignia, and badges. If soldiers choose to wear the optional insignia, they will bear all costs associated with the application and removal of the insignia. This includes any damage to the organizational ABDU. All optional insignia must be removed from the ABDU prior to returning the garment to organizational stock.

c. Soldiers are not authorized to blouse the trousers inside the boots during the execution of flight crew duties. When not performing flight duties and the trousers are bloused, soldiers will use the draw cords or blousing rubbers if the trousers are not tucked into the boots. Personnel will not wrap the trouser legs around the leg tightly enough to present a pegged appearance. Soldiers will not blouse the boots so that the trouser leg extends down to the ankle area. When bloused, the trousers should not extend below the third eyelet from the top of the boot. When soldiers wear the sleeves of the coat rolled up, the camouflage pattern will remain exposed. Personnel will roll the sleeves neatly above the elbow, no more than 3 inches above the elbow. Soldiers will not press or starch the ABDU.

d. The black beret became the basic headgear for this uniform on 14 June 2001. The beret will be worn when soldiers are not performing flight duties, unless the commander has prescribed wear of the patrol cap, as described in chapter 3 of this regulation. When soldiers wear the patrol cap, they may wear either the temperate or the hot-weather headgear with the ABDU. (See para 3-5 for wear policy concerning the beret and the patrol cap.)

e. The black leather combat boot and the black leather flyer's insulated boot (when authorized according to CTA 50-900) are the authorized footwear for the ABDU. Soldiers will not wear the jungle boot with the ABDU.

f. Soldiers may wear the black leather shell gloves with these uniforms when not performing crew duties. They may wear the gloves without cold-weather outer garments, provided sleeves are rolled down. The flight jacket is the only authorized cold-weather coat for wear with the ABDU. The ACWCS jacket will serve as the ABDU flight jacket. Soldiers may wear the black all-weather coat as a raincoat with these uniforms when they have not been issued organizational raingear, but only in a garrison environment and only when they are not performing flight operations. Personnel will wear coats buttoned and zipped. The shirt collar will be worn inside the cold-weather coat and other outer garments. Soldiers may wear the hood of the cold-weather coat at their discretion. Female personnel may carry handbags with these uniforms only while in a garrison environment.

g. Commanders may authorize other uniforms for wear during administrative flights after performing the proper risk assessment. Local commanders may authorize the wear of solid baseball caps (when authorized per CTA 50-900) by

aircraft and ground crewmembers while on the flight line or in the base operations area, as a safety and identification measure. Soldiers will wear standard headgear outside these areas. Personnel will wear insignia of grade on organizational baseball caps in accordance with paragraph 28–3f. Commanders will provide the caps to individuals at no cost.

h. Protective clothing and equipment for flight crews are specified in AR 95–1, paragraph 8–9.

i. Commanders may authorize the use of a camouflage personal hydration system only in the following situations: in a field environment, in high-heat areas, or on work details. Soldiers will not carry hydration systems in a garrison environment, unless the commander has authorized it for one of the situations described above. Soldiers will not let the drinking tube hang from their mouths when the device is not in use.

(11) Undershirt, brown (para 27-28*e*).

(12) Organizational clothing and equipment, as determined by the commander in accordance with CTA 50-900.

d. Classification. The OG 108 uniform is an organizationally issued field uniform. The beret is an organizational issue item. DA Pam 710-2-1 governs turn-in and reissue of the beret.

7-3. Occasions for wear

Soldiers may wear the OG 108 uniform only on duty, when prescribed by the commander. The OG 108 uniform is not authorized for travel or for wear off military installations, except in transit between the individual's quarters and duty station. (See para 1-10*c* for exceptions to this policy.) The OG 108 uniform is an organizationally issued field uniform and is not intended for wear as an all-purpose uniform when other uniforms are more appropriate. Personnel may wear

components of this uniform with utility and other organizational uniforms as part of a cold-weather ensemble, when issued and prescribed by the commander.

7-4. Insignia and accouterments

The insignia and accouterments authorized for wear on the cold-weather uniform follow.

- a. Badges, combat and special skill, subdued pin-on only (para 29-17).
- b. Brassards (para 28-29).
- c. Branch insignia, subdued pin-on only (paras 28-10*b* and 28-12*b*).
- d. Combat leaders identification (on cold-weather coats (field jackets) and extended cold-weather clothing system (Gortex) parka only) (para 28-21).
- e. Grade insignia, subdued pin-on (para 28-5, 28-6, and 28-7).
- f. Headgear insignia (para 28-3).
- g. Name and Army distinguishing tapes (paras 28-24*a* and 28-24*b*).
- h. Shoulder sleeve insignia (current organization and former wartime service) is not authorized for wear on the OG 108 shirts. When the OG 108 shirt is prescribed for wear only as an undergarment, soldiers will not wear collar insignia and name and U.S. Army distinguishing tapes on the shirt.
- i. Organizational flash (para 28-31*a*).
- j. Foreign badges, sew-on badges, and sew-on grade insignia are not authorized for wear on this uniform.

7-5. General guidelines

a. The OG 108 uniform is designed to fit loosely, with tabs available for adjustment. Alterations are not authorized. Soldiers should not wear the OG 108 shirt and trousers as outer garments if they could become unduly soiled, snagged, or otherwise damaged in the performance of duties. When the shirt is worn as an outer garment, it is worn inside the trousers and a belt is worn with the trousers. When the trousers are worn as an outer garment, soldiers will blouse the trousers, using the draw cords or blousing rubbers, if the trousers are not tucked into the boots. Personnel will not wrap the trouser legs around the leg tightly enough to present a pegged appearance. Soldiers will not blouse the boots so that the trouser leg extends down to the ankle area. When bloused, the trousers should not extend below the third eyelet from the top of the boot. (See fig 7-1.) Soldiers will not roll up the sleeves of the OG 108 shirt. Female soldiers may wear either the male or female OG 108 shirt. Female Army Medical Department (AMEDD) officers may wear the cold-weather clothing as prescribed in CTA 50-900.

b. The beret, patrol cap, or the cold-weather caps are authorized for wear with this uniform. (See para 3-5 for wear policy of the beret and patrol cap.) When the cold-weather cap is worn properly, no hair is visible on the forehead. When the earflaps are worn down, they are fastened under the chin; when they are worn up, they are fastened to the cap.

c. Soldiers may wear the black leather shell gloves with utility uniforms without cold-weather outer garments, provided that sleeves are rolled down. When the cold-weather coat or other authorized cold-weather outer garments are worn, personnel may wear the olive-green scarf and the black leather shell gloves, but they are not required to do so. Coats are worn buttoned and zipped, and the shirt collar is worn inside the cold-weather coat and other outer garments. The cold-weather parka is authorized for wear with the cold-weather trousers (OG 107), or as prescribed by the commander. Figures 7-1 and 7-3 show the cold-weather uniform.

d. Commanders may authorize the use of a camouflage personal hydration system only in the following situations: in a field environment, in high-heat areas, or on work details. Soldiers will not carry hydration systems in a garrison environment, unless the commander has authorized it for one of the situations described above. Soldiers will not let the drinking tube hang from their mouths when the device is not in use.

7-6. Extended cold-weather clothing system

The extended cold-weather clothing system (ECWCS) is authorized for wear in accordance with CTA 50-900.

7-7. Composition and classification

a. The following are the components of the ECWCS.

(1) Parka, cold-weather, camouflage.

(a) The parka fabric is a triple-layer, laminated, waterproof, windproof, and moisture-vapor permeable nylon material. The garment repels water, but it is sufficiently porous to prevent moisture buildup from perspiration. The parka has a hood with an attachment piece that allows fastening of the fur ruff; inside map pockets that can be opened without unzipping the parka; two large lower cargo pockets, and a two-way, full-front slide fastener to provide full-face protection, leaving only the eyes uncovered. The parka is woodland camouflage and fully lined with a windskirt. There are elastic drawcords with barrel locks at the waist, and a woven nylon tape drawcord with barrel locks at the hood. Nylon hook-and-pile fastener tapes are located at the wrist tabs to allow for adjustment along the full-front closure on the overlay of the slide fastener, on the windskirt, and on the lower front pockets. The parka is authorized for wear as an organizational issue item.

(b) Soldiers will wear insignia of rank and the nametape on the parka. The insignia of rank is centered on the tab located in the center of the chest. Soldiers may wear either pin-on or embroidered slip-on cloth loop insignia of rank. The nametape is worn on the pocket flap of the left sleeve of the parka (see para 28–24b(2)(b)).

(2) Trousers, cold-weather, camouflage. The trousers are made from a triple-layer, laminated, waterproof, windproof, and moisture-vapor permeable nylon material that repels water, but the material is sufficiently porous to prevent moisture buildup from perspiration. The trousers have seat and knee patches, pass-through pockets, and zippered leg openings to allow easy donning and doffing without removing the footwear. Nylon hook-and-pile fastener tapes are located at the ankle tabs to allow for adjustment. The fly has a slide-fastener closure. Nylon tape suspender loops are located at the waist.

(3) Trousers, cold-weather, field, nylon and cotton. The trousers are made from a wind-resistant nylon and cotton fabric. Characteristics of the trousers are side-hanging pockets, hip pockets, cargo pockets, drawcords at the trousers bottoms, and adjustable waist straps. The trousers are worn over the liners as a durable, insulating layer when the cold-weather trouser is not needed.

(4) Liner, cold-weather parka. The coat liner is an olive-green undergarment of polyester-covered batting, covered with three plies of ripstop nylon cloth. The liner serves as an insulating layer for the upper body, and it may be worn independently of the parka.

(5) Liner, cold-weather trousers, field. The trouser liner is an olive-green undergarment of polyester-covered batting, covered with two plies of ripstop nylon cloth. The liner serves as the insulating layer for the lower body, and it may be worn independently of the cold-weather trousers.

(6) Shirt, cold weather, synthetic fiber pile. The shirt is made from a knitted polyester fiber pile. It has reinforced shoulder and elbow patches, a convertible turtleneck collar, front zipper, elastic drawcord waist, hook-and-pile cuff tabs, two chest cargo-style pockets, and two lower hand-warmer pockets. The shirt is the primary insulating layer for the upper body.

(7) Overalls, cold weather, synthetic fiber pile. The overalls are made from a knitted polyester fiber pile. They have elastic suspenders with quick release buckles, and full-length, side-seam slide fasteners. The overalls are worn as an additional layer when temperatures are -25 degrees to -60 degrees Fahrenheit.

(8) Undershirt, cold weather, polypropylene. The material used for the undershirt is a knitted, brushed, multi-filament polypropylene. It has a center-front zipper that extends to the middle of the chest area, allowing for ventilation of the neck and chest areas. The undershirt layer next to the skin acts as a moisture-wicking layer, serving to draw moisture away from the skin and transferring it to the outer layers of the system.

(9) Drawers, cold weather, polypropylene. The material used for the drawers is a knitted, brushed, multi-filament polypropylene. The drawers serve as the base layer for the lower extremities.

(10) Parka, snow camouflage, white. The parka is made from a lightweight, white nylon filament, water-repellant treated cloth. The parka has a snap-fastener front closure, storage pouch, elastic wrists, and drawcords at the waist, hood, and bottom. The parka is used as a camouflage outer layer in snow terrain, but it is not a substitute for the camouflage cold-weather parka.

(11) Trousers, snow camouflage, white. The trousers are made from a lightweight, white nylon filament, water-repellant, treated cloth. The trousers have front pass-through pockets, cargo pockets with flaps, suspender loops, inside button tabs for attaching a button-in liner, slide fastener openings on legs, a waist drawcord, storage pouch, and elastic cord leg bottoms. The trousers are used as a camouflage outer layer in snow terrain, but they are not a substitute for the camouflage cold-weather trouser, or for the field cold-weather trouser made from nylon and cotton.

(12) Hood, balaclava, cold weather. The hood is constructed of two plies of a black, knitted wool blend with a nylon wind-barrier interlining. The design is a pull-over-the-head style with an adjustable face opening.

(13) Ruff, parka, extended cold weather. The ruff is made from the same triple layer, laminated, waterproof, windproof, and moisture-vapor permeable nylon as the parka and trousers. One side of the ruff incorporates the synthetic fur, with hook-and-pile fasteners and snap fasteners on the opposite side. The fasteners allow attachment of the ruff to the camouflage cold-weather parka.

b. Accessories. The following accessories are normally worn with the ECWCS:

(1) Boots, combat, leather, black (para 27–3).

(2) Chaplain's apparel (para 27–7).

(3) Gloves, black leather shell with inserts (para 27–12a).

(4) Military Police accessories (para 27–16).

(5) Neckgaiter (para 27–17).

(6) Socks, black, cushion sole (para 27–24a).

(7) Undergarments (para 27–28).

(8) Organizational clothing and equipment, as determined by the commander in accordance with CTA 50–900.

c. Accouterments. The following insignia will be worn on the ECWCS (Gortex) parka.

(1) Grade insignia (paras 28–5, 28–6, and 28–7).

(2) Name-distinguishing tape (para 28–24b).

d. Commanders may authorize the use of a camouflage personal hydration system only in the following situations: in a field environment, in high-heat areas, or on work details. Soldiers will not carry hydration systems in a garrison environment, unless the commander has authorized it for one of the situations described above. Soldiers will not let the drinking tube hang from their mouths when the device is not in use.

Chapter 8

Figure 8-1. Hospital duty uniform, male

8-2. Composition and classification

a. Material composition. The fabric is white, durable-press cotton and polyester.

b. Uniform composition. The male hospital duty uniform normally comprises the items listed below. However, the medical facility commander may authorize variations to this uniform, using clothing items listed in CTA 50-900 and CTA 8-100.

(1) Smock, men's, medical assistant's. The smock is short-sleeved with a left breast pocket, a front button closure, and a straight-cut bottom.

(11) Windbreaker, black (para 27-30).

(12) Organizational clothing and equipment, as determined by the medical facility commander for wear within the medical treatment facility, according to CTA 50-900 or CTA 8-100.

d. Classification. The hospital duty uniform is an organizational issue utility uniform. The beret is an organizational issue item. DA Pam 710-2-1 governs turn-in and reissue of the beret.

8-3. Occasions for wear

The male hospital duty uniform is worn on duty in Army health care facilities, as prescribed by the medical commander. The hospital duty uniform is not authorized for travel or for wear off military installations, except when in transit between an individual's quarters and duty station. The commander may authorize medical personnel to wear this uniform off post when providing support for activities in the civilian community, such as parades or ceremonies. (See para 2-6*c* for other exceptions to this policy.)

8-4. Insignia and accouterments

The following insignia and accouterments are authorized for wear on the male hospital duty uniforms.

a. Branch insignia, non-subdued (para 28-12*a*).

b. Grade insignia, non-subdued (paras 28-5, 28-6, and 28-7).

c. Headgear insignia (para 28-3).

d. Nameplate (para 28-24*c*).

e. Organizational flash (para 28-31*a*).

8-5. General guidelines

a. Enlisted and Army Nurse Corps personnel. When prescribed for wear, the hospital duty uniform is worn with the medical assistant's smock worn over the white trousers. Officer personnel wear white oxford shoes and white socks

with these uniforms. Wear of the white oxfords and white socks by enlisted personnel is optional. Enlisted personnel will otherwise wear black oxford shoes and black socks with this uniform. Personnel may wear the optional purchase, black windbreaker with the uniform, except in formation (para 27–30). The optional purchase, white unisex cardigan is authorized for wear as an outer garment while on duty. Soldiers may wear the white unisex cardigan buttoned or unbuttoned while indoors; when outdoors, they will wear the cardigan buttoned. Soldiers will wear the collar of the smock outside the sweater so rank is visible.

b. The black beret became the basic headgear for this uniform on 14 June 2001 (see para 3–5 for wear policy). When the cold-weather coat or other authorized cold-weather outer garments are worn, personnel may wear the olive-green scarf and the black leather shell gloves, but they are not required to do so. Soldiers may wear the black scarf and AG 489 cold-weather cap with the black all-weather coat. Depending upon the uniform fabric, starching and pressing may damage the uniform material, so soldiers must exercise caution in this matter.

c. Warrant officers and commissioned officers. Warrant or commissioned officers of the medical, dental, veterinary, medical service, or medical specialty corps may wear the physician’s white smock over either the service or utility uniforms, in a medical care facility, or on duty as directed by the commander of the medical facility.

d. Precautionary wear restrictions. Personnel should exercise caution because some of the materials used in these uniforms are inappropriate for use in areas where flammable gases are employed. Commanders will prohibit the wear of polyester hospital duty uniforms in flammable, anesthetizing locations and mixed facilities (as defined in National Fire Protection Association (NFPA) standards), or in any area where easily ignitable substances are present, such as anesthetizing agents. This restriction does not apply to inhalation therapy areas where oxygen is administered, providing that easily ignitable substances such as ether, cyclopropane, alcohol, acetone, oils, greases, or lotions are not present. The presence of such flammable substances in oxygen-enriched atmospheres is prohibited by NFPA standards.

e. Figure 8–1 shows the hospital duty uniform for males.

Chapter 9 Hospital Duty and Maternity Uniforms—Female

9–1. Authorization for wear

The female hospital duty uniforms are authorized for year-round wear by all female officers in the ANC and the AMSC, and by enlisted females with a medical, dental, or veterinary MOS. The term “hospital duty uniform” used throughout this chapter refers to both the hospital duty and hospital duty maternity uniforms. (See figs 9–1 and 9–2.)

9-3. Occasions for wear

The female hospital duty uniform is worn on duty in Army health care facilities, as prescribed by the medical commander. It is not authorized for travel or for wear off military installations, except when in transit between an individual's quarters and duty station. The commander may authorize medical personnel to wear this uniform off post

when providing support for activities in the civilian community, such as parades or ceremonies. (See para 2–6c for other exceptions to this policy.)

9–4. Insignia and accouterments

The following insignia and accouterments are authorized for wear on the female hospital duty uniforms.

- a. Branch insignia, non-subdued (para 28–12a).
- b. Grade insignia, non-subdued (paras 28–5, 28–6, and 28–7).
- c. Headgear insignia (para 28–3).
- d. Nameplate (para 28–24c).
- e. Organizational flash (para 28–31a).

9–5. General guidelines

- a. Basic uniform.

(1) Enlisted and officer ANC and AMSC personnel.

(a) The dress is worn when prescribed for wear. The length of the dress will be no longer than 2 inches below, or more than 1 inch above the bend in the back of the knee. The dress is worn with the belt at all times. Only the dome-shaped, white polyester shank-type buttons issued with the dress are authorized for wear on the belt (secured with safety pins on the back of the belt). The white maternity dress does not have a belt.

(b) The tunic-and-pants uniform is worn when prescribed for wear. The tunic is worn outside the pants.

(c) The following pertains to both the dress and the tunic-and-pants uniforms. Officers will wear the white oxford shoes and white stockings with these uniforms. Wear of the white oxford shoes and stockings by enlisted personnel is optional. Enlisted personnel will otherwise wear black oxford shoes and sheer stockings with the hospital duty dress, and the black oxford shoes with black socks when wearing the tunic-and-pants uniforms.

(2) Soldiers may wear the white unisex cardigan sweater as an outer garment with this uniform while on duty. Personnel may wear the white unisex cardigan buttoned or unbuttoned while indoors; when outdoors, all except pregnant soldiers will wear the cardigan buttoned. Personnel will wear the collar of the dress or tunic outside the sweater so the rank is visible. The black windbreaker is authorized for wear with the tunic-and-pants uniform and the hospital duty dress (para 27–30). The other outer garments listed in paragraph 9–2c(1) also are authorized for wear with these uniforms.

(3) The black beret became the basic headgear for this uniform on 14 June 2001 (see para 3–5 for wear policy). When the cold-weather coat or other authorized cold-weather outer garments are worn, personnel may wear the olive-green scarf and the black leather shell gloves, but they are not required to do so. Soldiers may wear the black scarf and AG 489 cold-weather cap with the black all-weather coat. Depending upon the uniform fabric, starching and pressing may damage the uniform material, so soldiers must exercise caution in this matter.

(4) Warrant officers and commissioned officers. The commander may authorize the wear of the physician's white smock over the service or utility uniforms (except the hospital duty dress and tunic and pants) in a medical treatment facility.

b. Issue. The issue of the hospital maternity uniform to hospital duty female personnel has no bearing on the issue of the Army green maternity service uniform (chap 17) or the maternity work uniform (chap 4).

c. Precautionary wear restrictions. Personnel should exercise caution because some of the materials used in these uniforms are inappropriate for use in areas where flammable gases are employed. Commanders will prohibit the wear of hospital duty dresses and polyester pantsuits in flammable, anesthetizing locations and mixed facilities (as defined in NFPA standards), or in any area where easily ignitable substances are present, such as anesthetizing agents. This restriction does not apply to inhalation therapy areas where oxygen is administered, providing that easily ignitable substances such as ether, cyclopropane, alcohol, acetone, oils, greases, or lotions are not present. The presence of such flammable substances in oxygen-enriched atmospheres is prohibited by NFPA standards.

13-5. General guidelines

a. Basic uniform. When issued, all combat vehicle crewmen wear the CVC uniform whenever they are operating their vehicles. Alterations to the uniform are not authorized. The black leather combat boot is the authorized footwear for wear with the CVC uniform. Soldiers will not tuck the uniform into the boots. The only outer garment authorized for wear with the CVC uniform is the cold-weather jacket. The black beret became the basic headgear for this uniform on 14 June 2001. The beret will be worn when the CVC helmet is not worn, unless the commander has prescribed wear of the patrol cap, as described in chapter 3 of this regulation. (See para 3-5 for wear policy of the beret and the patrol cap.)

b. Wear of insignia.

(1) The U.S. Army tape is worn horizontal to the ground, approximately ½ inch up from the outside zipper seam on the left breast. The nametape is worn on the right side, in line with the U.S. Army tape. The subdued sew-on grade insignia is worn centered ¼ inch above the nametape.

(2) On the cold-weather jacket, the nametape and U.S. Army tape are worn horizontal to the ground, approximately 1½ inches above the top of the pocket flaps.

(3) Commanders will provide, and have attached, the subdued sew-on grade insignia, nametape, U.S. Army tape, and shoulder sleeve insignia, without cost to enlisted personnel.

c. Commanders may authorize the use of a camouflage personal hydration system only in the following situations: in a field environment, in high-heat areas, or on work details. Soldiers will not carry hydration systems in a garrison environment, unless the commander has authorized it for one of the situations described above. Soldiers will not let the drinking tube hang from their mouths when the device is not in use.

d. Figures 13-1 and 13-2 show the basic uniform and the cold-weather jacket.

Chapter 14 Physical Fitness Uniform

14-1. Authorization for wear

The physical fitness uniform (PFU) is authorized for year-round wear by all personnel, when prescribed by the commander. The improved PFU (IPFU) replaces the PFU. Soldiers may wear the PFU until 30 Sep 2003; mandatory possession for the IPFU is 1 Oct 2003. (See fig 14-1 for authorized variations of the IPFU and figure 14-2 for the PFU.)

Figure 14-1. Improved physical fitness uniform variations

Figure 14-1. Improved physical fitness uniform variations—Continued

Figure 14-2. Physical fitness uniform

14-2. Composition and classification

a. The PFU consists of the following components.

- (1) T-shirt, athletic, gray.
- (2) Trunks, general purpose, gray.
- (3) Sweatpants, gray.
- (4) Sweatshirt, hooded, gray, with zipper.
- (5) Cap, knit, black.

b. The IPFU consists of the following components.

- (1) Jacket, running, gray and black.
- (2) Pants, running, black.
- (3) Trunks, running, black, moisture-wicking.
- (4) T-shirt, gray, short sleeve, moisture-wicking.
- (5) T-shirt, gray, long sleeve, moisture-wicking.
- (6) Cap, knit, black.

14-3. Accessories

a. Commanders may authorize the wear of commercial running shoes, calf-length or ankle-length, plain white socks with no logos, gloves, reflective belts or vests, long underwear, and other items appropriate to the weather conditions and type of activity. If soldiers wear long underwear or other similar items, they must conceal them from view with the hooded sweatshirt and sweat pants when wearing the PFU, or the running jacket and pants if wearing the IPFU.

b. Soldiers are authorized to wear commercially purchased gray or black spandex shorts under the PFU or IPFU shorts. The length of the shorts must end above the knee or higher. The commercial shorts must be plain, with no logos, patterns, or obtrusive markings. Soldiers are not required to buy the spandex shorts.

14-4. Occasions for wear

The PFU and the IPFU are authorized for wear on and off duty, on and off the installation, when authorized by the commander. The PFU and IPFU are authorized for wear in transit between an individual's quarters and duty station. Soldiers may wear all or parts of the PFU or IPFU off the installation, when authorized by the commander.

14-5. Insignia

The only insignia authorized for wear on the PFU or IPFU is the physical fitness badge. When the physical fitness badge is worn, it is sewn on the upper left front side of the PFU and IPFU T-shirt, and the PFU sweatshirt. On the IPFU running jacket, the insignia is sewn centered ½ inch above the word "Army." See AR 600-8-22 for criteria for wear of the physical fitness badge.

14-6. General guidelines

a. Soldiers may not mix or match PFU and IPFU items. When soldiers wear either the PFU or IPFU as a complete uniform, they will keep the sleeves down on the sweatshirt or jacket, the legs down on the pants, and they will tuck the T-shirt inside the trunks. Soldiers may not roll or push up the sleeves of the PFU sweatshirt or the IPFU jacket. Soldiers may wear the sleeves of the PFU sweatshirt cuffed or uncuffed; they may not cuff the IPFU jacket sleeves. Soldiers will wear the black knit cap pulled down snugly on the head, with the bottom edge of the cap folded up; soldiers will not roll the edge of the cap. A similar, commercially designed black knit cap is authorized for wear. There are no restrictions on the combination of IPFU items worn, unless the commander has prescribed a particular combination for formation. Standards of wear and appearance specified in paragraphs 1-7 and 1-8 of this regulation apply at all times.

b. The PFU and the IPFU are clothing bag items. Each element of the PFU and IPFU is identified with a national stock number (NSN) and a Defense Logistics Agency (DLA) contract number printed on a label and sewn into the garment. If the label does not contain this information, the garment is not the authorized garment.

c. Commanders should expect both uniforms (PFU and IPFU) in their formations until all soldiers acquire the IPFU by the mandatory possession date.

d. Pregnant soldiers will wear the PFU or IPFU until the uniform becomes too small or uncomfortable. Pregnant soldiers are authorized to wear the T-shirt outside the trunks. At no time will commanders require pregnant soldiers to purchase a larger PFU or IPFU in order to accommodate the pregnancy. When the uniform becomes too small or uncomfortable, pregnant soldiers may wear equivalent civilian workout clothes.

Part Three
Service Uniforms

Chapter 15
Army Green Service Uniform—Male

15-1. Authorization for wear

The class A and B Army green uniforms are authorized for year-round wear by all male personnel. The class A service uniform is an optional dress uniform for all male enlisted personnel when worn with the white shirt and bow tie. 15-2. Composition

a. The class A green service uniform comprises the Army green coat and trousers, an Army green (AG) shade 415 short- or long-sleeved shirt, and a black four-in-hand necktie. (For accessories and other items authorized for wear on the class A green service uniform, see para 15-10.)

b. The class B green uniform comprises the Army green trousers and AG shade 415 short- or long-sleeved shirt. Soldiers will wear a four-in-hand necktie with the long-sleeved AG shade 415 shirt when it is worn without the class A coat, as an outer garment. (See para 15-10 for accessories and other items authorized for wear with the class B uniform.)

c. The Army green dress uniform (authorized for enlisted personnel only) comprises the Army green coat and trousers, a commercial long-sleeved white shirt, and a black four-in-hand tie (before retreat) or a black bow tie (after retreat). The black beret is authorized for wear with this uniform. When the enlisted Army green dress uniform is worn for evening social occasions (after retreat), headgear is not required. Combat boots and organizational items, such as brassards and military police (MP) accessories, are not authorized for wear with the Army green dress uniform. All other accessories and insignia that are authorized for wear with the class A service uniform are authorized for wear on the Army green dress uniform (see para 15-10).

15-3. Classification

The Army green service uniform is a clothing bag issue item. The Army green dress uniform is an optional dress uniform for enlisted personnel when worn with a white shirt and black four-in-hand tie (before retreat) or black bow tie (after retreat). The beret is an organizational issue item. DA Pam 710-2-1 governs turn-in and reissue of the beret.

15-4. Occasions for wear

a. The Army green service uniform (class A) and authorized variations (class B) are authorized for wear by all male personnel when on duty, off duty, or during travel. These uniforms also are acceptable for informal social functions after retreat, unless the host prescribes other uniforms.

b. The following are appropriate occasions for enlisted personnel to wear the Army green dress uniform.

(1) At social functions of a private or official nature, either before or after retreat, and while in transit to and from such functions. Otherwise, it is not authorized for travel.

(2) When designated by the host.

b. General description. The coat is a single-breasted, peak-lapel, four-button coat extending below the crotch, fitting easily over the chest and shoulders, with a slight draped effect in the front and back. The coat is fitted slightly at the waist, conforming to body shape without tightness and with no prominent flare.

(1) General officers. Each trouser leg has two ½-inch wide black mohair, polyester, or mercerized cotton braids sewn ½ inch apart.

(2) Other officers. Each leg has one braid, 1½ inches in width, made of black mohair, polyester, or mercerized cotton braid.

The shirt is a dress type with shoulder loops, a seven-button front, and two pleated pockets with button-down flaps.

Figure 15-9. Class B Army green uniform, short-sleeved shirt without tie

b. Soldiers are authorized to wear the optional purchase polyester/wool short-sleeved (AG shade 469) and long-sleeved (AG shade 428) shirts. In accordance with care instructions provided on the shirts, soldiers may not starch or bleach the AG shades 415, 428, or 469 shirts.

c. Soldiers are authorized to wear the short- and long-sleeved shirts with the class A coat, black unisex pullover and cardigan sweaters, and the windbreaker.

(1) Soldiers must wear a black four-in-hand necktie when wearing the short- or long-sleeved shirt with the class A coat, or when wearing the long-sleeved shirt as an outer garment without the class A coat. They have the option of wearing a tie when the short-sleeved shirt is worn as an outer garment.

(2) Soldiers have the option of wearing a tie when they wear the short- or long-sleeved shirts with the pullover sweater or cardigan sweaters. If a tie is worn with the pullover or cardigan sweaters, soldiers will wear the collar of the shirt inside the sweater. If no tie is worn with the pullover sweater, the collar is worn outside. If no tie is worn with the cardigan sweater, soldiers may wear the collar inside or outside the sweater. Soldiers may wear the cardigan sweater buttoned or unbuttoned while indoors, but they must button it when outdoors.

15-9. Headgear

b. Garrison cap, Army green. (See figs 15-4 and 15-6.)

(1) Design. The cap will be made from an approved specification or pattern.

(2) Ornamental braid. Garrison cap braid refers to the piping that is secured to the tip edge of the curtain of the garrison cap, and that is used for additional identification purposes. Descriptions of the type of braid used on the garrison cap follow.

(a) General officers. The cap has a cord edge braid of gold bullion or synthetic metallic gold yarn.

(b) Company and field grade officers. The cap has a cord edge braid of gold bullion, or synthetic metallic gold yarn with black rayon or black polyester intertwined.

(c) Warrant officers. The cap has a cord edge braid of silver bullion, synthetic metallic silver yarn, or silver rayon with black rayon or black polyester intertwined.

(d) Enlisted personnel. The cap has a cord edge braid of the same material as the cap, in AG shade 489 or 491.

(3) Wear. The beret became the standard headgear for class A and B Army green service uniforms, and the enlisted Army green dress uniform, on 14 June 2001. Therefore, only soldiers in initial training categories, or soldiers who have not been issued a beret will wear the garrison cap with the class A and B Army green service uniforms and the enlisted Army green dress uniform. In those cases where beret sustainment levels are not sufficient for turn-in and reissue of unserviceable berets, the commander can authorize the temporary wear of the garrison cap until the beret can be replaced.

(4) Proper wear position.

(a) See para 3-5 for wear policy on the beret.

(b) The garrison cap is worn with the front vertical crease of the cap centered on the forehead in a straight line with the nose, with the front lower portion of the cap approximately 1 inch above the eyebrows (approximately the width of the first two fingers). The cap is placed on the head in such a manner that the front and rear vertical creases and the top edge of the crown form unbroken lines in silhouette, and so the ridge of the cap is parallel to the ground while standing at attention. Personnel will not crush or shape the crown of the cap to form peaks at the top front or top rear of the cap.

15–11. General guidelines

a. The Army green service uniforms are intended for wear during most duty, non-field, or utility occasions, and for travel and off-duty purposes. While both the class A and B uniforms are authorized for year-round wear, the appropriate uniform is worn based on weather conditions, duties, and the formality of the occasion. When a specific service uniform is not prescribed for formations or other occasions when uniformity in appearance is not required,

soldiers may wear the class A or any of the variations of the class B uniform, with the accessories authorized for these uniforms.

b. Soldiers will not wear those awards and decorations on the AG shade 415 shirt that they cannot wear properly because of size or configuration. Commanders will not require the wear of optional items, such as windbreakers or sweaters, unless such items are provided to the soldier without cost.

c. Soldiers may purchase and wear the Army green service uniform in any of the authorized fabrics listed in paragraph 15–5. However, individuals who purchase uniforms or uniform items from commercial sources are responsible for ensuring that the items conform to military specifications, or are manufactured in accordance with the procedures prescribed by the uniform quality control program (see chap 2 for details). Only those alterations authorized by AR 700–84 and TM 10–227 are authorized. General fitting instructions for these uniforms are provided in chapter 1 of this regulation. Soldiers will wear these uniforms with the shirt tucked into the trousers so that the shirt edge is aligned with the front fly opening, so the outside edge of the belt buckle forms a straight “gig line.” Only soldiers authorized to wear the tan, green, or maroon berets, those assigned to Air Assault coded positions, and MPs performing MP duties may wear bloused trousers with black leather combat boots. Figures 15–1 through 15–9 show the class A and B Army green service uniforms and authorized headgear.

16–12. General guidelines

a. The Army green service uniforms are intended for wear during most duty, non-field, or utility occasions, and for travel and off-duty purposes. While both the class A and B uniforms are authorized for year-round wear, the appropriate uniform is worn based on weather conditions, duties, and the formality of the occasion. When a specific service uniform is not prescribed for formations or other occasions when uniformity in appearance is not required, soldiers may wear the class A or any of the variations of the class B uniform, with the accessories authorized for these uniforms.

b. Soldiers will not wear those awards and decorations on the AG shade 415 shirt that they cannot wear properly because of size or configuration. Commanders will not require the wear of optional items, such as windbreakers or sweaters, unless such items are provided to the soldier without cost.

c. Soldiers may purchase and wear the Army green service uniform in any of the authorized fabrics listed in paragraph 16–5. However, individuals who purchase uniforms or uniform items from commercial sources are responsible for ensuring that the items conform to military specifications, or are manufactured in accordance with the procedures prescribed by the uniform quality control program (see chapter 2 for details). Only those alterations authorized by AR 700–84 and TM 10–227 are authorized. General fitting instructions for these uniforms are provided in chapter 1 of this regulation.

d. When soldiers wear these uniforms with the tuck-in version of the shirt, they will tuck the shirt into the slacks or skirt. When tucked into the slacks, the shirt edge is aligned with the front fly opening, so the outside edge of the belt buckle forms a straight “gig line.” The overblouse version of the shirt is worn outside the slacks or skirt. Only soldiers authorized to wear the tan, green, or maroon berets, those assigned to Air Assault coded positions, and MPs performing MP duties may wear bloused slacks with black leather combat boots.

18–4. Materials

The material for this uniform is white polyester and texturized woven serge, 6.5-ounce weight.

18–5. Coat, Army white

a. Design. The coat will be made from an approved specification or pattern.

b. General description. The coat is a single-breasted, peak-lapel, four-button coat extending below the crotch, fitting easily over the chest and shoulders, with a slight draped effect in the front and back. The coat is fitted slightly at the waist, conforming to body shape without tightness and with no prominent flare.

18–7. Shirt, white

A commercial, long-sleeved white shirt with barrel or French cuffs, and standard turndown collar is worn with the Army white uniform. (See para 27–22*c* for a complete description.)

18–8. Service cap, Army white

a. Design. The cap will be made from an approved specification or pattern, in a standard Army design. Officers have the option of wearing the cap frame with a removable cover made of the same material as the rest of the uniform.

b. Visor and visor ornamentation. The visor is plain black leather, or poromeric with a leather finish. The visor ornamentation is as follows.

(2) Company grade officers, warrant officers, and enlisted personnel. The top of the visor is plain black shell cordovan or shell cordovan-finish leather, resin treated, with a waterproof edge.

c. Chinstrap and chinstrap ornamentation. The chinstrap consists of two straps, each ½ inch in width by 10 inches in length, with one end of each strap forming a slide, and the other end of each strap fastened to the cap at each end of the visor. The chinstrap ornamentation is as follows.

(2) Personnel are not required to wear headgear when wearing the Army white uniform to evening social functions (after retreat). However, on all other occasions, personnel will wear headgear with this uniform.

g. Proper wear position. The service cap is worn straight on the head so that the white hatband on the cap creates a straight line around the head, parallel to the ground. Such positioning automatically positions the visor correctly, so that it does not interfere with vision or ride up on the forehead. Personnel will not alter the shape of the service cap in any manner.

When worn with a black bow tie, the Army blue uniform constitutes a formal uniform and corresponds to a civilian tuxedo. When worn with a black four-in-hand necktie, the Army blue uniform is an informal uniform. (For the Army blue uniform, officer, see fig 20-1; for the service cap, blue, general officers, see fig 20-2; for the service cap, blue, field grade officers, see fig 20-3; for the service cap, blue, company grade officers, see fig 20-4; for the service cap, blue, warrant officers, see fig 20-5; for the Army blue uniform, enlisted, see fig 20-6; for the service cap, blue, enlisted, see fig 20-7.)

b. General description. The Army blue coat is a single-breasted, peak-lapel, four-button coat extending below the crotch, fitting easily over the chest and shoulders, with a slight draped effect in front and back. The coat is fitted slightly at the waist, conforming to the body shape without tightness and with no prominent flare.

c. Shoulder buttons.

(b) The loop is 2½ inches wide at the outside shoulder edge, 1½ inches wide at the inside collar edge, and piped all

around with gold-colored nylon or rayon cord edge braid, $\frac{1}{8}$ inch wide. The braid is inserted in the joining seams so it is completely visible around each loop. The loop is sewn on the outside shoulder seam and extends to a point approximately $\frac{1}{2}$ inch from the inside collar seam. The loop has a buttonhole $\frac{3}{8}$ inch from the inside edge of the braid, which is buttoned to the shoulder with a 25-ligne button.

e. Coat sleeve ornamentation. Ornamental braid is worn on both sleeves of the Army blue coat. Gold bullion, synthetic metallic gold, or gold-colored nylon or rayon braid is authorized for officers. Gold-colored nylon or rayon braid is authorized for enlisted personnel. The braid on the trouser legs and the coat sleeve will be of the same material. The bottom of the braid is positioned parallel to, and 3 inches above the bottom of each sleeve as follows.

(1) General officers have one $1\frac{1}{2}$ inch gold braid on each sleeve.

(2) High-waisted. The high-waisted blue trousers are authorized for wear with the Army blue uniform instead of low-waisted trousers. The high-waisted trousers are required for wear with the Army blue mess and evening mess uniforms. High-waisted trousers are cut along the lines of civilian dress trousers, with a high waist, and without pleats, cuffs, or hip pockets.

(3) Trouser leg ornamentation. Ornamental braid is worn on each outside seam of the trouser leg, from the bottom of the waistband to the bottom of the trouser leg, as follows:

(*a*) General officers have two, $\frac{1}{2}$ -inch, two-vellum gold, synthetic metallic gold, or gold-colored nylon or rayon braids, spaced $\frac{1}{2}$ inch apart.

(*b*) All other officers have one, $1\frac{1}{2}$ inch, two-vellum gold, synthetic metallic gold, or gold-colored nylon or rayon braid.

(*c*) Enlisted personnel have one $1\frac{1}{2}$ inch gold-colored nylon or rayon braid.

20-7. Shirt, white

A commercial long-sleeved white shirt with barrel or French cuffs and a standard turndown collar is worn with the Army blue uniform. (See para 27-22*c* for a complete description.)

20-8. Service cap, Army blue

a. Design. The cap will be made from an approved specification or pattern, in a standard Army design. Officers have the option of wearing the cap frame with a removable cover made of the same material as the rest of the uniform.

b. Visor and visor ornamentation. The visor is plain black leather, or poromeric with a leather finish. The visor ornamentation is as follows:

(1) General and field grade officers. The top of the visor is black cloth with two arcs of oak leaves in groups of two, embroidered in gold bullion, synthetic metallic gold-colored yarn, or manufactured from anodized aluminum in 24-karat gold color.

(2) Company grade officers, warrant officers, and enlisted personnel. The top of the visor is plain black shell cordovan or shell cordovan-finish leather, resin treated, with a waterproof edge.

c. Chinstrap and chinstrap ornamentation. The chinstrap consists of two straps, each $\frac{1}{2}$ inch in width by 10 inches in length, with one end of each strap forming a slide, and the other end of each strap fastened to the cap at each end of the visor. The chinstrap ornamentation is as follows.

(1) Officers. The chinstrap is natural or light brown, full-grain pigskin or sheepskin, non-bleeding, with pointed ends covered with two-vellum gold wire lace, synthetic metallic gold-colored lace, or a one-piece strap manufactured from anodized aluminum in 24-karat gold color.

(2) Enlisted personnel. The chinstrap is plain black leather matching the visor in appearance, with rounded ends. Poromeric with a leather finish is authorized.

d. Hatband. All personnel will wear an outside hatband, $1\frac{3}{4}$ inches in width, around the entire outside rim of the cap. The hatband ornamentation follows.

(1) General officers. The band is blue-black velvet with two arcs of oak leaves in groups of two, 1 inch long and $\frac{3}{4}$ inch wide, embroidered in gold, synthetic metallic gold-colored braid, or gold-colored nylon or rayon.

of the hatband. If the officer's branch has two colors, 1/8 inch piping of the second color is placed on the inside edges of the gold braid.

(3) Enlisted personnel. The band is basket-weave mohair braid matching the shade of the cap material, with a 1/2-inch band of two-velum gold-colored nylon, rayon, or polyester braid placed at the top part of the hatband.

e. Cap insignia. Insignia is worn on the Army blue service cap secured through the front eyelet. The service cap insignia is described in paragraph 28-3*b*.

f. Wear.

(1) All male personnel will wear the Army blue service cap with the Army blue, blue mess, and blue evening mess uniforms.

(2) Personnel are not required to wear headgear when wearing the Army blue uniform to evening social functions (after retreat). However, on all other occasions, personnel will wear headgear with this uniform.

g. Proper wear position. The service cap is worn straight on the head so that the braid hatband on the service cap creates a straight line around the head, parallel to the ground. Such positioning automatically positions the visor correctly, so that it does not interfere with vision or ride up on the forehead. Personnel will not alter the shape of the service cap in any manner.

20-9. Cape, Army blue

As an option, all officers are authorized to wear the Army blue cape instead of the black all-weather coat, when wearing the Army blue uniform after duty hours. Enlisted personnel may not wear the cape. (See para 27-6 for design and wear policy.)

The tipped end will extend beyond the end of the buckle so that only the brass tip is visible, and no fabric portion of the belt can be seen beyond the buckle. The plain end (no tip) of the belt may extend beyond the keeper portion of the inside of the buckle, as long as it is not visible when worn.

27-3. Boots, combat, leather, black

a. Type. The combat boots are clothing bag issue items.

b. Description. The issue boot is made of black leather with a deep lug tread sole made of vulcanized rubber, a removable cushioned insert, a closed-loop speed lace system, and a leather padded collar. Soldiers are required to possess two pairs of issue (specification) boots.

c. How worn.

(1) The boots are laced diagonally with black laces, with the excess lace tucked into the top of the boot under the bloused trousers or slacks, or wrapped around the top of the boot. Metal cleats and side tabs are not authorized for wear except by honor guards and ceremonial units in the performance of ceremonial duties. When metal cleats and side tabs are authorized for wear, commanders will furnish them to soldiers at no cost. Sewn-in or laced-in zipper inserts are not authorized.

(2) A vulcanized rubber sole is the only outsole material that currently meets the need for durability and traction on surfaces. Other materials (that may be of a lighter weight) may have significant problems in these areas.

(3) Only soldiers authorized to wear the tan, green, or maroon berets, those assigned to Air Assault coded positions, and MPs performing MP duties may wear bloused trousers or slacks with black leather combat boots. When trousers or slacks are bloused, personnel will not wrap them around the leg so tightly so as to present a pegged appearance. When the trousers or slacks are bloused properly, the bloused portion of the trousers or slacks should not extend below the third eyelet from the top of the boot. Soldiers will not blouse boots so that the bloused portion extends down to the ankle area of the boot.

d. Optional boots.

(1) As an option, soldiers may wear commercial boots of a design similar to that of the standard issue combat boot, 8 to 10 inches in height. The boots must be made of black leather, with a plain or capped toe, and have a black, vulcanized rubber outsole. Boots made of either patent leather or poromeric are not authorized. Soldiers may wear optional boots in lieu of the standard black combat boot; however, they do not replace issue boots as a mandatory possession item.

(2) Personnel are authorized to wear the green or black Army jungle boot in lieu of the standard issue black combat boot. No other canvas and leather boot is authorized for wear. The green jungle boot is no longer available for purchase; therefore, personnel may wear this boot only as long as it is serviceable. Personnel may not wear the black or green jungle boot in formation, unless authorized by the commander. A vulcanized rubber sole is the only outsole material that currently meets the need for durability and traction on surfaces. Other materials (that may be of a lighter weight) may have significant problems in these areas.

(3) Optional boots are not authorized for wear when the commander issues and prescribes standard organizational footwear for safety or environmental reasons (such as insulated boots or safety shoes). Personnel may wear specialty boots authorized for wear by specific groups of soldiers, such as the tanker boot, only if the commander authorizes such wear. Soldiers may not wear optional boots in formation when uniformity in appearance is required.

(4) Soldiers are not authorized to wear any boot with the brand name "Hi-Tech," or any other boot deemed to have

a sneaker-type construction, unless they were authorized an exception to policy by Headquarters, Department of the Army.

e. Organizational boots. When prescribed and issued by the commander according to CTA 50-900, personnel may wear, instead of the combat boot, such organizational boots as flyer or safety boots with field and utility uniforms.

28-2. General description

lettering or appropriate design, on olive-green cloth backing. For desert camouflage uniforms, it is spice-brown block lettering, or appropriate design, on khaki cloth backing.

28–12. Branch insignia—how worn

As used in this paragraph, the word “collar” refers to that part of the coat or shirt (around the neck) that forms a neckband and turnover piece. Bold borders on figs 28–21 through 28–27 depict the collar area. The word “lapel” is used when referring to the fold of the front of the coat that is a continuation of the collar, and which usually is separated by a notch in the collar.

a. Non-subdued branch insignia.

(1) Male officers. On the Army green, blue, and white coats, male officers wear their branch insignia centered on both lapels, 1¼ inches below the U.S. insignia. The branch insignia is positioned so that the centerline of the insignia bisects the centerline of the U.S. insignia and is parallel to the inside edge of the lapel (see fig 28–118). On the hospital duty uniform, male officers wear their branch insignia centered between the inside edge and the outside edge on the left collar, 1 inch from the lower edge of the collar, with the centerline of the insignia parallel to the lower edge of the collar (see fig 28–119). Except for chaplains, male officers will not wear their branch insignia on the AG 415 long- or short-sleeved shirts. Chaplains wear their branch insignia centered immediately over the left breast pocket (see fig 28–120). On the black pullover sweater, chaplains will wear their branch insignia centered above the nameplate, in lieu of the distinctive unit insignia.

(3) Female officers. On the old versions of the Army white and blue coats, female officers wear branch insignia on the left collar. The insignia is worn 1 inch above the notch, so the centerline of the insignia bisects the notch and is parallel to the inside edge of the collar (see fig 28–122). On the Army green coat and the new versions of the Army blue and white coats, female officers wear branch insignia on both lapels. The insignia is worn approximately 1¼ inches below the U.S. insignia, with the insignia bisecting the U.S. insignia and parallel to the inside edge of the lapel (see fig 28–123). On the hospital duty uniform, female officers wear the branch insignia centered on the left collar, 1 inch up from the lower edge of the collar, with the centerline of the insignia parallel to the lower edge of the collar. Except for chaplains, female officers will not wear branch insignia on the AG 415 short- or long-sleeved shirts. Female chaplains wear the branch insignia in a location similar to that described for male chaplains (see para 28–12a, above). (1) Non-subdued. All personnel will wear the non-subdued SSI of their current organization centered on the left sleeve, ½-inch below the top of the shoulder seam, on the coat of the Army green uniform. When the Ranger, Special Forces, or President's Hundred tab is worn, the tab is placed ½ inch below the top of the shoulder seam. The SSI is worn ¼ inch below special skill or marksmanship tabs. If there is simultaneous wear of two tabs, the SSI remains at ¼ inch below the tabs. Tabs that are an integral part of SSI, such as airborne or mountain, are worn directly above the SSI with no space between the insignia and tab. Personnel will not wear non-subdued SSI on uniforms other than those specified above (see fig 28-134).

Figure 28-134. Wear of shoulder sleeve insignia, current organization

(2) Subdued. All personnel wear the subdued SSI on the temperate, hot-weather, enhanced hot-weather, aviation, and desert BDU; flight suit and flight jacket; combat vehicle crewman uniform; and the BDU field jacket. 28-17. Shoulder sleeve insignia-former wartime service (SSI-FWTS)

a. General. Authorization to wear a shoulder sleeve insignia indicating former wartime service applies only to soldiers who are assigned to U.S. Army units that meet all the following criteria. Soldiers who were prior members of other Services that participated in operations that would otherwise meet the criteria below are not authorized to wear the SSI-FWTS. Wear is reserved for individuals who were members of U.S. Army units during the operations.

(1) The Secretary of the Army or higher must declare as a hostile environment the theater or area of operation to which the unit is assigned, or Congress must pass a Declaration of War.

(2) The units must have actively participated in, or supported ground combat operations against hostile forces in which they were exposed to the threat of enemy action or fire, either directly or indirectly.

(3) The military operation normally must have lasted for a period of thirty (30) days or longer. An exception may be made when U.S. Army forces are engaged with a hostile force for a shorter period of time, when they meet all other criteria, and a recommendation from the general or flag officer in command is forwarded to the Chief of Staff, Army.

(4) The Chief of Staff, Army, must approve the authorization for wear of the shoulder sleeve insignia for former wartime service.

c. How worn.

(1) Non-subdued. At the option of the wearer, individuals who were members of an Army unit during one of the operations listed above may wear the non-subdued U.S. Army organizational SSI of a wartime unit (para 28-17b) that was approved by HQDA on the right sleeve of the Army green uniform coat. The insignia is worn centered, ½ inch below the top of the right shoulder seam (see fig 28-136).

Figure 28–136. Wear of shoulder sleeve insignia-former wartime service, with flag replica, right sleeve

(2) Subdued. Authorized personnel may wear the subdued SSI–FWTS on the right sleeve of the temperate, hot-weather, enhanced hot-weather, and desert BDU, and the BDU field jacket, as described above. The SSI–FWTS is not authorized for wear on organizational uniforms, except as prescribed in this paragraph.

(3) Other services. The Department of the Navy, the United States Marine Corps (USMC), and the Air Force do not authorize wear of SSI. Therefore, personnel who served in one of the designated areas during one of the specified periods, but who were not members of the U.S. Army, are not authorized to wear the SSI–FWTS on their right shoulder. The only exception to this policy is for U.S. Army members who served with the USMC during World War II from 15 March 1943 through 2 September 1946.

d. Soldiers who are authorized to wear more than one SSI–FWTS have the option of choosing which SSI–FWTS they will wear. Soldiers may elect not to wear SSI–FWTS. (See appendix F for further guidance on the wear of the SSI–FWTS.)

28–18. Wear of full-color U.S. flag cloth replica

a. General. During joint or multi-nation operations, soldiers are authorized to wear the full-color U.S. flag cloth replica on utility and organizational uniforms. Wear of the full-color U.S. flag cloth replica is at the discretion of the organizational commander, when the distinguishing of individual national soldiers is desired, and overrides the tactical consideration of full-color insignia on uniforms. During joint operations, the joint commander normally will prescribe the policy for wear. Soldiers are not authorized to wear the full-color U.S. flag cloth replica upon their return to home station.

b. Description. Chapter 1, Title 4, United States Code, provides for the design of the U.S. flag and specifies the colors as red, white, and blue. Colors other than red, white, and blue violate the U.S. Code; therefore, subdued-colored flags are not authorized for wear. The size of the full-color cloth U.S. flag replica is approximately 2 inches by 3 inches.

c. How worn.

(1) When approved for wear, the full-color U.S. flag cloth replica is sewn $\frac{1}{2}$ inch below the right shoulder seam of the temperate, hot-weather, enhanced hot-weather, and desert BDU; the BDU field jacket; and the cold-weather uniform (see fig 28–135). If the SSI–FWTS is worn on the right shoulder of the utility uniform, the full-color U.S. flag cloth replica is placed $\frac{1}{8}$ inch below the right shoulder sleeve insignia (see fig 28–136). The SSI–FWTS is not authorized for wear on organizational uniforms, unless indicated above.

Figure 28–135. Wear of full-color flag cloth replica, right sleeve

(2) The full-color U.S. flag cloth replica is worn so that the star field faces forward, or to the flag's own right. When worn in this manner, the flag is facing to the observer's right, and gives the effect of the flag flying in the breeze as the wearer moves forward. The appropriate replica for the right shoulder sleeve is identified as the reverse side flag.

- (18) U.S. Army Reserve schools: one design for all USAR schools.
- (19) Field operating agencies: one design for each activity based on the following criteria.
 - (*a*) An identifiable command structure.
 - (*b*) A valid justification in terms of unit mission, enhancement of unit morale, and degree of unit permanency.
 - (*c*) At least 250 military personnel assigned to the activity.
- (20) Other organizations: one design for each organization, except U.S. Army garrison (active and reserve), meeting the following criteria.
 - (*a*) An identifiable command structure.
 - (*b*) A valid justification in terms of unit mission, enhancement of unit morale, and degree of unit permanency.
 - (*c*) At least 500 military personnel assigned to the organization.
- (21) Other.
 - (*a*) Organizations not in the categories listed above, which have a DUI by virtue of previous HQDA authority, are

permitted to retain that DUI if it was manufactured and worn by members of the subject organization. In each case, such insignia is authorized for wear only after The Institute of Heraldry, U.S. Army, has determined the propriety, and granted approval of the insignia.

(b) Units not authorized a DUI in their own right will wear the DUI of the command to which assigned. Those units not authorized a DUI in their own right, and not assigned to a higher echelon that is authorized a DUI, may, with the approval of the Army commander concerned, wear the DUI of the Army area in which located. Personnel participating in the AGR and ROTC simultaneous membership programs will wear the DUI of the commands, units, and agencies to which attached.

(c) Personnel assigned to a joint command, DOD, or Federal agency will wear the DUI designated for joint or DOD agencies.

b. Approval of design. Units meeting the criteria established above will submit requests for authorization of DUI through channels, with a copy of permanent orders activating the unit to: Director, The Institute of Heraldry, U.S. Army, 9325 Gunston Road, Room S112, Fort Belvoir, VA 22060-5579. Requests will include three proposed mottoes, if the organization requests a motto with the design. Once approved, no changes are made in a design of the insignia.

c. Provisional units. The authorization of a DUI will not be granted for provisional units.

d. By whom worn.

(1) When a DUI is authorized, all personnel assigned to the organization wear the insignia, except general officers and the Sergeant Major of the Army. General officers wear their regimental distinctive insignia (RDI) on the black pullover sweater. The Sergeant Major of the Army wears the SMA insignia in lieu of the DUI. Reserve component units with WARTRACE alignments under the provisions of AR 11-30 may wear the DUI of the Active unit to which they are aligned, in lieu of their peacetime DUI, provided major RSC or state TAG, and MACOM commanders agree on such wear.

(2) A complete set of the distinctive unit insignia consists of three pieces. The procurement of distinctive insignia not approved by The Institute of Heraldry, U.S. Army, is prohibited. Units may purchase approved DUIs through the use of appropriated or nonappropriated funds.

e. Where worn. The design of the DUI is metal, or metal and enamel, only. Enlisted personnel wear the insignia on the Army green uniform coat, the black pullover sweater, the beret, and the garrison cap. Other enlisted personnel authorized to wear the DUI are those assigned to TOE bands, selected honor guards, or other ceremonial units authorized by CTA 50-900 to wear dress uniforms as organizational uniforms.

f. How worn.

(1) Enlisted personnel wear the DUI on the green service uniform coat, centered on the shoulder loops an equal distance from the outside shoulder seam to the outside edge of the button, with the base of the insignia toward the outside shoulder seam. Enlisted personnel are not authorized to wear the DUI on the enlisted green dress uniform (worn with white shirt and necktie/neck tab). Officers wear the DUI centered on the shoulder loops, an equal distance from the inside edge of their grade insignia to the outside edge of the button, with the base of the insignia toward the outside shoulder seam (see fig 28-138).

Figure 28-138. Wear of distinctive unit insignia on shoulder loops

(2) On the beret, enlisted personnel wear the DUI centered on the organizational flash. On the garrison cap, the DUI is centered on the left curtain of the cap, 1 inch from the front crease (see figs 28–2 and 28–11). Soldiers assigned to units not authorized a DUI wear the RDI on the garrison cap and beret in the same manner as the DUI.

(3) Soldiers (except chaplains, general officers, and the SMA) wear the DUI centered above the nameplate on the black pullover sweater, with the top edge of the insignia $\frac{1}{4}$ inch below the top edge of the patch on the sweater. Soldiers assigned to units not authorized the DUI wear the RDI on the black pullover sweater in the same manner as the DUI (see fig 28–139). Chaplains wear their branch insignia, general officers wear the RDI, and the SMA wears the SMA insignia in the same manner. All soldiers may adjust the placement of the DUI or RDI, up or down on the patch, to allow for large size DUI or RDI, or to adjust to body configuration.

Figure 28–139. Wear of distinctive unit insignia/regimental distinctive insignia, on black pullover sweater

28–23. Regimental distinctive insignia

a. Authorization. Regimental distinctive insignia (RDI) of a design approved by the Institute of Heraldry, U.S. Army, are authorized and prescribed for wear by all soldiers affiliated with a regiment or whole-corps regiment, as described in AR 600–82 and NGR 600–82.

b. How worn.

(1) Males.

(a) On the Army green, white, and blue uniforms, and the AG 415 shirt, males wear the RDI centered $\frac{1}{8}$ inch above the top of the pocket flap, or $\frac{1}{4}$ inch above any unit awards or foreign badges that are worn. When the coat lapel obscures the insignia, soldiers may wear the RDI aligned to the right edge of unit awards or the nameplate. Wear of the RDI on the AG 415 shirt is optional (see fig 28–140).

Figure 28–140. Wear of regimental distinctive insignia on Army green, blue, and white uniforms, male

(b) On the white and blue mess and evening mess uniforms, male personnel wear the RDI on the right lapel. On the blue mess uniform, the RDI is worn centered on the satin facing, $\frac{1}{2}$ inch below the notch in the lapel. On the white mess uniform, the RDI is worn $\frac{1}{2}$ inch below the notch, centered on the lapel. The RDI is worn so that the vertical axis of the insignia is perpendicular to the ground (see fig 28–141).

Figure 28–141. Wear of regimental distinctive insignia on Army blue and white mess uniforms, male

(2) Females.

(a) On the Army green, blue, and white uniforms, the Army maternity tunic, and the AG 415 shirt, females wear the RDI centered $\frac{1}{2}$ inch above the nameplate, or $\frac{1}{4}$ inch above any unit awards or foreign badges that are worn. When the coat lapel obscures the RDI, soldiers may wear the RDI aligned to the right edge of unit awards or the nameplate. Wear of the RDI on the AG 415 shirt is optional (see fig 28–144).

(b) On the blue mess and evening mess, and the new version white mess and evening mess uniforms, females wear the RDI centered on the right lapel, with the top of the RDI aligned with the top row of miniature medals. On the black mess and evening mess, and the old version white mess and evening mess uniforms, females wear the RDI centered on the right side of the jacket (not on the lapels). The RDI is centered between the lapel and shoulder seam, with the top of the RDI aligned with the top row of miniature medals. The RDI is worn so that the vertical axis is perpendicular to the ground (see fig 25–2).

(3) The RDI and DUI will be the same for soldiers who are assigned to, and affiliated with the same unit. Soldiers who are assigned to a unit or agency not authorized a DUI will wear the RDI on the beret and the black pullover sweater in lieu of a DUI (see fig 28–139).

28–24. Insignia, distinguishing, U.S. Army nametape and nameplate

a. Insignia, distinguishing, U.S. Army.

(1) Description.

(a) For woodland camouflage or olive-green uniforms, the insignia is a woven tape of olive-green cloth, 1 inch wide, with the inscription “U.S. ARMY” in black block letters, $\frac{3}{4}$ inch high. For desert camouflage uniforms, the insignia is a woven tape of khaki, 1 inch wide, with the inscription “U.S. ARMY” in spice-brown block letters, $\frac{3}{4}$ inch high.

(b) As an option, soldiers may purchase and wear 1-inch wide tape with embroidered $\frac{3}{4}$ -inch block letters. The length of the U.S. Army distinguishing insignia tape is $4\frac{1}{2}$ inches, or it extends to the edge of the pocket flap when sewn on the uniform (see fig 28–142).

Figure 28–142. Insignia, distinguishing, U.S. Army tape

(2) How worn. The U.S. Army distinguishing insignia tape is worn immediately above, and parallel to the top edge of the left breast pocket of the uniform shirt, only. The insignia is worn on the temperate, hot-weather, enhanced hot-weather, maternity, aviation, and desert BDU shirts; BDU field jackets; and on organizational clothing when required and prescribed by the commander issuing the organizational clothing. Personnel will not wear the U.S. Army insignia tape on the hospital duty and food service uniforms. Personnel are not authorized to have the words U.S. Army embroidered directly on the uniform (see fig 28–143).

Figure 28–143. Wear of nametape and U.S. Army distinguishing tape

b. Insignia, nametape.

(1) Description.

(a) For woodland camouflage or olive-green uniforms (except for the ECWCS parka), the nametape is a strip of olive-green cloth, 1 inch wide, with the individual's last name in black block letters, $\frac{3}{4}$ inch in height. Last names consisting of 11 letters or more are constructed using Franklin gothic extra-condensed print (48 point), $\frac{1}{2}$ inch high. The nametape insignia is $4\frac{1}{2}$ inches in length, or extends to the edge of the pocket flap when sewn on the uniform.

(b) For desert camouflage uniforms, the nametape is a strip of khaki tape with spice-brown lettering, of the same description as in paragraph *b*(1)(a), above.

(c) For the extended cold-weather clothing system (ECWCS) (Gortex) parka, the nametape is a strip of olive-green cloth, $3\frac{1}{2}$ inches long and $\frac{1}{2}$ -inch wide, with $\frac{1}{4}$ -inch black block lettering. The nametape can accommodate up to 14 characters. No other size nametape is authorized for wear on the Gortex parka.

(d) See para 28-3g(1) for wear of nametapes on helmet bands.

(2) How worn.

(a) All personnel will wear the nametape above the top right breast pocket on the same uniforms and in the same manner as described for the "U.S. ARMY" tape in paragraph *a*(1)(a), above. When the nametape is worn with the U.S. Army tape, both must be the same size, $4\frac{1}{2}$ inches in length, or they must extend to the edge of the pocket flaps. Personnel are not authorized to have the last name embroidered directly onto the uniform. Personnel may wear embroidered nametapes with woven U.S. Army insignia (see fig 28-143).

(b) All personnel will wear the nametape on the ECWCS (Gortex) parka, on the left-sleeve pocket flap, $\frac{1}{4}$ inch above the bottom of the flap, and centered left to right on the flap. Personnel are not authorized to wear the nametape in any other location on the parka than the pocket flap, and they are not authorized to embroider the name directly on the pocket flap.

(3) How to obtain. Initial and replacement nametapes are provided at no cost to enlisted members and are procured from appropriated funds. If facilities are not available at installations for inscribing and attaching nametapes, contracting for such services with local vendors is authorized.

c. Nameplate.

(1) Description.

(a) The nameplate is a black, laminated plastic plate, 1 inch by 3 inches, $\frac{1}{16}$ inch thick, with a white border not to exceed $\frac{1}{32}$ inch in width. Lettering is block type, indented white lettering, $\frac{3}{8}$ inch in height, and centered on the plate. Only last names are used on the nameplates. Gloss or non-gloss finish is authorized on the nameplate.

(b) Modifications to the nameplate to add other insignia or information are prohibited unless authorized by HQDA. Personnel will not wear nameplates with authorized additions or translations outside of the area for which they are authorized.

(2) How worn.

(a) Male personnel. On the AG shade 415 shirts, and on the coats of the Army green, white, and blue uniforms, the nameplate is worn centered left to right on the flap of the right breast pocket, and centered between the top of the button and the top of the pocket. (See illustrations in individual uniform chapters.) On the black pullover sweater, the nameplate is worn centered on the black patch of the sweater, except when wearing the DUI or RDI. When wearing a DUI or RDI, the nameplate is placed $\frac{1}{4}$ inch above the bottom of the black patch, with the top of the DUI or RDI placed $\frac{1}{4}$ inch below the top edge of the patch, and centered left to right. Personnel may adjust the placement of the nameplate and DUI or RDI, up or down on the patch, to allow for large size DUI or RDI, or to adjust to body configuration (see fig 28-139).

(b) Female personnel. On the Army green uniform, and the new style Army blue and white uniforms, the nameplate is worn 1 to 2 inches above the top button of the coat and centered horizontally on the wearer's right side (see fig 28-144). On the AG 415 shirts, maternity tunic, hospital duty, and food service uniforms, the nameplate is worn in a comparable position. On the old-style Army blue and white uniforms the nameplate is worn centered horizontally on the wearer's right side, slightly above the top edge of the top button. (See illustrations in individual uniform chapters.) On the black pullover sweater, the nameplate is worn centered on the black patch of the sweater, except when the DUI or RDI is worn. When wearing a DUI or RDI, the nameplate is placed $\frac{1}{4}$ inch above the bottom of the black patch, with the top of the DUI or RDI placed $\frac{1}{4}$ inch below the top edge of the patch, and centered left to right. Personnel may adjust the placement of the nameplate and DUI or RDI, up or down on the patch, to allow for large size DUI or RDI, or to adjust to body configuration (see fig 28-139).

Figure 28–144. Wear of nameplate on Army green and new version blue and white uniforms, female

28–25. Aiguillette, service

a. Description. The service aiguillette is a one-piece braided gold, gold-colored nylon, or synthetic metallic gold-colored cord, 3/16 inch in diameter, and 30½ inches in length, with each end equipped with a hook, and one end equipped with an eye. The front part of the aiguillette is 8½ inches in length and consists of 1½ inches of cord equipped with a hook, a knot 1¾ inches in length, a cord 2 inches in length, and a 3-inch ferrule.

b. How worn. The military aide to the President, White House social aides while on duty with the First Family, and officers designated as aides to foreign heads of state wear the service aiguillette on the right side of the uniform. All other aides wear aiguillettes on the left side. The cord is placed under the arm with the hook engaging the eyes on each side of the appropriate shoulder loop. The end equipped with the eye is worn to the front. The hook of the front part of the aiguillette is engaged in the eye of the cord (see fig 28–145).

Figure 28–145. Wear of service aiguillettes

c. By whom worn. Army attachés, assistant Army attachés, and aides wear the service aiguillette on the Army green, blue, and white uniforms when they are worn for informal occasions. Males will wear the four-in-hand necktie with the uniform when wearing the service aiguillette. When personnel wear the black all-weather coat, they may wear the service aiguillette on the outside of the garment. The aiguillette is worn only when personnel are performing duties as aides.

28-26. Aiguillette, dress

a. Description.

(1) The front of the dress aiguillette is the same as the service aiguillette, except the front part is replaced by a piece that is 25 inches in length, with 15 inches of braiding, with 2 inches from the braiding to the button loop and knot. The knot is 1¾ inches in length, the cord is ¾ inches, and the ferrule is 3 inches. The braided end is equipped with a hook.

(2) The back of the dress aiguillette consists of a braided gold cord, or gold-colored nylon cord, 3/16 inch in diameter and 30½ inches in length, with an additional part 34 inches in length that consists of 24 inches of braiding, with 2 inches from the braiding to the button loop and knot. The knot is 1¾ inches in length, the cord is ¾ inches, and the ferrule is 3 inches and is fastened to a triangular piece of brass with a hook on the inside. This hook is attached to a small strip of brass which slips under the shoulder loop, shoulder strap, or shoulder knot. The brass strip for the shoulder strap is curved to conform to the contour of the shoulder, and is 5/8 inch in width and 37/8 inches in length, with a rectangular opening at each end, 3/8 inches in length. The brass strip for shoulder knots is 5/8 inch in width and 37/8 inches in length, with an extra piece fastened to form a standing loop 1 inch in length, that permits the flexible backing of the shoulder knot to pass through. The brass strip for the shoulder loop of the Army white mess uniform coat is the same as that used for the shoulder knot, without the standing loop.

b. How worn. The military aide to the President, White House social aides while on duty with the First Family, and officers designated as aides to foreign heads of state wear the aiguillette on the right side of the uniform. All other authorized personnel wear aiguillettes on the left side. Aiguillettes are secured to the coat before the opening of the brass strip, and the front part is hooked into the eye of the service aiguillette. The 34-inch part is passed under the arm, and the button loop of the 25-inch part is inserted through the button loop of the 34-inch part, past the button loop of the 25-inch part notch in the lapel, and attached to the button under the collar. The button under the collar is attached to the body of the coat so that the knot of the 25-inch part will easily clear the notch in the lapel. The loops of both cords cross on the outside of the arm with front loop on top. Either gold cord or gold-colored nylon cord may be worn, depending upon the importance of the occasion and the individual's preference (see fig 28-146).

Figure 28-146. Wear of dress aiguillettes

c. By whom worn. The dress aiguillette is worn only when personnel are performing duties as aides. Army attachés, assistant Army attachés, and aides wear the dress aiguillette with the Army blue, white, and black mess and evening mess uniforms, when prescribed. Personnel may wear the dress aiguillette with the Army blue or white uniform only at formal occasions (when the bow tie is worn).

d. How to obtain. Aiguillettes are procured locally as expendable property by the organization to which the individual is assigned for supply purposes. A gold cord, gold-colored nylon cord, or synthetic metallic gold-colored cord are authorized for purchase.

28–27. Service stripes

Soldiers must wear the small service stripes with small rank insignia.

c. How worn.

(1) The service stripes are worn centered on the outside bottom half of the left sleeve on the Army green uniform coat. The service stripe is placed at an angle of 45 degrees with the lower end toward the inside seam of the sleeve, and it is placed 4 inches from the bottom of the sleeve. For each additional period of 3 years honorable service, another service stripe is added above and parallel to the first stripe, with a 1/16-inch space between stripes (see fig 28–147.)

Figure 28–147. Wear of service stripes, enlisted

(2) Service stripes covered in paragraphs *a*(2) and *b*(2), above, are worn on the Army blue and white dress, mess, and evening mess uniforms. The service stripe is worn centered from seam-to-seam on the outside bottom half of both sleeves. The first stripe is sewn on an angle of 30 degrees, with the lower end inserted in the front inside seam, $\frac{1}{4}$ inch above the cuff braid. The upper end of the stripe is inserted in the back seam of the sleeve on the Army blue dress, mess, and evening mess uniforms, and on the Army white mess and evening mess uniforms; and 3 inches above the bottom of the sleeve on the Army white dress uniform. Each additional stripe is spaced $\frac{1}{8}$ inch apart from the last, and above the first stripe (see fig 28-148).

Figure 28-148. Wear of service stripes on Army blue and white uniforms, enlisted

d. By whom worn. Enlisted personnel wear the service stripes as members of the Active Army, Army National Guard, and U.S. Army Reserve, when they have served honorably, as indicated below.

(1) In Active Federal service as a commissioned officer, warrant officer, or enlisted member of the Army, Navy, Air Force, Marine Corps, or Coast Guard.

(2) In Active Reserve service creditable for retirement for non-regular service, in accordance with chapter 1223, title 10, United States Code, as a commissioned officer, warrant officer, or enlisted member of any reserve component of the Armed Forces, including the Women's Army Auxiliary Corps.

e. One stripe is authorized for each 3 years of honorable active Federal service; active Reserve service creditable for retired pay for non-regular service; or a combination. There is no limit to the number of stripes worn; however, service stripes will not cover the chevrons. Service need not have been continuous, and the 10th stripe is authorized after 29½ years. Individuals authorized more than 10 service stripes may elect whether or not to wear them.

28-28. Overseas service bars

a. Large. A goldenlite rayon-embroidered bar, $\frac{3}{16}$ inches wide $1\frac{5}{16}$ inches long, on a green background that forms a $\frac{3}{32}$ -inch border around the bar. All personnel are authorized to wear the large overseas service bar. Enlisted soldiers must wear large overseas service bars with large rank and service stripe insignia.

b. Small. A goldenlite rayon-embroidered bar, $\frac{5}{32}$ inch wide and $\frac{13}{32}$ inch long, on a green background that forms a $\frac{5}{64}$ -inch border around the bar. All personnel are authorized to wear the small overseas service bar. Enlisted soldiers must wear small overseas service bars with small rank and service stripe insignia.

c. How worn. The overseas service bar is worn centered on the outside bottom half of the right sleeve of the Army green uniform coat. The lower edge of the overseas service bar is placed $\frac{1}{4}$ inch above the sleeve braid of the coat for officer personnel, and 4 inches above and parallel to the bottom of the sleeve for enlisted personnel. Each additional bar is spaced $\frac{1}{16}$ inch above, and parallel to the first bar (see fig 28-149).

Figure 28-149. Wear of overseas service bars, all ranks

d. By whom worn. Soldiers are authorized wear of the overseas service bar as indicated below.

(1) One overseas service bar is authorized for each 6-month period of active Federal service as a member of a U.S. Service outside CONUS, from 7 December 1941 until 2 September 1946, both dates inclusive. In computing overseas service, Alaska is considered outside CONUS. An overseas service bar is not authorized for a fraction of a 6-month period.

(2) One overseas service bar is authorized for each 6-month period of active Federal service as a member of a U.S. Service in Korea, from 27 June 1950 until 27 July 1954, both dates inclusive. Credit toward an overseas service bar is authorized for each month of active Federal service as a member of the U.S. Army serving in the designated hostile fire area in Korea from 1 April 1968 until 31 August 1973. The months of arrival to, and departure from the hostile fire pay area are counted as whole months. When credit is given for a month for hostile fire pay, credit for a corresponding month is given toward an overseas service bar.

(3) One overseas service bar is authorized for each 6-month period active Federal service as a member of a U.S. Service in Vietnam, from 1 July 1958 to 28 March 1973. The months of arrival to, and departure from Vietnam are counted as whole months for credit toward the overseas service bar. Periods of TDY service in Vietnam where credit is given for hostile fire pay for 1 month, also may be given credit for a corresponding month towards award of an overseas service bar.

(4) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S. Service in the Dominican Republic, from 29 April 1965 to 21 September 1966, both dates inclusive.

(5) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S. Service in Laos, from 1 January 1966 to 28 March 1973.

(6) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S. Service in Cambodia from 1 January 1971 until 28 March 1973. Personnel must qualify for hostile fire pay to receive credit for an overseas service bar. The months of arrival to, and departure from the hostile fire pay area are counted as whole months.

(7) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S. Service in Lebanon, from 6 August 1983 to 24 April 1984, for the two units listed in paragraph 28-17b(6). The months of arrival to, and departure from the hostile fire pay area are counted as whole months.

(8) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S. Service in the Persian Gulf from 27 July 1987 to 1 August 1990, for Operation Earnest Will. The months of arrival to, and departure from Operation Earnest Will are counted as whole months.

(9) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S. Service in the Persian Gulf from 17 January 1991 to 31 August 1993, for Operation Desert Storm. The months of arrival to, and departure from Operation Desert Storm are counted as whole months.

(10) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S. Service who participated in El Salvador, from 1 January 1981 to 1 February 1992. The months of arrival to, and departure from El Salvador are counted as whole months.

(11) One overseas service bar is authorized for each 6-month period of Federal service as a member of a U.S.

The months of arrival to, and departure from the CENTCOM area of operations are counted as whole months.

(13) Service as a member of a U.S. Armed Service for periods of less than 6 months duration, which otherwise meet the requirements for the award of overseas service bars, may be combined by adding the number of months, to determine creditable service toward the total number of overseas service bars authorized for the following: World War II, Korea, Vietnam, The Dominican Republic, Laos, Cambodia, Lebanon, Operation Earnest Will, Grenada, Operation Just Cause, Operation Desert Storm, El Salvador, Somalia, and Operation Enduring Freedom.

e. Computation of World War II service.

(1) Service is computed between the dates of departure from, and arrival to a port in the United States or the boundary of CONUS. The day of departure and the day of return are included. The expression "each 6-month period of Federal service" is interpreted to authorize the wear of an overseas service bar for overseas service of various lengths, performed either continuously or at intervals, when the total service equaled or exceeded 6 months. Thus, an individual who served 4 months and 10 days outside CONUS and returned there, and subsequently departed from the United States to the same or another theater or country, and served an additional 1 month and 20 days, is entitled to one bar. All active duty or service outside CONUS (permanent, temporary, detached, and so forth) is included in computing length of service, provided that the official duty of the individual required his or her presence outside CONUS.

(2) Military personnel who served on transport vessels and on aircraft became eligible to wear the bar when their total service outside CONUS equaled or exceeded 6 months.

(3) Service on the Great Lakes and in any harbor, bay, or other enclosed arm of the sea along the coast, and that part of the sea which is within 3 miles of the continental limits of the United States, is not included in computing length of service required.

(4) Periods during which military personnel were absent without leave or were in a desertion status, are not included in computing length of service required.

(5) Periods during which military personnel were in the United States on temporary duty, detached service, or leave (even though the individual was assigned overseas) are not included in computing length of service required.

(6) Periods during which military personnel were in confinement, which resulted in time lost as described in section 6 of the Uniform Code of Military Justice (chapter 47, title 10, United States Code), are not included in computing length of service required.

28–29. Brassards

a. Brassards are worn as identification to designate personnel who are required to perform a special task or to deal with the public. Brassards are made of cloth; they are 17 to 20 inches long and 4 inches wide and of colors specified. When more than one color is specified for the brassard, the colors are of equal width and run lengthwise on the brassard. Brassards are worn on the left sleeve of the outer garment, with the bottom edge of the brassard approximately 2 inches above the elbow (see fig 28–150).

Soldiers will not wear a black background on the AG shade 415 and 469 shirts. Plastic or plastic-coated, commercially mounted ribbons are not authorized.

(c) Male personnel. On the coats of the Army green, blue, and white uniforms, and on the AG shade 415 shirt, males wear the ribbons centered $\frac{1}{8}$ inch above the left breast pocket. Ribbon mounts will remain centered above the pocket even if the top ribbon row is offset (see fig 29-2).

Figure 29-2. Wear of ribbons, Army green, blue, and white uniforms, male

(d) Female personnel. On the coats of the Army green, blue, and white uniforms, the maternity tunic, and the AG shade 415 shirt, females wear the ribbons centered on the left side, with the bottom row positioned parallel to the bottom edge of the nameplate. Females may adjust the placement of the ribbons to conform to individual body-shape differences (see fig 29-3).

Figure 29–3. Wear of ribbons, Army green, blue, and white uniforms, female (new version coats)

b. Lapel buttons. Lapel buttons are miniature enameled replicas of an award that are worn only on civilian clothing. Males wear the buttons on the left lapel of civilian clothing; females wear the buttons in a similar location on their civilian attire.

29–8. Wear of full-size U.S. and foreign decorations and service medals

a. Where worn. All personnel may wear full-size decorations and service medals on the Army blue and white uniforms. When the Army green dress uniform is worn to social functions, enlisted personnel may wear full-size decorations and service medals on the coat of the green dress uniform.

b. How worn. Personnel wear all full-size decorations, except the Medal of Honor (see para *c*, below) in the order of precedence from the wearer's right to left, in one or more rows, with $\frac{1}{8}$ inch space between rows. Second and subsequent rows will not contain more medals than the row below. Personnel will not wear service and training ribbons when full-size decorations and service medals are worn. Personnel may wear U.S. and foreign unit award emblems as prescribed, when wearing full-size medals. Full-size medals are worn as follows:

(1) Males wear full-size medals immediately above the left breast pocket, in as many rows as necessary. The number of medals worn in each row depends upon the size of the coat. Full-size decorations or medals will not overlap within a row. When full-size medals are worn, up to three full-size or miniature combat and special skill badges from groups 1 to 5 are authorized for wear above the medals, in order of group precedence (see para 29–17*a*). Males may not wear the Driver and Mechanic badges with full-size medals, and they may not wear special skill and marksmanship badges on the pocket flap below the medals (see fig 29–4).

Figure 29–4. Wear of full-size and miniature medals, Army blue and white uniforms, male

(2) Females wear full-size medals centered on the left side of the coat. The bottom row of the medal pendants are positioned parallel to the bottom of the nameplate. Females may adjust the placement of the medals and nameplate to conform to individual body shape differences. The number of medals worn in each row depends upon the size of the coat. When full-size medals are worn, up to three full-size or miniature combat and special skill badges from groups 1 to 5 are authorized for wear above the medals, in order of group precedence (see para 29–17*a*). Females may not wear the Driver and Mechanic badges with full-size medals, and they may not wear special skill and marksmanship badges below the medals (see fig 29–5).

Figure 29–5. Wear of full-size and miniature medals, Army blue and white uniforms, female (new version coats)

c. Medal of Honor. The Medal of Honor is worn with the neckband ribbon around the neck, outside the shirt collar and inside the coat collar, with the medal hanging over the necktie. Authorized foreign neck decorations are worn beneath the Medal of Honor (see fig 29–6).

Figure 29–6. Wear of Medal of Honor

29–9. Wear of miniature decorations and service medals

a. Miniature medals are replicas of regular size medals, made to a scale of one-half the size of the original. Except for the Medal of Honor, for which there is no miniature, only miniature decorations and service medals are authorized for wear on the mess and evening mess uniforms. Personnel will not wear full-size medals, service and training ribbons, or U.S. and foreign unit award emblems with miniature medals. Only the dress miniature-size combat and special skill badges are worn with miniature medals.

b. Miniature decorations and service medals are authorized for wear on the following uniforms.

(1) Male personnel. On the Army white and blue uniforms, the white and blue mess and evening mess uniforms;

and on the left lapel of formal civilian attire, when wear of Army uniforms is inappropriate or not authorized. Miniature badges are authorized for wear on the AG shade 415 shirt. (See para 29-17*b* for wear of combat and special skill badges with miniature medals; see paragraphs 29-17*c* and 29-18*d* for wear of combat and special skill badges on the AG shade 415 shirt.)

(2) Female personnel. On the Army white and blue uniforms; the white, all-white, black, or blue mess uniforms; the Army white, blue, or black evening mess uniforms; and on the left side of formal civilian attire when wear of Army uniforms is inappropriate or not authorized. Miniature badges are authorized for wear on the AG shade 415 shirt. (See para 29-17*b* for wear of combat and special skill badges with miniature medals; see paragraphs 29-17*c* and 29-18*d* for wear of combat and special skill badges on the AG shade 415 shirt.)

c. The maximum length of holding bars for miniature medals is $2\frac{3}{4}$ inches. Miniature decorations and service medals are worn in the order of precedence from the wearer's right to left, with the medal of highest precedence worn on the top row, if more than one row is required. Miniature medals are worn side by side when four or less are worn in the same row, and they may be overlapped. If the medals are overlapped, the overlap will not exceed 50 percent and will be equal for all medals. When more than one row of miniature medals are worn, the second and subsequent rows are positioned so that the medal pendants on the row below are visible. The top row of miniature medals is centered over the row immediately below. Miniature medals are worn as follows:

(1) Male personnel. Miniature medals are worn centered on the left lapel, approximately $\frac{1}{2}$ inch below the notch of the mess and evening mess uniforms, and will not extend beyond the edge of the lapel. Personnel may adjust placement of the medals to accommodate the wear of dress miniature badges (see fig 29-7). Personnel will wear miniature medals on the Army blue and white uniforms only when these uniforms are worn as formal dress uniforms (with bow tie). When worn on the blue and white uniforms, the miniature medals are worn above the left breast pocket in the same position as full-size medals (see fig 29-4). (See para 29-17*c* for wear of dress miniature badges with miniature medals on the blue and white uniforms.)

Figure 29-7. Wear of miniature medals on mess uniforms, male

(2) Female personnel. Miniature medals are worn centered on the left lapel of the Army blue mess and the new versions of the Army white mess uniforms. On the black mess uniform, the old version of the white mess jackets, and on the Army white and blue uniform coats, females wear the medals centered on the left side of the jacket (not on the lapels). The medals are placed so the bottom line is positioned parallel to the top edge of the top button of the Army white and blue uniform coats, and in a similar position on the new version of the white mess uniforms, and the blue mess and evening mess uniforms (see fig 29-8). Females may adjust placement of the medals to conform to differences in individual body shape. Personnel may wear miniature medals on the Army blue and white uniform coats only when these uniforms are worn as formal dress uniforms. (See para 29-17*c* for wear of dress miniature badges with miniature medals on the Army blue and white dress uniforms.)

Figure 29-8. Wear of miniature medals on mess uniforms, female

29-10. Wear of multiple neck ribbons, broad sashes, and stars

a. An individual awarded more than one decoration that includes a broad ribbon, sash, or star, will wear only one broad ribbon or sash, and no more than four stars at one time. The Presidential Medal of Freedom broad ribbon with badge and star has precedence over all other broad ribbons, sashes, or stars. Stars are worn above the waistline on the side, as described by the awarding country (see figs 29-11 and 29-12). Stars are worn as follows:

- (1) Two stars. Along side or above the first star.
- (2) Three stars. In a triangle, with the point of the triangle up.
- (3) Four stars. The fourth star is centered beneath the triangle of three stars.

b. An individual may not wear more than two decorations with neck ribbons at one time. The decoration with the highest precedence is worn suspended above the other. The Medal of Honor takes precedence over all other decorations with neck ribbons (see figs 29-6, 29-9, and 29-10).

29–11. Wear of U.S. and foreign unit awards

a. Description. Unit award emblems awarded with frames are worn with the laurel leaves of the frame pointing upward. Unit awards are worn on the right side of the uniform, regardless of which service awarded them. Only one emblem representing the same unit award is worn at one time. Personnel may wear unit awards when wearing full-size medals or service ribbons, but they may not wear them with miniature medals. Unit awards received from other U.S. Services that have a frame are worn with the Army (large-size) unit award citation frame. Unit awards of the other U.S. Services that do not have frames are worn on the right side, without frames. (See table 29–1 for authority to wear U.S. unit awards on a temporary or permanent basis.) The criteria for permanent and temporary wear of foreign unit awards are contained in AR 600–8–22.

Notes:

¹ A soldier may wear the unit award permanently if the individual was assigned to, and present for duty with the unit any time during the period cited; or who was attached by competent orders to, and present for duty with the unit during the entire period, or for at least 30 consecutive days of the period cited. When a soldier is permanently awarded a unit award and is subsequently assigned to a unit that has received the same unit award, the soldier will wear the permanent award in lieu of the temporary unit award.

² A soldier may wear the unit award temporarily if the individual was not present with the unit during the period cited but was subsequently assigned to the unit. Soldiers may wear the unit award only while assigned to the cited unit. For elements of regiments organized under the New Manning System or Combat Arms Regimental System, only personnel of the earning unit wear the emblem temporarily.

³ Personnel may not wear the Air Force Presidential Unit Citation on a temporary basis.

⁴ The 30-day requirement for attached personnel does not apply to Navy and Air Force awards.

⁵ Army and Air Force awards are equal in precedence, and the emblems are identical. An individual authorized to wear both an Army and Air Force emblem would wear a single emblem with an oak leaf cluster.

⁶ When awarded for combat or direct combat support, a bronze “V” device is worn on the emblem.

⁷ Authorized for wear by an individual who was assigned to, or who was attached to and present for duty with the unit during at least 1 day of the period cited, for awards issued prior to 28 August 1979. For awards issued on or after 28 August 1979, the individual must have been assigned or attached by competent orders to the unit, and have been present for duty during the entire period, or for at least 50 percent of the period cited.

b. Where worn. Personnel may wear U.S. and foreign unit award emblems on the following uniforms.

- (1) Male personnel. On the coats of the Army green, blue, and white uniforms, and the AG shade 415 shirt.
- (2) Female personnel. On the coats of the Army green, blue, and white uniforms, the Army green maternity tunic, and the AG shade 415 shirt.
- (3) Fourrageres and lanyards. Fourrageres and lanyards are authorized for wear on the coats of the uniforms listed in paragraphs (1) and (2), above.

c. How worn. All permanent and temporary unit award emblems, with and without frames, are worn in the order of precedence from the wearer's right to left. Award emblems are worn in rows containing no more than three emblems per row, with no space between emblems, and with up to $\frac{1}{8}$ inch space between rows, depending upon the size of emblems with frames. The emblems are worn as follows:

(1) Male personnel. Emblems with or without frames are worn centered and $\frac{1}{8}$ inch above the right breast pocket flap (see fig 29-13).

Figure 29-13. Wear of unit awards, male

(2) Female personnel. Emblems with or without frames are worn centered on the right side of the uniform, with the bottom edge $\frac{1}{2}$ inch above the top edge of the nameplate (see fig 29-14).

Figure 29-14. Wear of unit awards, female

(3) Fourrageres and lanyards. Permanent and temporary fourrageres and lanyards, when authorized for wear according to AR 600-8-22, are worn on the left shoulder, with the cord passing under the sleeve and attached to the shoulder loop on the coat of the green and white uniforms, and on the enlisted blue uniforms. Officer personnel authorized to wear a fourragere or lanyard on the blue coat must attach a 20-ligne button to the left shoulder seam, $\frac{1}{2}$ inch outside the collar edge, to attach these awards. Only one fourragere, lanyard, aiguillette, or cord is authorized for wear on each shoulder.

d. Foreign unit awards. If a foreign unit award is worn, personnel must wear at least one other U.S. decoration, service medal, or unit award. Foreign unit awards are worn after U.S. unit awards, by date of receipt. (See AR 600-8-22 for criteria for acceptance of foreign unit awards.) Foreign unit awards are worn as follows:

- (1) French fourragere: when authorized for permanent or temporary wear.
- (2) Belgian fourragere: only when authorized for permanent wear.
- (3) Netherlands orange lanyard: only when authorized for permanent wear.

(4) The Philippine Republic Presidential Unit Citation is authorized for permanent wear, only. The blue portion of the badge is worn to the wearer's right. No oak leaf cluster or other appurtenance is authorized for wear with this award.

(5) The Republic of Korea Presidential Unit Citation is authorized for temporary or permanent wear, when authorized. The red portion of the central figure is worn uppermost. No oak leaf cluster or other appurtenance is authorized for wear with this award.

(6) The Vietnam Presidential Unit Citation is authorized for permanent wear only.

(7) The Republic of Vietnam Gallantry Cross Unit Citation is authorized for permanent wear only.

(8) The Republic of Vietnam Civil Actions Unit Citation is authorized for permanent wear only.

(9) Individuals may not wear more than one Gallantry Cross Unit Citation and one Civil Actions Unit Citation; this precludes wear of the Vietnamese fourragères, which represent additional unit awards.

29–12. Wear of appurtenances

Appurtenances are devices affixed to service or suspension ribbons, or worn in lieu of medals or ribbons. They are worn to denote an additional award, participation in a specific event, or some other distinguishing characteristic of an award. The following appurtenances are authorized for wear on decorations, medals, ribbons and other awards, when authorized by appropriate authority. When more than one appurtenance is worn, soldiers will ensure all devices are centered on the ribbon. (See AR 600–8–22 for additional information.)

a. Oak leaf clusters.

(1) A bronze twig of four oak leaves with three acorns on each stem is worn to denote award of second and succeeding awards of decorations (other than the Air Medal), the Army Reserve Components Achievement Medal, and unit awards. A silver oak leaf cluster is worn in lieu of five bronze oak leaf clusters. It is worn to the wearer's right of a bronze oak leaf cluster and to the left of the "V" device. Oak leaf clusters, 5/16 inch in length, are worn on service ribbons, the suspension ribbon of miniature medals, and unit awards. Oak leaf clusters, 13/32 inch in length, are worn on the suspension ribbon of full-size medals. Oak leaf clusters 5/16 inch in length, joined together in series of two, three, and four clusters, are authorized for optional purchase and wear on service ribbons and unit award emblems. Personnel wear oak leaf clusters centered on the service ribbon and suspension ribbon, with the stems of the leaves pointing to the wearer's right. If four oak leaf clusters are worn on the suspension ribbon on either full-size or miniature medals, the fourth one is placed above the middle one in the row of three. No more than four oak leaf clusters can be worn side-by-side on service ribbons.

(2) If the number of authorized oak leaf clusters exceeds four and will not fit on a single ribbon, a second ribbon is authorized for wear. When the second ribbon is worn, it is placed after the first ribbon; the second ribbon counts as one award. Personnel may wear no more than four oak leaf clusters on each ribbon. If the receipt of future awards reduces the number of oak leaf clusters sufficiently (that is, a silver oak leaf for five awards), personnel will remove the second ribbon and place the appropriate number of devices on a single ribbon.

b. "V" device. The "V" device is a bronze block letter, "V," ¼ inch high. It is worn to denote participation in acts of heroism involving conflict with an armed enemy. The "V" device is worn centered on the suspension ribbon and service ribbon on the Air Medal, Bronze Star Medal, Army Commendation Medal, and the Joint Service Commendation Medal. Not more than one "V" device is worn on a ribbon. When worn with an oak leaf cluster or numerals, the "V" device is worn on the wearer's right.

c. Numerals. Arabic numerals, 3/16 inch in height, are issued in lieu of a medal or ribbon for second and succeeding awards of the Air Medal, Army Reserve Components Overseas Training Ribbon, the Overseas Service Ribbon, the Multinational Force and Observers Medal (MFO), and with succeeding awards of the "M" device with the Armed Forces Reserve Medal. The ribbon denotes the first award, and numerals starting with the numeral 2 denote second and subsequent awards. The numeral worn on the NCO Professional Development Ribbon denotes the highest level of NCO development, as follows: (ribbon—the primary course; 2=basic course; 3=advanced course; 4=U.S. Army sergeants major academy course completion, or equivalent level training approved by HQDA.) The numerals are worn centered on the suspension ribbon of the medal or the ribbon. (See para *i*, below, for placement of a numeral with the "M" device.)

d. Clasps.

(1) The Good Conduct Medal clasp is worn on the service ribbon and suspension ribbon of the Good Conduct Medal to denote second and subsequent awards. The clasp is worn centered on the Good Conduct Medal suspension ribbon and service ribbon. The clasp of the full-size medal and service ribbon is a bar, ½ inch by 1¾ inches, made of bronze, silver, or gold, with loops to indicate each period of service. The clasp for the miniature medal is 1/16 inch by 5/8 inch. (See table 29–2 for a description of the clasps authorized for second and subsequent awards. See chap 4, AR 600–8–22, for criteria for award of the Good Conduct Medal.)

(2) The Antarctic wintered-over clasp is a clasp, with the words "Wintered Over," that is worn centered on the suspension ribbon of the Antarctica service medal. A disk with an outline of the Antarctic Continent is worn on the service ribbon. The clasp and disc are bronze for the first winter, gold for the second winter, and silver for three or more winters.

(3) All other clasps are worn only on the suspension ribbon of the award and denote battle campaigns and service campaigns; they are not worn on the service ribbon.

Table 29–2
Clasps authorized for second and subsequent awards of the Good Conduct Medal.

Award	Clasp
2d	Bronze, 2 loops
3d	Bronze, 3 loops
4th	Bronze, 4 loops
5th	Bronze, 5 loops
6th	Silver, 1 loop
7th	Silver, 2 loops

12th	Gold, 2 loops
13th	Gold, 3 loops

e. Service stars. The service star is a bronze or silver five-pointed star, 3/16 inch in diameter. A silver service star is worn in lieu of five bronze service stars. It is worn to the wearer’s right of a bronze service star and to the left of an arrowhead. (See AR 600–8–22 for the criteria for wear.) Service stars are worn to denote an additional award or service in a named campaign and are centered on the ribbon and suspension ribbon with one point upward. Additional service stars are worn side by side, each with one point upward. Three-sixteenths-inch service stars, joined together in a series of two, three, and four stars, are authorized for optional purchase and wear on ribbons. The bronze service star is affixed to the parachutist badge to denote participation in a combat parachute jump.

f. Arrowhead. The arrowhead is a bronze replica of an Indian arrowhead, ¼ inch high. It denotes participation in a combat parachute jump, combat glider landing, or an amphibious assault landing while assigned or attached as a member of an organized force carrying out an assigned tactical mission. It is worn on the suspension ribbon and service ribbon of the Asiatic-Pacific Campaign, European-African-Middle Eastern Campaign, and World War II Campaign medals; the Korean Service and Vietnam Service medals; and the Armed Forces Expeditionary Medal. The arrowhead is worn with the point facing upward, and is worn to the wearer’s right of all service stars. Only one arrowhead is worn on any ribbon.

g. Berlin Airlift device. The Berlin Airlift device is a miniature replica of a C-54 aircraft and is worn on the suspension and service ribbons of the Army of Occupation Medal, with the nose pointed upward at a 30-degree angle, to the wearer’s right. When the device is worn on the suspension ribbon of the medal, it is centered above the “Germany” clasp.

h. Ten-Year device. The Ten-Year device is an hourglass that is worn centered on the suspension ribbon or service ribbon of the Armed Forces Reserve Medal to denote each succeeding 10-year period in addition to, and under the same conditions as prescribed for the award of the Armed Forces Reserve Medal. If two or more devices are authorized, they are placed side-by-side. A bronze device denotes the completion of the first 10-year period (10 years); a silver device denotes completion of the second period (20 years); a gold device denotes completion of the third period (30 years), and a gold device followed by a bronze device denotes completion of the fourth period (40 years). The Ten-Year device, 11/32 inch in height, is worn on the suspension ribbon of full-size medals and on the service ribbon; the Ten-Year device, 3/16 inch in height, is worn on the suspension ribbon of miniature medals.

i. “M” device. The “M” device is a bronze letter “M” that is worn on the suspension ribbon or service ribbon of the Armed Forces Reserve Medal to denote service during a mobilization or contingency designated by the Secretary of Defense. If personnel served during more than one mobilization or contingency, a numeral is worn to the wearer’s left of the “M” device, to indicate the number of times mobilized. If worn alone, the “M” device is worn centered on the ribbon. When worn with the Ten-Year device, the “M” device is centered on the ribbon, and the Ten-Year device is worn to the wearer’s right. If a numeral is worn, it is placed on the ribbon to the wearer’s left, with the “M” device in the center and the Ten-Year device to the wearer’s right.

29–13. Badges authorized for wear on Army uniforms

A badge is awarded to an individual for identification purposes, or for attaining a special skill or proficiency. The criteria for the award of Army badges are contained in AR 600–8–22, and in NGR 601–1 for Army National Guard Recruiting and Retention identification badges. Most combat and special skill badges are available in full, miniature, and dress miniature sizes. The following badges are authorized for wear on the Army uniform.

a. Military badges awarded by the Department of Army, U.S. Air Force, Navy, Coast Guard, and the Director of Civilian Marksmanship. (See para g, below, for additional information.)

b. Badges awarded by the Regular Army and Navy Union, and by the Army and Navy Union of the United States.

c. Marksmanship badges pertaining to national matches and approved by HQDA. Marksmanship badges from other U.S. Services are not authorized for wear on the Army uniform.

d. Badges of civic and quasi-military societies of the United States, and international organizations of a military nature. These include badges of organizations originally composed of members who served in a U.S. force during the Revolutionary War; the War of 1812; the Mexican War; the Civil War; the Spanish-American War; the Philippine Insurrection; and the Chinese Relief Expedition of 1900. The badges are worn only while the wearer is actually attending meetings or functions of such organizations, or on occasions of ceremony. Personnel will not wear these badges to and from such meetings or events.

e. Badges awarded by friendly foreign nations in recognition of military activities, and as authorized by AR 600-8-22.

f. Tabs indicating marksmanship or special skill. The President's Hundred, Ranger, and Special Forces tabs are the only tabs authorized for permanent wear. Tabs such as Airborne, Honor Guard, Mountain, and Pershing are authorized for temporary wear only. These tabs are considered an integral part of the shoulder sleeve insignia and soldiers are not authorized to wear them when they are reassigned from the organization that prescribed wear of the shoulder sleeve insignia with tab.

g. In accordance with AR 600-8-22, personnel must obtain authority from HQDA before wearing badges on the uniform that were awarded by other U.S. Services, or by the Director of Civilian Marksmanship. The following rules apply when wearing badges from other U.S. Services.

(1) Military combat or special skill badges awarded by other U.S. Services that are similar to U.S. Army combat or special skill badges are worn on the Army uniform in the same manner as U.S. Army combat or special skill badges, only if no Army badges are authorized for wear in the same group. For example, a soldier who had no group 3 badges could wear aviation badges awarded by the U.S. Air Force (USAF) as group 3 badges (as Army Aviation and Aviator badges are worn). However, if the individual was authorized to wear an Army badge in group 3, the soldier would not be authorized to wear the group 3 badge from the USAF.

(2) Skill badges awarded by other U.S. Services that are not similar to Army skill badges are worn as group 4 badges.

(3) Badges from other U.S. Services that indicate career fields are not authorized for wear, such as USAF medical insignia, or badges used to identify the duty, function, or classification of the wearer. Some examples are USAF fire protection, air training command instructor, security police, or the Naval aviation warfare specialist.

(4) Personnel will not wear badges awarded by other U.S. Services which, because of size or configuration, cannot be worn as group 4 badges. Subdued embroidered or metal skill badges authorized for wear by another U.S. Service, and that are authorized for wear on the Army uniform, may be worn on utility uniforms in the same manner as prescribed for Army badges.

29-14. Badges not authorized for wear on Army uniforms

a. Badges awarded by States and other jurisdictions inferior to the U.S. Government, except as provided in paragraph 29-6j for ARNG soldiers in their state status.

b. Badges awarded by jurisdictions inferior to foreign national governments.

c. Badges awarded by foreign civilian organizations.

d. Foreign military badges, except as previously authorized.

e. Marksmanship badges awarded by other U.S. Services.

f. Locally authorized badges.

29-15. Categories of badges authorized for wear on Army uniforms

The following categories of badges are worn on the Army uniform.

a. Marksmanship badges and tab.

b. Combat and special skill badges and tabs.

c. Identification badges.

d. Foreign badges.

29-16. Marksmanship badges and tab

(8) Marksmanship Qualification badges (Expert, Sharpshooter and Marksman) (see fig 29–20).

Figure 29–20. Marksmanship qualification badges

b. No more than three marksmanship badges (does not include marksmanship tab; see para c, below) are authorized for wear. Personnel will not attach more than three clasps to marksmanship badges. The total number of marksmanship and special skill badges worn on the pocket flap or below the ribbons will not exceed three.

(1) Where worn. Marksmanship badges are authorized for wear on the following uniforms.

(a) Male personnel. On the coat of the Army green, white, and blue uniforms, and the AG shade 415 shirt.

(b) Female personnel. On the coats of the Army green, white, and blue uniforms, maternity tunic, and the AG shade 415 shirt.

(2) How worn. Marksmanship badges are worn in order of precedence from the wearer’s right, and to the left of any special skill badges that are worn. Normally, all soldiers wear at least one marksmanship badge, unless they fail to qualify or are exempt from qualification by Army regulations.

(a) Male personnel. Marksmanship badges are worn on the upper portion of the left breast pocket flap, or on the lower portion of the pocket flap, if special skill badges are worn. (See para 29–17 for a description and the wear policy for special skill badges.) Marksmanship badges and special skill badges are authorized for wear on the pocket flap of the Army green, blue, and white uniforms, as prescribed below, with the exception of the Ranger and Special Forces tab metal replicas. When either the Special Forces or Ranger metal tab replicas are worn on the pocket flap of the blue or white dress uniforms, the replicas are worn approximately 1/8 inch below the top of the pocket. (See para 29–17e for a description of, and the wear policy for metal tab replicas.) When airborne background trimming is worn beneath the Parachutist or Air Assault badge, personnel will center the badge on the trimming and place it so that the space between the pocket flap seam and the top of the background trimming is 1/8 inch.

(b) Female personnel. On the service or dress uniform coats and on the maternity tunic, marksmanship badges are worn on the left side, 1/4 inch below the bottom ribbon row, or in a similar location if ribbons are not worn. Personnel may adjust the placement of badges to conform to individual body-shape differences. Marksmanship badges and special skill badges authorized for wear below ribbons are worn as prescribed below. (See para 29–17 for a description and the wear policy for special skill badges.) When airborne background trimming is worn beneath the Parachutist or Air

Assault badge, personnel will center the badge on the trimming and place it so that the space between the bottom of the ribbon bar and the top of the background trimming is $\frac{1}{4}$ inch.

(3) Following are descriptions of the placement of badges when more than one marksmanship badge is worn, or when special skill badges are worn with marksmanship badges.

(a) One marksmanship or one special skill badge. Males wear the badge centered on the pocket flap, from left to right, with the upper portion of the badge approximately $\frac{1}{8}$ inch below the top of the pocket (see fig 29–21). Females wear the badge on the left side, centered below the ribbons, with the upper portion of the badge $\frac{1}{4}$ -inch below the ribbon bar (see fig 29–22).

Figure 29–22. Wear of one special skill or one marksmanship badge, female

(b) Two special skill or two marksmanship badges, or one special skill and one marksmanship badge. Males wear these badges equally spaced on the pocket flap, from left to right, with the upper portion of the badges approximately $\frac{1}{8}$ inch below the top of the pocket, and with at least 1 inch between badges (see figs 29–23 and 29–25). Females wear these badges with the upper portion $\frac{1}{4}$ -inch below the ribbon bar, and with at least 1 inch between badges (see figs 29–24 and 29–26). Special skill badges are worn to the wearer's right of the marksmanship badges.

(c) One special skill and two marksmanship badges. Males wear these badges equally spaced on the pocket flap, from left to right, with the upper portion of the badges approximately $\frac{1}{8}$ inch below the top of the pocket. Males will wear marksmanship badges that have attaching devices at the top of the badge, such as the Excellence in Competition Rifleman badge, in this manner (see fig 29–27). When no badges are worn that have devices attached at the top, males have the option of wearing the special skill badge centered on the pocket flap, from left to right, with the upper portion of the badge approximately $\frac{1}{8}$ inch below the top of the pocket. Each marksmanship badge is centered between the button and the left or right side of the pocket. The bottom of the badges (not the clasp holder or clasps) is adjacent to the bottom of the pocket flap (see fig 29–28). Females wear these badges with the upper portion of the badges $\frac{1}{4}$ inch below the ribbon bar and spaced an equal distance apart (see fig 29–30).

Figure 29–30. Wear of two special skill and one marksmanship; or one special skill and two marksmanship badges, female

(d) Two special skill and one marksmanship badge, or one special skill and two marksmanship badges, or three marksmanship badges. Males wear these badges equally spaced on the pocket flap, approximately $\frac{1}{8}$ -inch below the top of the pocket (see fig 29–29). Females wear these badges with the upper portion of the badges $\frac{1}{4}$ inch below the ribbon bar and spaced an equal distance apart (see fig 29–30).

c. President's Hundred tab (rifle or pistol). The President's Hundred tab is a full-color tab of yellow cloth, $\frac{4}{4}$ inches long and $\frac{5}{8}$ inch high, with the words "President's Hundred" centered in $\frac{1}{4}$ -inch-high green letters (see fig 29–31). The President's Hundred tab is worn $\frac{1}{2}$ inch below the shoulder seam on the left sleeve of the male and female Army green uniform coats (see fig 29–32). The President's Hundred tab is available in a subdued version for wear on the BDUs. The President's Hundred bronze metallic brassard is not authorized for wear on the Army uniform.

(6) Physical Fitness badge. The Physical Fitness badge is authorized for wear on the Physical fitness uniform and the improved physical fitness uniform, only (see fig 29-51).

Figure 29-51. Physical Fitness badge

b. Wear of combat and special skill badges.

(1) Wear of commercial, mirror-like finish combat and special skill badges is authorized. However, soldiers may not mix these badges with combat and special skill badges that do not have the mirror-like finish.

(2) A total of five combat and special skill badges are authorized for wear at one time; this total does not include special skill tabs (see figs 29-52 and 29-53). Personnel may wear only one badge each from groups 1, 2, and 3, as listed in paragraph *a*, above. Personnel also may wear three badges from group 4, and two badges from group 5, but the total number of badges cannot exceed five. Combat badges have precedence over special skill badges within the same group. For example, if an individual is authorized to wear the Combat Infantry badge and the Expert Infantry badge, the Combat Infantry badge is worn. There is no precedence for special skill badges within the same group. For example, personnel who are authorized to wear the Parachutist and Air Assault badges may determine the order of wear. The above policies apply to the wear of both non-subdued and subdued badges.

Figure 29-52. Wear of five badges, male

Figure 29-53. Wear of five badges, female

(3) Only three badges, to include marksmanship badges, can be worn on the pocket flap at one time. Personnel will wear the Driver and Mechanic badges only on the left pocket flap of service and dress uniforms, or in a similar location on uniforms without pockets. Personnel may attach no more than three clasps to the Driver and Mechanic badges. The Driver and Mechanic badges are not authorized for wear on utility uniforms.

(4) The Physical Fitness badge is authorized only as a cloth badge and is worn on the physical fitness uniform and on the improved physical fitness uniform, only. The badge is worn centered on the left front side above the breast on the PFU or IPFU T-shirt, and on the PFU sweatshirt. On the IPFU running jacket, the insignia is sewn centered $\frac{1}{2}$ inch above the word "Army."

c. Wear of non-subdued full-size and miniature combat and special skill badges, with or without ribbons, on male and female service and dress uniforms.

(1) On the service and dress uniforms, personnel may wear up to three combat and special skill badges from groups 1 through 3, above the ribbons or pocket flap, or in a similar location for uniforms without pockets. When no badges from groups 1 through 3 are worn, personnel may wear a total of three combat and special skill badges from groups 4 and 5 above the ribbons or pocket flap, or in a similar location on uniforms without pockets. When three badges are worn above the ribbons or pocket flap, three badges, to include marksmanship badges, can be worn side-by-side on the pocket flap, or below the ribbons on uniforms without pockets, in order of group precedence from the wearer's right to left. (Para 29-8*b* describes wear of combat and special skill badges with full-size medals; para 29-16*b* describes wear of badges on the pocket flap, or below the ribbons.)

(2) How worn. Combat and special skill badges are worn on the coats of the Army green, blue, and white uniforms; the AG shade 415 shirt, and on the Army maternity tunic (females only). Personnel wear the badges $\frac{1}{4}$ inch above the ribbons or the top of the pocket, one above the other, with $\frac{1}{2}$ inch between badges, or they are worn on the pocket flap, as described in paragraph 29-16*b*, or in a similar location for uniforms without pockets. In those instances where the

coat lapel obscures the ribbons or medals, personnel may wear the badges (or airborne background trimming, if worn beneath the badge) aligned with the left edge of the ribbons or medals (see figs 29-54 through 29-57).

(3) Dress miniature badges.

(a) The dress miniature combat and special skill badges are worn on the blue and white dress uniforms only when miniature medals are worn. (Dress miniature badges and miniature medals are worn on the Army blue and white dress uniforms only when these uniforms are worn as formal dress uniforms (with bow tie).) When miniature medals are worn on these uniforms, personnel may wear up to three dress miniature combat and special skill badges from groups 1 through 5 (see para 29-17a, above), one above the other, above the miniature medals in order of group precedence. When miniature medals are worn, personnel will not wear dress miniature combat and special skill and marksmanship badges on the pocket flap, or below the medals on uniforms without pockets.

(b) Dress miniature combat and special skill badges are worn on all mess and evening mess uniforms. Personnel may wear up to five combat and special skill badges from groups 1 through 5. If no badge from groups 1 through 3 is worn, personnel may wear five badges from groups 4 and 5. When two badges are worn, they are placed side-by-side immediately above the miniature medals. When three badges are worn, two are placed side-by-side immediately above the medals, and the third is centered 1/4 inch above the other two badges. When four badges are worn, the third and fourth badges are centered side-by-side 1/4 inch above the other two badges. When five badges are worn, the fifth will be worn centered 1/4 inch above the third and fourth badges. Badges are worn in order of group precedence; on the male mess uniform, badges will not extend beyond the lapel. (Para 29-9 describes wear of miniature medals on the mess uniforms (see figs 29-7 and 29-8).)

(c) Personnel may wear dress miniature combat and special skill badges on the AG shade 415 shirt. However, they may not mix dress miniature combat and special skill badges with full-size and miniature combat and special skill badges on the shirt.

(d) Subdued pin-on and embroidered sew-on combat and special skill badges. Personnel may wear no more than five subdued combat and special skill badges on the temperate, hot weather, enhanced hot weather, maternity, aviation, and desert BDU shirts. Badges are worn one above the other, centered above the U.S. Army tape, in order of group

precedence. When five badges are worn, three are centered $\frac{1}{4}$ inch above the U.S. Army tape in a vertical line with $\frac{1}{2}$ inch between badges, and two are worn on the pocket flap, $\frac{1}{8}$ inch below the top of the pocket, with at least 1 inch between badges. When four badges are worn, three are centered $\frac{1}{4}$ inch above the U.S. Army tape in a vertical line with $\frac{1}{2}$ inch between badges, and one is worn on the pocket flap, $\frac{1}{8}$ inch below the top of the pocket, with at least 1 inch between badges. When three badges are worn, two badges are centered $\frac{1}{4}$ inch above the U.S. Army tape in a vertical line with $\frac{1}{2}$ inch between badges, and one is worn centered on the pocket flap, $\frac{1}{8}$ inch below the top of the pocket. When two badges are worn, both are centered $\frac{1}{4}$ inch above the U.S. Army tape in a vertical line with $\frac{1}{2}$ inch between badges. If only one badge is worn, it is centered $\frac{1}{4}$ inch above the U.S. Army tape (see fig 29–58).

Figure 29–58. Wear of subdued combat and special skill badges

e. Wear of special skill tabs.

(1) Ranger tab.

(a) The full-color tab is $2\frac{3}{8}$ inches long, $\frac{11}{16}$ inch wide, with a $\frac{1}{8}$ -inch yellow border and the word “RANGER” inscribed in yellow letters $\frac{5}{16}$ inch high. The subdued tab is identical, except the background is olive-drab and the word “RANGER” is in black letters (see fig 29–59).

(b) How worn. The full-color tab is worn $\frac{1}{2}$ inch below the shoulder seam on the left sleeve of the Army green coat. The subdued tab is worn $\frac{1}{2}$ inch below the shoulder seam on the left sleeve of utility uniforms, field jackets, and the desert BDU.

(c) By whom worn. All personnel who are authorized, in accordance with the criteria provided in AR 600–8–22.

(d) Ranger tab metal replica. The Ranger tab metal replica is available in two sizes, full and dress miniature. Soldiers authorized to wear the Ranger tab may wear the Ranger tab metal replica as prescribed below. The full-size version is approximately $1\text{--}\frac{5}{32}$ inches wide and is worn only on the blue and white dress uniforms, and the AG shade 415 shirt. The dress miniature version is $\frac{13}{16}$ inch wide and is worn on the blue and white mess and evening mess uniforms. When miniature medals are worn on the blue and white dress uniforms, personnel may wear the dress miniature Ranger tab metal replica (see figs 29–60 and 29–61).

Figure 29–60. Wear of multiple special skill tabs

Figure 29–61. Wear of metal tab replicas on Army blue or white uniforms, male

(2) Special Forces tab.

(a) Description. The Special Forces tab is a teal blue arc, $3\frac{1}{4}$ inches wide and $\frac{11}{16}$ inch high, with the designation “SPECIAL FORCES” in yellow letters, $\frac{5}{16}$ inch high. The subdued tab is identical in shape to the full-color tab, but the background color is olive-drab and the words “SPECIAL FORCES” are in black letters (see fig 29–63).

(b) How worn. The Special Forces tab is worn the same as the Ranger tab (see para (1)(b) above).

(c) By whom worn. All personnel who are authorized, in accordance with the criteria provided in AR 600–8–22.

(d) Special Forces tab metal replica. The Special Forces tab metal replica is available in two sizes. Soldiers authorized to wear the Special Forces tab may wear the Special Forces tab metal replica, as prescribed below. The full-size version is approximately $1\text{--}\frac{9}{16}$ inches wide and is worn on the blue and white dress uniforms (see figs 29–61 and 29–62). The dress miniature version is 1 inch wide and is worn on the blue and white mess and evening mess uniforms (see fig 29–62). When miniature medals are worn on the blue and white dress uniforms, personnel may wear the dress miniature Special Forces tab metal replica.

(3) For purposes of classification and wear policy, the Ranger and Special Forces tab metal replicas are classified as group 4 special skill badges.

(4) As an option, soldiers may wear the full-size and dress miniature Ranger and Special Forces tab metal replicas on the AG shade 415 shirt. If soldiers wear the dress miniature versions of the tabs, they cannot mix them with other sizes of combat and special skill badges on the shirts. When personnel wear metal tab replicas on the pocket flap of the blue or white dress uniforms, or the AG shade 415 shirt, the tab is placed approximately $\frac{1}{8}$ inch below the top of the pocket. If no badges are worn from groups 1 to 3, personnel may wear the metal tab replica above the ribbons.

f. Wear of two special skill tabs. Soldiers may wear the full-color Special Forces and Ranger tabs together on Army uniforms.

(1) On the Army green service uniform, the Special Forces tab is centered on the left shoulder sleeve, $\frac{1}{2}$ inch from the shoulder seam, and the Ranger tab is centered $\frac{1}{8}$ inch below the Special Forces tab. The current unit shoulder

sleeve insignia is centered ¼ inch below the Ranger tab. On the utility uniforms and the cold weather jackets, personnel wear the subdued tabs in the same positions as on the Army green service uniform (see fig 29–60).

(2) On the Army blue and white uniforms, and on the AG shade 415 shirt, personnel wear the full-size metal tab replicas on the pocket flap, ⅛ inch from the top of the pocket, with approximately 1 inch between the tabs. If no badges are worn from groups 1 to 3, personnel may wear the metal tab replicas above the ribbons (see fig 29–61).

(3) See paragraph 29–17b(3)(b) for a description of how to wear the dress miniature metal Special Forces and Ranger tab replicas together on the Army blue and white mess and evening mess uniforms (see fig 29–62).

b. Temporary badges. The following badges are authorized for temporary wear. Personnel will not wear these badges for official photographs or for promotion/selection boards. Upon termination of assignment to the command that directs the wear of these badges, soldiers will discontinue wearing these badges on the uniform.

(1) Unified Commander in Chief (CINC) Command identification badge. The order of precedence for this badge is after the Joint Chiefs of Staff identification badge.

(2) National Defense University identification badge. The order of precedence for this badge is after the CINC Command identification badge.

(3) The following badges do not have an order of precedence in relation to other identification badges in this chapter.

(a) Recruiting and Retention identification badge, Basic and Senior (ARNG) (see fig 29–74).

Figure 29–74. Army National Guard Recruiting and Retention identification badge, Basic and Senior

(b) Military Police identification badge (see fig 29–75).

c. U.S. non-military identification badges. The Secretary of Health and Human Services identification badge is authorized for wear on the uniform (see fig 29–76).

Figure 29–76. Secretary of Health and Human Services identification badge

d. Wear of identification badges. Personnel may wear no more than two identification badges on one pocket or side of the coat of the uniforms prescribed below. When two identification badges are worn on the same side or pocket, the precedence of the badges is from the wearer’s right to left, as listed in a. above. When more than two badges are awarded that are worn on the same side, the individual may determine which two badges are worn on the uniform (see fig 29–77). Identification badges are worn as follows.

Figure 29–77. Wear of identification badges on Army green, blue, and white uniforms, male

(1) Male personnel.

(a) On service and dress uniforms, and the AG 415 shirt, ID badges are worn centered on the pocket of the coat or shirt. The badge is centered between the bottom of the pocket flap and the bottom of the pocket, and centered from left to right. When two badges are worn on the same side, they are spaced equally from left to right on the pocket. Personnel may wear miniature badges on the AG 415 shirt.

(b) Subdued badges are worn on the temperate, hot weather, enhanced hot weather, maternity, aviation, and desert BDU shirts, and on the field jacket, with the badge centered on the appropriate breast pocket between the bottom of the pocket flap and the bottom of the pocket, or in a similar location on uniforms without pockets. When two badges are worn on the same side, they are spaced equally from left to right on the pocket.

(c) On the mess and evening mess uniforms, ID badges are worn centered between the upper two buttons of the jacket, with one inch between badges when two are worn on the same side (see fig 29–78). Personnel are authorized to wear full-size identification badges on the mess and evening mess uniforms when the badges are not available in miniature size.

Figure 29–78. Wear of identification badges on white and blue mess uniforms, male

(2) Female personnel.

(a) On service and dress uniforms, the identification badge is worn parallel to the waistline on the coat of the Army green uniform, with one inch between badges when two are worn on the same side. Badges are worn in a comparable position on the Army blue and white uniform coats, the maternity tunic, and the AG shade 415 shirt (see fig 29–79). If no other awards, decorations, or insignia (other than the nameplate and rank) are worn on the AG shade 415 shirt, females may place the ID badge parallel to the nameplate, or approximately 1 inch above the nameplate, depending upon which side the badge is worn (see fig 29–80). Females may adjust placement of badges to conform to individual body-shape differences. Personnel may wear miniature badges on the AG 415 shirt.

Figure 29–79. Wear of identification badges on Army green, blue, and white uniforms, female

Figure 29–80. Wear of identification badges on AG 415 shirt, female

(b) Subdued badges are worn on the utility uniforms, the field jacket, and the desert BDU with the badge centered on the appropriate breast pocket between the bottom of the pocket flap and the bottom of the pocket, or in a similar location on uniforms without pockets. When two badges are worn on the same side, they are spaced equally from left to right on the pocket.

(c) On the mess and evening mess uniforms, ID badges are worn centered between the lower two buttons of the jacket, with one inch between badges when two are worn on the same side (see fig 29–81). Personnel are authorized to wear full-size identification badges on the mess and evening mess uniforms when the badges are not available in miniature size.

 - (3) The Secretary of Defense identification badge is worn on the left side.
 - (4) The Joint Chiefs of Staff identification badge is worn on the left side.
 - (5) The Army Staff identification badge is worn on the right side.

The subdued badge is worn on utility uniforms and field jackets, with the badge centered on the right breast pocket between the bottom of the pocket flap and the bottom of the pocket, as measured from the insignia, not the cloth backing. Personnel will wear the subdued badge with the background material intact.
 - (b) When personnel wear both the subdued Drill Sergeant and Career Counselor badges on utility uniforms, the Drill Sergeant badge is worn to the right of the Career Counselor badge. Officers who were awarded the Drill Sergeant badge as a permanent award while in an enlisted status are authorized to wear the badge.
 - (8) The U.S. Army Recruiter identification badge, Active Army/Army Reserve, is worn on the left side.
 - (a) This badge is authorized for wear by military personnel assigned or attached to the U.S. Army Recruiting Command (USAREC) as designated by the CG, USAREC. (See AR 600–8–22 for eligibility criteria.) Personnel may wear only one recruiter badge at a time.
 - (b) This badge is authorized as a non-subdued metal badge and as a subdued embroidered cloth badge. The subdued badge is embroidered on olive-green cloth (silver badge) or black cloth (gold badge). The subdued badge is worn on utility uniforms and field jackets, with the badge centered on the left breast pocket between the bottom of the pocket flap and the bottom of the pocket, as measured from the insignia, not the cloth backing. Personnel will wear the subdued badge with the background material intact.
 - (c) Officers who were awarded the U.S. Army Recruiter badge as a permanent award while in an enlisted status are authorized to wear the badge.
 - (9) The Career Counselor identification badge is worn on the right side. Only enlisted personnel in CMF 79 are authorized wear of this badge. (See AR 600–8–22 for eligibility criteria.)
 - (a) The badge is authorized as a non-subdued metal badge in a small and large version, and as a subdued embroidered cloth badge. The subdued badge is embroidered on green cloth and is worn on the utility uniforms and field jackets with the badge centered on the right breast pocket, between the bottom of the pocket flap and the bottom of the pocket, as measured from the insignia, not the cloth backing. Personnel will wear the subdued badge with the background material intact.
 - (b) When both the Career Counselor identification and Drill Sergeant badges are worn, the Drill Sergeant badge is worn to the right of the Career Counselor badge. Personnel wear the non-subdued Career Counselor badge on the black pullover sweater instead of the DUI or RDI.
 - (10) The Recruiting and Retention identification badges, ARNG, are worn on the left side.

(a) Basic and Senior badges. (See NGR 601–1 for eligibility criteria.) These badges are authorized as non-subdued metal badges and as subdued embroidered cloth badges. The non-subdued basic badge is silver and the senior badge is gold. The subdued basic badge is a black minuteman on green cloth, and the subdued senior badge is a green minuteman on black cloth. The basic and senior badges are authorized for temporary wear only while assigned to a recruiting position, or to occasional recruiting duties. Officers may wear this as a temporary badge if assigned to recruiting duties.

(b) Master badge. The non-subdued master badge is a gold badge surrounded by a wreath. The subdued badge is a black minuteman on green cloth, surrounded by a black wreath. This badge is authorized for permanent wear. After ARNG master-level recruiters leave recruiting duty, they may wear the master badge on the class A uniform; they may wear the badge on the AG shade 415 shirt only when all other awards and decorations are worn. Officers who were awarded the Recruiting and Retention badge, Master, as a permanent award while in an enlisted recruiter status, or as an AMEDD recruiter, are authorized to wear the badge.

(c) Personnel wear the subdued badges on utility uniforms and field jackets, with the badge centered on the left breast pocket between the bottom of the pocket flap and the bottom of the pocket, as measured from the insignia, not the cloth backing. Personnel will wear the subdued badge with the background material intact. Only one recruiter badge is authorized for wear at a time. Soldiers currently on recruiting duty will wear the recruiter badge of their component.

(11) The Unified Commander in Chief (CINC) Command identification badge is worn on the left side. The design of the badge is unique to the respective command. The badge is authorized for wear by personnel assigned to the CINC's staff, and by personnel assigned to subordinate unified commands and direct reporting units to the unified command, at the direction of the Unified CINC. The badge is worn on the class A and B uniforms, and on the Army dress, mess, and evening mess uniforms.

(12) The National Defense University (NDU) identification badge is worn on the right side. Personnel assigned to the faculty or staff of NDU; the National War College, Industrial College of the Armed Forces; or the Armed Forces Staff College are authorized to wear the badge during their assignment.

(13) The Military Police badge is worn on the left side. The Military Police badge is the symbol of law enforcement authority vested in Military Police and is worn only in the performance of law enforcement duties.

(a) The Military Police badge is worn on the Army green uniform coat when MPs wear the coat as an outer garment. Males wear the badge centered below the pocket flap on the left breast pocket (see fig 29–82). Females wear the badge centered or aligned to the left above the service ribbons (see fig 29–83). The badge is attached to the outer garment by using a pin clasp or a leather fob.

(b) Brassards are worn when MPs wear utility uniforms, the AG shade 415 shirt, the black pullover sweater, black windbreaker, or black overcoat as outer garments. (See paragraph 28–29b(9) for brassard wear policy.)

(14) DOD/Joint Agency identification badges. DOD/Joint Agency badges are worn by personnel during their assignment to specific DOD and Joint Agencies. Badges may be worn on either pocket/side of the uniform, as long as they do not interfere with the positioning of other badges listed in this chapter. Manner of wear is determined by the agency.

(15) The Secretary of Health and Human Services badge is worn on the right side. Officers wear this badge temporarily upon initial assignment within the Office of the Secretary of Health and Human Services (OSHHS). After one year of duty in OSHHS, officers may wear the badge permanently.

Note. Subdued badges, worn on desert BDUs, are available in spicebrown/brown/khaki.

29–19. Wear of foreign badges

a. Personnel may not wear more than one foreign badge at a time. Only those badges awarded in recognition of military activities by the military department of the host country are authorized for acceptance and permanent wear on the Army uniform. The only Vietnamese badges authorized for wear are the parachute, ranger, and explosive ordnance disposal badges. Soldiers must obtain approval from HQDA, in accordance with the procedures provided in AR 600–8–22, to accept, retain, and wear a foreign badge.

b. Males wear a foreign badge $\frac{1}{8}$ -inch above the right pocket flap, or $\frac{1}{2}$ -inch above any unit awards that are worn (see fig 29–84). Females wear the badge $\frac{1}{2}$ -inch above the nameplate, or $\frac{1}{2}$ -inch above any unit awards that are worn (see fig 29–85). Personnel may not wear a foreign badge unless at least one U.S. medal or service ribbon is worn at the same time. Foreign badges are not authorized for wear on mess or utility uniforms. Personnel may not wear foreign badges that are awarded only as cloth badges. Personnel may not wear foreign badges that cannot be worn properly because of size or configuration.

Figure 29–85. Wear of foreign award, female

c. The German Marksmanship Award (Schuetzenschnur) is authorized for wear only by enlisted personnel. Officers may accept, but may not wear the Schuetzenschnur. If authorized, personnel wear the award on the right side of the uniform coat, with the upper portion attached under the center of the shoulder loop, and the bottom portion attached under the lapel to a button mounted specifically for wear of this award.

Chapter 30

Wear of the Army Uniform by Reserve, Retired, Separated, and Civilian Personnel

30–1. Occasions of ceremony

a. As used in this regulation, the phrase “occasions of ceremony” means occasions essentially of a military character, at which the uniform is more appropriate than civilian clothing. These functions include, but are not limited to: military balls, military parades, weddings, and military funerals; memorial services, meetings and conferences; or functions of associations formed for military purposes, of which the membership is composed largely or entirely of current or honorably discharged veterans of the Armed Forces or reserve components. Authority to wear the uniform includes wear while traveling to and from the ceremony or function, provided the travel in uniform can be completed on the day of the ceremony or function.

b. All persons wearing the Army uniform will wear awards, decorations, and insignia in the same manner as prescribed in this regulation for active duty soldiers. For civilian attire, individuals may wear only those awards, decorations, or insignia authorized by this regulation for wear on civilian clothing, in the same manner and approximate location as the equivalent military uniform.

30-2. Wear of the uniform by members of the Army National Guard and U.S. Army Reserve

a. All members of the ARNG and USAR on any form of paid or unpaid inactive duty, active duty, annual training, or full-time National Guard, or Active Guard/Reserve (AGR) duty will wear the uniform and insignia prescribed for personnel in the Active Army. Army National Guard and USAR personnel are authorized to wear the Army uniform on the following occasions.

b. When ARNG AND USAR personnel are within the limits of the United States or its possessions. Army National Guard and USAR personnel not on active duty may wear the Army uniform only as follows.

(1) When participating in reserve training assemblies (inactive duty training), exercises, conferences, or ceremonies in an official capacity as members of the ARNG or the USAR under competent orders.

(2) When engaged in military instruction or in attendance as a student under appropriate orders at any school or course of instruction under the auspices of the armed forces or the reserve components.

(3) When instructors at an educational institution conducting courses of instruction approved by the armed forces, or when responsible for military discipline at like institutions.

(4) When attending social functions or informal gatherings of a military character. All current and former soldiers will conform to the wear and appearance standards in this regulation while wearing the uniform under the provisions of this chapter.

(5) When enrolled as undergraduates in educational institutions in which there is an active ROTC unit or an established USAR unit. Individuals may wear the uniforms and insignia of their grade only upon such occasions expressly desired or authorized by the professor of military science, or other proper official of the school. Members of the USAR attending institutions at which military training is considered as required curricular activity are authorized, and may be required to wear, the uniform prescribed by the institution, including the insignia of any grade or rating held in the student unit.

(6) Army National Guard military technicians who are required to wear the uniform as a condition of their employment will wear the uniform for their federally recognized grades, as prescribed by the Adjutant General of their state, commonwealth, territory, or district.

(7) U. S. Army Reserve technicians who are also members of the U.S. Army Reserve may wear the Army uniform at their option while performing in their civil service status.

c. When outside the limits of the United States or its possessions. Army National Guard and USAR personnel not on active duty and outside the limits of the United States or its possessions will not wear the Army uniform, unless granted authority by HQDA. However, on occasions of military ceremony or other military functions in a foreign country, ARNG and USAR personnel may be granted authority to wear the Army uniform after they have their status accredited by the nearest Army attaché. In a foreign country that does not have an Army attaché, however, ARNG and USAR personnel must obtain authority to wear the Army uniform for a specific occasion from the military authorities of the country concerned.

d. Army National Guard personnel also may wear the Army uniform in the performance of State service, when authorized to do so by their State Adjutant General.

e. United States Army Reserve personnel.

(1) Warrant officers and enlisted personnel serving on active duty who also hold commissions in the USAR may wear the uniform indicative of their grade in the USAR only as follows.

(a) When undergoing authorized voluntary training designed for Reserve officers which they are authorized to take, and while traveling to and from that training.

(b) When attending meetings or functions of associations formed for military purposes, of which membership is composed largely or entirely of officers of the United States Army, or of former members of the Army.

(2) Warrant officers and enlisted personnel serving on active duty who also hold commissions in the USAR may not wear the uniform indicative of their grade in the USAR as follows.

(a) When in an office of the Department of Defense.

(b) When they will be in association with troops of the active Army or of the ARNG when called into Federal service, except when the individual is on active duty as a Reserve officer, or as otherwise authorized in paragraph (1), above.

30-3. Wear of the uniform by retired personnel

a. Personnel who will be advanced to a higher grade upon retirement have the option of wearing the insignia of that grade thereafter.

b. Retired personnel on active duty will wear their uniform and insignia in the same manner as prescribed for personnel in the Active Army of corresponding grade and branch.

c. Retired personnel not on active duty may wear either the uniform reflecting their grade and branch on the date of their retirement, or the uniform for personnel in the Active Army of corresponding grade and branch, when appropriate, but may not intermix the two uniforms. Personnel will wear the grade as shown on the retired grade of rank line on the retirement order.

d. Retired personnel not on active duty are not authorized to wear shoulder sleeve insignia, except as follows:

(1) Personnel performing instructor duties at an educational institution conducting courses of instruction approved by the Armed Forces will wear the shoulder sleeve insignia of the command that is responsible for the course of instruction. Senior and junior ROTC instructors will wear the Cadet Command shoulder sleeve insignia on their left shoulder (see AR 145-1 and 145-2 for wear of the uniform by senior and junior ROTC instructors, respectively).

(2) Retired personnel are authorized to wear the shoulder sleeve insignia for U.S. Army Retirees on the left shoulder. The insignia consists of a white cloth disc with a blue border, and an inner white disc with a red border, which bears a blue and white adaptation of the coat of arms of the United States. The outer disk that surrounds the coat of arms contains the inscription "UNITED STATES ARMY" in red letters at the top, and the word "RETIRED" in blue letters at the bottom (see fig 30-1).

Figure 30-1. Shoulder sleeve insignia, retirees

(3) Retired personnel may wear the shoulder sleeve insignia for former wartime service (SSI-FWTS) on the right shoulder if they were authorized wear of the SSI-FWTS while on active duty.

e. Retired personnel not on active duty are not authorized to wear the Army uniform when they are instructors or responsible for military discipline at an educational institution, unless the educational institution is conducting courses of instruction approved by the Armed Forces.

f. In addition to the occasions for wear listed above, retired personnel are authorized to wear the uniform only on the following occasions. Uniforms for these occasions are restricted to service and dress uniforms; the BDU and physical fitness uniforms will not be worn.

(1) While attending military funerals, memorial services, weddings, inaugurations, and other occasions of ceremony.

(2) Attending parades on national or state holidays, or other patriotic parades or ceremonies in which any active or reserve United States military unit is taking part. Wear of the Army uniform at any other time, or for any other purpose than stated above is prohibited.

30-4. Wear of the uniform by former members of the Army

a. Unless qualified under another provision of this regulation, or under the provisions of section 772, title 10, United States Code (10 USC 772), former members of the Army may wear the uniform if they served honorably during a declared or undeclared war, and if their most recent service was terminated under honorable conditions. Personnel who qualify under these conditions will wear the Army uniform in the highest grade they held during such war service, in accordance with 10 USC 772.

b. The uniform is authorized for wear only for the following ceremonial occasions, and when traveling to and from the ceremony or function. Uniforms for these occasions are restricted to service and dress uniforms; the BDU and physical fitness uniforms will not be worn.

(1) When attending military funerals, memorial services, weddings, inaugurations, and other occasions of ceremony.

(2) When attending parades on national or state holidays, or other patriotic parades or ceremonies in which any

active or reserve United States military unit is taking part. Wear of the Army uniform at any other time, or for any other purpose than stated above, is prohibited.

30-5. Wear of the uniform by Medal of Honor recipients.

Personnel awarded the Medal of Honor may wear the Army uniform at their pleasure, except under the circumstances in paragraph 1-10j.

30-6. Wear of medals on civilian clothes

Retired personnel and former members of the Army (as described above) may wear all categories of medals described in this regulation on appropriate civilian clothing. This includes clothes designed for veteran and patriotic organizations on Veteran's Day, Memorial Day, and Armed Forces Day, as well as at formal occasions of ceremony and social functions of a military nature. Personnel may wear either full-size or miniature medals. Personnel who wear medals on civilian clothes should place the medals on the clothing in approximately the same location and in the same manner as for the Army uniform, so they look similar to medals worn on the Army uniform.

30-7. When wear of the uniform is prohibited

The wear of the Army uniform by ARNG, USAR, retired, separated, and civilian personnel is prohibited under the circumstances listed in paragraph 1-10j.

30-8. Wear of a uniform similar to the Army uniform

a. A person for whom one of the following uniforms is prescribed may wear the uniform, provided it includes distinctive insignia prescribed by the Secretary of the Army to distinguish it from the U.S. Army uniform.

(1) Instructors or members of an organized cadet corps at a state university, college, or public high school that has a regular course of military instruction will wear the uniform prescribed by the academic organization.

(2) Instructors or members of an organized cadet corps at an educational institution that has a regular course of military instruction in military science with an Army instructor, will wear the uniform prescribed by the academic organization.

(3) When authorized by regulations prescribed by the Secretary of the Army, members of a military society composed of persons discharged honorably or under honorable conditions from the U.S. Army may wear the uniform prescribed by the military society.

b. According to section 773(b), title 10, United States Code (10 USC 773(b)), none of the uniforms prescribed in paragraph a, above, may include insignia or grade the same as or similar to those prescribed for officers of the Army, Navy, Air Force, or Marine Corps.

c. State defense forces (SDF) may adopt the Army service and BDU uniforms, provided all service uniform buttons, cap devices, and other insignia differ significantly from that prescribed for wear by members of the U.S. Army. State insignia will not include "United States," "U.S.," "U.S. Army," or the Great Seal of the United States. Personnel of the SDF may wear a State-designed SDF distinguishing badge or insignia centered on the left pocket flap. The red nametape or nameplate will include the full title of the SDF (for example, "Texas State Guard"). The utility uniforms will contain a State SDF tape in lieu of "U.S. Army" over the left breast pocket. States wishing to adopt the Army service and utility uniforms will register with the Chief, National Guard Bureau.

30-9. Wear of distinctive unit insignia on civilian clothing

Former members of an Army unit may wear the distinctive unit insignia on the breast pocket or lapel.

30-10. Wear of uniforms by U.S. civilians

a. Authorized U.S. civilian personnel attached to, or authorized to accompany forces of the United States, including DA civilians, are authorized to wear utility uniforms only when required in the performance of their duties, and when authorized by the MACOM commander. The procedures for purchasing uniforms, footwear, and insignia are contained in AR 700-84, chapter 3. Only the insignia described below is authorized for wear on these uniforms.

b. Insignia for civilians.

(1) Description. The woodland subdued insignia is a black equilateral triangle, 1¼ inches long per side, with the letters "U.S." in olive-drab color, ¼ inch wide and ½ inch high. The triangle is printed on an olive-green colored cloth background, 3 inches long and 2-½ inches wide. If applicable, the insignia also indicates the designated assignment in black letters, ¼ inch high. The desert subdued insignia is the same size, with khaki or tan letters on a black cloth triangle. The triangle is printed on a khaki or tan cloth background.

(2) The authorized designations are as follows.

(a) Scientific consultant.

(b) Operations analyst.

(c) War correspondent.

(d) Technical observer.

(3) Insignia for civilians performing duties not listed above, or when specific designations are not required, will conform to previously described insignia, except the insignia will not denote duty assignment (see fig 30–2).

Figure 30–2. Insignia for civilians

(4) How worn. Personnel will wear the insignia centered directly above the left pocket, or on the left sleeve on the utility uniform, and in a similar location on outer garments. Personnel will center the insignia on the front of the BDU cap.

(5) Nametape or nameplate. Personnel will wear a standard size nametape or nameplate in the same manner as for U.S. Army personnel (see figs 28–139 through 28–144).

Appendix C Officer Uniform Requirements

C-1. General

Officers are responsible for procuring and maintaining uniforms appropriate to their assigned duties. Officers will procure and maintain sufficient quantities of personal items necessary to ensure acceptable standards of personal hygiene and appearance. It is mandatory that all officers dress in accordance with their position as an officer of the United States Army, and in accordance with the traditions and customs of the service.

C-2. List of major components

The major items of uniform clothing that are normally prescribed by commanders, with the minimum quantities that all officers should have in their possession, are shown in table C-1 (see note 1).

⁴ As required by AR 600-8-24 and chapter 17, AR 670-1.

⁵ Officers will have four utility uniforms—two temperate and two hot-weather uniforms.

⁶ Additional quantities are authorized as organizational issue by CTA 50-900 when required by officers for performance of official duties while assigned to units with missions that include band formations, reviews, parades, ceremonial events, and other similar events.

C-3. Accessories

Officers also are responsible for procuring and maintaining adequate quantities of appropriate accessories, insignia, footwear, undergarments, headgear, and gloves for use with the above uniforms.

Appendix D Mandatory Possession and Wear-out Dates

D-1. Possession and wear-out dates of clothing bag items

a. All soldiers are required to possess all clothing bag items. The following items in table D-1 and table D-2 have either been added to the clothing bag, or were changed enough to require replacement by a new item. The item, number required, and possession dates are listed below, along with the wear-out dates for deleted or replaced items.

b. Initial entry enlisted soldiers will be issued these items in their clothing bag. All other soldiers must purchase them. Enlisted soldiers will be paid sufficient clothing replacement allowance (CRA) to purchase these items from the Army military clothing sales store. The CRA is paid over a period of time from the date of the introduction of the item into the system, to the mandatory possession date.

D-2. Replacement of required items

a. The CRA is paid to enlisted soldiers on an annual basis to provide sufficient funds over a period of time for the replacement of required items of clothing that are prescribed for wear. The CRA is not intended to cover the cost of repair, dry cleaning, or laundering.

b. The initial issue represents the minimum uniform requirements. It is possible that soldiers, particularly careerists, may find it convenient or advantageous to acquire and maintain more uniforms than are provided for in the CRA. In addition, any unusual wear and tear, damage, or loss of items may result in out-of-pocket costs. Greater than average wear of one type of clothing bag item (such as the BDU) is offset by less than average wear of another (such as the Army green service uniform).

Appendix F

Shoulder Sleeve Insignia-Former Wartime Service (SSI-FWTS)

F-1. Applicability.

This guidance applies to soldiers of all components (Active, ARNG and USAR) that deploy during periods of service designated for wear of the SSI-FWTS, in accordance with paragraph 28-17.

F-2. General.

- a.* There is no time-in-theater requirement to be authorized to wear the SSI-FWTS.
- b.* A deployed unit that is authorized to wear an SSI in its own right (or an organic component thereof), in accordance with para 28-16, will wear that unit's SSI as the SSI-FWTS. This is true regardless of whether the headquarters element deploys, and regardless of the number of changes to the unit's alignment or operational control (OPCON) during the period of deployment.
- c.* When a unit not entitled to its own SSI deploys, the OPCON relationship prior to deployment is terminated, and a new OPCON relationship is established. Members of these units will wear the SSI of the lowest echelon deployed unit entitled to an SSI in each of their new deployed chains of command as their SSI-FWTS.
- d.* When there is no intermediate unit that has its own SSI in the deployed chain of command, members of units not entitled to their own SSI will wear the SSI of the senior Army command in the theater as their SSI-FWTS.
- e.* Soldiers who are cross-leveled, assigned, attached, or augmenting deployed units, and soldiers who are TDY on orders through the use of DD Form 1610 (Request and Authorization for TDY Travel of DOD Personnel) will wear the same SSI-FWTS worn by members of the deployed unit(s) to which attached or OPCON. This does not apply to members of Trial Defense and CIDC, who will wear the SSI of their respective commands as their SSI-FWTS.
- f.* Soldiers authorized to wear more than one SSI-FWTS may choose which SSI-FWTS they wear. Soldiers also may elect not to wear the SSI-FWTS.
- g.* Precedence was established in Vietnam for elements organic to, or an integral part of an organization to wear the organizational SSI as their SSI-FWTS.
